AS JOHNNY SEES IT.

Plodding about the campus Monday night was a weary senior totting an open book and a flashlight. We (my stooge and I) followed him for several blocks and noticed him flashing the light into the trees at various spots around the campus. Unable to fathom the student's purpose, we dashed up and asked him point blank, "Whatcha doin'?" Whereupon, he poured forth such a pitiful tale of woe that we were both shaken. After blurring something disrespectful about a professor thru a downpour of tears, we managed to understand his plight. He was going to have a quiz on botany concerning the leaves of various trees about the campus and had to spend the night reviewing. And an all knowing senior, too.

When I mentioned a probable possible concerning Jack Gellatly and Dorothy Cain, D. G. playgirl, yesterday, I was mystified by the absence of the party of the third party. Today it popped. Don Powell of Phi Delta also has a batting average well over .500 in that league and is causing no little strife. Insiders say that Dorothy is strictly on the fence at present in which case I might suggest the renewal of Delta-Phi Delt belt battles.

Frannie Marshall, also of Delta Gamma, is having trouble with her Georgie. I thought the tie was mangled during the last spat when the pins went back to owners but evidently it struggles on.

Its unofficial as yet, but I have a report that Sig Epi is leading the league in the cigar candy transfers. They are said to have three with another on the fire ready to pop within the next week or two.

HOME COMING JAMBOREE STUART FRIDAY NIGHT

Nebraska students and grads will join with Lincolnites Friday night at 11:15 in a Rally at the Stuart Theatre and "Raise the Roof!"

The management of the Stuart has arranged an all fun program which promises to keep the crowd cheering, laughing, singing, and in general should raise the old Cornhusker spirit as only a good homecoming pep rally can. The Cobs and Tassels will lead the cheering, and as a special feature an electric organ has been secured to supply the music. Comedy and Dance acts will also be featured on the stage, along with a special act which has not been definitely announced.

One of the hit tunes of the musical hit "You Can't Have Everything" furnished the title for the screen entertainment offered at the Jamboree. "Danger Love at Work" starring Jack Haley, Ann Sothern, Mary Boland, Edw. Everett Horton, Walter Catlett, and an outstanding cast of other screen funsters in a howling hilarious, comedy farce, guaranteed to jar even the most sour-puss student out of his seat.

round and round and where they'll stop nobody knows. Try it yourself if you want a lift from the beaten down feeling you've had ever since the last deluge of nouse parties. Let me see, you might start out fresh as a daisy, and you could probably manage to take in all the house parties Friday night and even Anson Weeks without ever letting down.

RALLY TO THE TRI DELT HOUSE.
They're having a real football party with goal posts set up for anyone who feels playful. It'll help you get in the spirit for Saturday's game. To get off to a good start, why don't you Tri Delta?

THEY'RE JUST KIDDING.
The Acaecia's have turned back time for their kid party. Guy Williams has charge of the affair, and Guy, you know is likely to go to extremes in whatever he does, so they'll probably have something something ultra-ultra. The main trouble at the house seems to be a matter of dress. A few of the lankier boys just can't picture themselves in rompers.

ALSO FRIDAY.
To get a lineup on petty drawings, stop in at the Alpha Sig house for their Esquire party. They're engineering it rather neatly I've heard, so it ought to be a lot of good clean fun. While you're around and about, you might enjoy the Kappa Delt fling also at their chapter house. Overheard some of the girls talking about it in Campus Inn today, and it sounded like a good deal.

AT BROADVIEW.
Farm House boys will do their share to liven the evening with their fall party at Broadview Country club. The affair starts at 9. Couldn't tell you just how to rate a bid.

Today marks the deadline for R. O. T. C. companies to enter teams for the barb intramurals. Tournaments are scheduled for touch football, volley ball, basketball and softball. Awards and medals will be given to members of the winning teams and to outstanding individual players. Only unaffiliated students are eligible to compete in the intramurals under the sponsorship of the R. O. T. C. as the Greek intramurals adequately take care of the fraternity men. All men playing in the games must have a physical examination from the student health department in Pharmacy hall.

Nine Teams Entered.
Basketball teams can practice in the coliseum as soon as organized. Floor and basketball reservations must be made two days in advance. These reservations will be made by the student officer who is in charge of the sports of that company.

The Engineering Companies A, B, C, and D have each entered one team while in the Infantry, Company A has entered two teams and Companies F, H, and I each are represented by one team. Expectation are that more teams from various companies will have entered by the deadline this coming Thursday.

Additional information may be secured at the R. O. T. C. Intramural bulletin board on the second floor of Nebraska hall.

Stars and Stuff

"Varsity Show," the best of the recent crop of gridiron-college flickers starts at a local shooting gallery this week. Featuring the swing of Fred Waring and his college band, Johnny "Scat" Davis and the smooth warblings of the sisters Lane, the picture is a certain hit... Oh, Dick Powell has a part in it too. More about these Lane girls, Rosemary and Priscilla. Both have been signed with Warners for future screenings and have broken definitely with Waring, thus ending a long relationship that has been mutually beneficial. Exceptional is Poley McClintock, the popular frog-voiced comedian. Rhythm is the quarterback of "Varsity" with seven outstanding hits. Most notable of these are "We're Working Our Way Thru College," "Love Is On The Air Tonight" and "Old King Cole."

James Cagney leaves his tough guy attitude at home and turns sissy in "Something to Sing About" — he even dances! It's at the Kiva.

Don Ameche has officially been recognized as one of Wisconsin's sons who made good. The Kenosha County Historical Society had asked the young star of "In Old Chicago" for permission to assemble a pictorial record of his

career for inclusion in the society's archives.

A none-too-vaudeville-conscious Lincoln is forcing the Orpheum management to make stagshows a bi-weekly affair. This week it's Earl Gardner's Stork Club Scandals.

All members of Pershing Rifles will meet this afternoon in Nebraska hall at 5 o'clock. Each man is requested to wear his uniform in

order to practice for homecoming formations. Every member is requested to be present.

The Comenius club will meet Friday, Nov. 5, in the Temple to hear Mr. Charles Smrha of the state insurance department. Plans for a party at Dr. and Mrs. Breuer's home will be completed. The meeting is at 7:45 in room 306 and

all Czech students are urged to attend.

Kansas Line Stand-Outs

Kansas is pinning its hopes of upsetting the Cornhusker grid machine this Saturday in Memorial stadium on these four outstanding linemen as well as the rest of the inspired Jayhawker team.

Mike Sihanick and Forrest Hardacre, Jayhawk ends, drew praises from the coaches after the hectic Oklahoma game and caused them to be the most improved players on the team. Dave Shirk, star left end on the 1936 team, is rapidly recovering from a leg injury and may see action against the Huskers in the championship tilt.

Big George Stapleton, Kansas left guard who is making a bid for all-conference honors this year, is Coach Ad Lindsey's stand-out line performer. Stapleton excels in defensive play. Stapleton's running

CHEMICAL ENGINEERS SEE SULPHUR INDUSTRY FILMS

Films showing the sulphur and asbestos industries were shown last night before members of the Student Chemical Engineering society in Avery laboratory. Prof. C. J. Frankforter of the chemistry department also briefly discussed the subjects and offered explanatory remarks during the films' showing.

The first film was concerned with the Frasch process of mining sulphur, and purifying and handling the product. In the second film, the production of asbestos was demonstrated, showing the process from mining the mineral to the finished product.
