LINCOLN, NEBRASKA, WEDNESDAY, DECEMBER 1, 1937

PRICE FIVE CENTS

JUNIOR CHAMBER SETS GRID RALLY DATE AT DEC. 14

Program to Honor Players of Nebraska, Wesleyan, High School Teams.

A record attendance is expected for the junior chamber of commerce annual all-state football rally which will be held in Lincoln on Dec. 14, in honor of "Biff" Jones, the senior letterman of the Nebraska team, the football men of Wesleyan university, and outstanding high school players and coaches of the state. Invitations have also been extended to all members of the 1937 Cornhusker football team.

Emmett Junge, chairman of the junior chamber of commerce committee, which is in charge of the details of the rally, announced that 13 high schools had already accepted his invitation.

Delegates will be present from Curtis, Omaha Central, Fairbury, Holdrege, Wilbur, College View, Eagle, Ulysses, Valley, York, Ashland and Lincoln high. It is expected by the committee in charge.

COUNCIL TO SELECT NATIONAL DELEGATE AT MEETING TODAY

Members Designate Problems of Student Government For Discussion.

Plans for the National Federation of Student Councils convention will compose the bulk of the business discussed by members of the student council at their regular meeting this afternoon at 5 o'clock in University hall. The delegate to the meet, which is to be held in Albuquerque December 28 to January 1, will be selected by the body.

The federated student councils hold a national meeting biennially at which the general problems of all student governing bodies are discussed. The problem that the Nebraska delegate will bring before the convention will be discussed at the student council meeting today.

Because the national convention comes at the time that the Big Six student council conference is usually held, the Big Six conference will not be held this year, and instead the topics that would have been brought up they will be discussed at Albuquerque.

MICHAEL TO LECTURE AT ENGINEERS' MEET

'Carquinez Strait Bridge' Subject of Student's Address Tonight.

An illustrated lecture on "The Carquinez Strait Bridge" will be presented before members of the Nebraska chapter of the American Society of Civil Engineers by Stanley Michael, junior in civil engineering, at a meeting this evening at 7:30 in Mechanical Arts hall, 102. Prof. D. H. Harkness will also present movies which he took at the engineers' camp last summer.

The Carquinez Strait bridge was completed in 1927, spanning the strait of that name located about 25 miles north of San Francisco. It is of the cantilever type and is the second largest of that type in the United States. It has two main spans of 1,100 feet, and is notable for its deep pier with foundations some 135 feet below the water level.

Details of the bridge will be (Continued on Page 3.)

France Frowns Upon Dating Unless Married or Engaged Says Exchange French Coed

By Elwood Randol. "Everything is too big in the United States New York is too big and dirty and everyone seems to be in such a hurry to get from one place to another." That is the opinion Simone Thierry of Paris, France, has of this country. "Nothing new," she said, "but on a much larger scale. Not always better, but bigger."

Simone has dark hair, bluish-gray eyes, is about five foot five, weighs one hundred twenty pounds, and has a winning smile which enhances her personality. She was born on a farm a little less than a hundred miles east of Paris on the day that the French army was mobilized to meet the advancing Germans. At one time during the war when the Germans seemed to be menacing the house in which her parents lived, Simone was sent to Switzerland for safe-keeping. Although she was four years old at

Coeds' Dates Describe Military Ball Gowns

Colleagues Give Masculine Picture of Formals For Friday Night.

After years of contacting coeds to get preview glimpses of Military Ball gowns, the Daily Nebraskan is revealing its policy this fall. Various men on the campus who will escort the more glamorous femmes to Friday's shindig were asked to describe the gowns they were to wear, and after considerable phoning of the girls-in-the-case, the ladies came across handsomely. Here we present a date's-eye-view of the fashion parade that will sweep by at the grand march.

According to Dal Tassie of the Beta house, Peggy Durland will wear "one of those flimsy things that you see through and then they put gold on it and a black slip." The gown will be of black net with brief puffed sleeves.

"T-Strap Affair." Ed Steeves, Sigma Nu, explains that Betty Widener's formal is of gold satin, fitted at the waist and full in the skirt. "They tell me it's very severe," Ed stated, "with a T-strap affair in back. From what I understand, it's the kind that you can't see much of from behind because the back gets in the way."

Bill Gray, Delta, revealed off a description of Flora Albin's gown without hesitation: "It's a white formal covered with I guess you call them gold sequins, and a close fitting jacket." He added that his date would wear a gold feather in her hair. "I helped pick it out," he explained.

Perhaps Virginia Lea would have a different way of saying it. (Continued on Page 4.)

Los Angeles Terror-Ridden As Mountain Moves on City

Huge Boulders Roar in Relentless Descent on Riverside Drive.

The mountain came to both Mohammed and Los Angeles with a deep roar when Elysian Park's moving mountain started its relentless descent on Riverside drive and the Los Angeles river bed.

At Lookout Point, where the danger of a landslide first was betrayed by cracks in the pavement skirting the brow of the hill, giant boulders, teetering on the edge of the 1 million ton mass of earth and rocks, plunged at intervals and bounded into the dry river bed skirting the highway. Geologists who inspected the gigantic, gaping hole ripped in the face of the 300 foot high cliff by the slide asserted that 3 million tons of earth still remain outside the vault, presenting the danger that it may come pounding down into the heavily traveled area below.

"There is less hope than ever, and I am sure the worst is yet to come," said Dr. John P. Brualda of the California Institute of Technology.

Los Angeles citizens, terrified by the ominous roar and the spectacle of a landslide in the heart of the city, ask with fear and trepidation if this is a display of Mother Earth's wrath. Dr. E. P. Schram, of the Geology department, says that "landslides are common, and this is probably the result of some volcanic action. The earth is slipping just a few inches at a time, but it may in a few months equal the 15 inch slippage that caused the San Francisco earthquake in 1906. This crater is a petty one, compared to the magnificent landslides that can be seen in the moon, and someday we hope to see many of them thru our University telescope.

FIVE PHI TAU THETA MEN ATTEND MEET

Paul Sprout, Glenn Hediges, George Dinsdale and Roland W. Nye journeyed to Athens, O., over Thanksgiving to attend the 13th national convocation of Phi Tau Theta. The boys, president, vice president, secretary, and chaplain, respectively, of Beta chapter, went as delegates and were accompanied by the Methodist fraternity's national president, Dale E. Weese of Lincoln.

N.A.C.S. MEMBERS HEAR JOHN HASSLER TONIGHT

Virginia Chemist Discusses Carbon Adsorption At 176th Meeting.

John Hassler, director of research for the West Virginia Pulp and Paper Co., will address students and faculty of the University of Nebraska this evening at 7:30 in the auditorium of Avery laboratory of chemistry on the subject "The Application of Activated Carbon to Problems of Industrial Chemistry." Slides will be shown and demonstrations carried out.

According to Dr. E. A. Washburn of the chemistry department, the speaker will discuss the general principles of adsorption as well as the application of these principles to such practical problems as the removal of objectionable tastes and odors, the concentration of bodies that can be adsorbed, filtration, evaporation and crystallization and adsorption agents, so-called "catalysts."

Hassler was obtained by the student engineering society of the university and the program, which is open to the public, marks the 176th meeting of the Nebraska section of the American Chemical Society.

HUSKER STOCK JUDGES RANK 12TH IN CHICAGO

Kansas Tops Intercollegiate Field as 35 States Compete.

In the heaviest of competition the University college of agriculture's livestock judging team placed 12th in the intercollegiate contests at Chicago in connection with the International Livestock show. Twenty-five different states were represented.

Kansas won the event with Cornell second and Iowa third. Competing on the Nebraska team were Lester Schwadke, Bradish, Carl Swanson, Kearney, Ray Cruise, Gurley, Russell Jacobson, St. Paul, and Earl Hedlund, Chappell, DeLoe Johnson, Newman Grove, was the alternate.

Prof. R. R. Thalman's senior livestock team placed 18th on cattle, 10th on hogs, 4th on sheep and 12th on horses. Carl Swanson was the seventh high individual in the entire contest. (Continued on Page 3.)

MORTAR BOARDS NAME CHAPERONS FOR VICE VERSA

Selleck, Ramsay, Minter Will Attend Leap Year Party.

Chaperons for the Mortar Board leap year party Dec. 10 will be Mr. and Mrs. John K. Selleck, Mr. and Mrs. W. H. Ramsay, Major and Mrs. C. C. Minter, according to announcement by Jane Barbour last night.

Guests will be Chancellor and Mrs. E. A. Burnett, Mayor and Mrs. Oren S. Copeland, Governor and Mrs. Roy Cochran, Colonel and Mrs. W. H. Oury, Major and Mrs. L. M. Jones, Dean and Mrs. T. J. Thompson, Dean and Mrs. W. W. Burr, Dean and Mrs. C. H. Olfather, Dean and Mrs. J. E. LeRosaignol, Dean and Mrs. G. A. Grubb, Dean and Mrs. O. J. Ferguson, Dean and Mrs. H. H. Foster, Dean and Mrs. R. A. Lyman, Dean and Mrs. F. E. Henzlik, Mr. and Mrs. Gayle Walker, Mr. and Mrs. Howard Kirkpatrick, Mr. and Mrs. A. A. Reed, and Dean and Mrs. F. W. Upton.

Sponsors to Attend.

Mortar Board party sponsors will be Dean Amanda Heppner, Dr. Emma Schrick, Miss Margaret Fiedle, Miss Nellie Eustrom and Miss Lenore Alway.

Alumni of Mortar Board society who are members of the faculty have also been invited to attend. They are: Miss Mathilda Shelby, Miss Kate Field, Miss Edna Gamble, Miss Pauline Gellatly, Miss Alice Howell, Miss Mabel Hayes, Miss Mabel Lee, Miss Marguerite McPhee, Miss Laura Pfeiffer, Miss Elsie Ford Piper and Miss Louise Pound.

Sell Tickets Tuesday.

Others are Mrs. Elizabeth Thompson, Miss Edna Walker, Mrs. Hattie P. Williams, Mrs. Fred Williams, Mrs. Ada Westover, and Miss Clara Wilson, Mrs. Stanley Ginn and Miss Mildred Green will also be guests.

Tickets for the leap year party will not go on sale until Tuesday, Dec. 7, when members of Mortar Board and Tassels will have them.

Y.W. PLANS ANNUAL 'HANGING OF GREENS' DINNER FOR TONIGHT

Program to Include Songs, Traditional Decking of Ellen Smith.

The Hanging of the Greens dinner, sponsored by the Y. W. C. A., will be held tomorrow evening at 5:30 in Ellen Smith Hall. This event is held annually for the purpose of decking the building in Christmas greens shipped from Estes park.

Reservations for the dinner must be in by this noon and may be arranged with Evelyn Taylor, who is in charge of the ticket sale, or at the Y. W. C. A. office.

The program for the evening, outlined by Loraine Elmberg, head of the personnel staff and in charge of the arrangements, includes the singing of Christmas carols by the Vespers choir directed by Maxine Fedette, as the guests assemble, followed by a piano solo by Tex Rozelle Rounds and a Christmas reading by Virginia Davis. A vocal solo by Betty Davis will precede the hanging of the greens, in which all the guests will participate.

Special guests will be Dean Amanda Heppner, Miss Elsie Ford Piper and the Y. W. C. A. advisory board. Others attending will be the members of the eight major boards who supervise women's activities on the campus, including the Mortar Board, A. W. S. board, Barb A. W. S. board, W. A. A. council, Coed Counselor board, Home Economics board, officers of the Tassels and the Y. W. C. A. cabinet, and members of the Y. W. C. A.

A charge of 35 cents is being made for the dinner.

Iowa-Nebraska Employees To Describe Work Tonight.

Three seniors in electrical engineering, now engaging in part time employment with the Iowa-Nebraska Light & Power Company will relate technical information and first hand experiences at a meeting tonight of the Nebraska chapter of the American Institute of Electrical Engineers.

Harvey N. Skov is working in the load dispatching office, Frank C. Howard is in the K street plant office, and Thomas J. Anderson is employed in the engineering office. The meeting will be held in room 206 of Mechanical engineering hall, but members of the society will first meet at 7 o'clock at the campus studio to have their picture taken for the 1938 Cornhusker.

Election of the society's candidates for the offices of general chairman and secretary-treasurer of this year's Engineers' Week will also be held at the meeting. Following the meeting, members will make an inspection trip through the K street plant under the guidance of the plant operators.

PRE MED. Dr. Miles J. Bremer will speak at the dinner meeting tonight of the pre-medical society at 6:15 at the Grand Hotel.

History of 'Book of Books' From Ancient to Modern Day Related in Library Exhibit

"The Book of Books," an exhibit of facsimiles illustrating the history of the English Bible, is the subject of the display on the second floor of the Library hall at present.

Starting with one of the two oldest and greatest Bibles in the world, the Codex Sinaiticus of the Greek Bible, the exhibit progresses to the Vulgate version, consisting partly of the work of Saint Jerome the Hermit and partly of unriveted translations. Next comes the Geneva Bible, which is the work of English refugees in Geneva and intended to bring England into line with continental Calvinism, followed by the Douai version, the Roman Catholic counterpart to the Geneva Bible, produced under the guidance of the Jesuits to bring England into line with the Roman church.

King James Version. The King James version is exhibited and is explained as being authorized by James at the suggestion of Dr. John Reynolds, Puritan leader, as he objected strongly to the Geneva edition. This version is said to combine the merits of a great many previous translations and is phrased in incomparably beautiful English.

Also displayed is a facsimile of the Coverdale Psalter, edited in 1535 in honor of the quarto centenary of the publication of the first Bible printed in English, 1635, by Miles Coverdale. The Coverdale version was supposedly printed in Zurich in sheets and then taken to England and a different title page substituted which read, "Faithfully translated into English." When it appeared it was dedicated to the King by his "humble subject and dayle orator, Miles Coverdale." The work is described as not accurate, but having grace (Continued on Page 4.)

Master Farmer Honors Feature Annual Ag Week

Sessions to Begin Monday, Continue Thru Friday On Ag Campus.

National Gallery Seeks to Reclaim 'The Fall Season'

Lined to the University of Nebraska by the National Academy of Design "The Fall Season" by Bruce Crane may be reclaimed by the National Gallery in Washington, according to the conditions of the bequest, which states that ten years after the artist's death it may be reclaimed or become the permanent property of the university.

Bruce Crane, famous for his landscapes of autumn days, died October 29 at his home in Bronxville, N. Y., at the age of 80. One of the oldest active artists in the country, Mr. Crane worked until the day of his death, when he collapsed suddenly of an heart attack. Besides numerous other activities in the art world, he was a former president of the Soloway club.

For the last 25 years, Mr. Crane lived in Bronxville, and painted many lyrical landscapes. A mellow yellow plays a predominant part in his work. For Mr. Crane was fond of doing landscapes of bright autumn days and dull fall days, dominated by gray.

The artist started exhibiting at the National Academy as early as 1879. He became an associate member of the National Academy in 1885 and an academician in 1901, was a member of the council of the National Academy and belonged to the American Water Color Society.

"The Fall Season" is a woodland scene of greens, mellow yellow and grays. It is soft in color, while at the same time it suggests bright autumn days, warm sunshine, and crisp, frosty days. Representative of his lyrical painting, it is considered one of Bruce Crane's best works.

Dr. Harold Graves to speak. General meetings of all organized societies will be held Thursday and Friday of Ag week in College Activities building. The Thursday assembly will be addressed by Dr. Harold Graves of the University of Wisconsin on the "Tax Situation." Friday's meeting will have for its speakers, Dr. Regina Wiernan, Chicago, who will speak on "What Makes Life Interesting?"; Dr. William (Continued on Page 2.)

ZANZIG TO ADDRESS FIRST SPECIAL MUSIC CONVO THURSDAY AT 3

Music as a College Sport Subject of Program In Temple.

"First Rate Music Is a College Sport," Augustus Zanzig, member of the advisory committee of the federal music project, will defend this view of the subject at 3 o'clock Thursday afternoon, when he addresses a special public convocation in Temple theater. According to Howard Kirkpatrick, director of the University School of Music, the program has been arranged for the purpose of acquainting students with what is being done in the field of popular music in institutions of higher learning throughout the country.

Zanzig was formerly director of music in Brookline, Mass. public schools, was an instructor at Smith college, and lectured on the teaching of music at Harvard as well as founding and directing the Brookline music school. He has had considerable experience as a director of choral and instrumental groups and is known as the author of "music in American Life." Mr. Zanzig has written extensively for magazines and is a member of several committees of the music supervisors' national conference. He is acting at the present time as director of music service with the national recreation school.

ALPHA LAMBDA DELTA INITIATES 7 TUESDAY

Frosh Scholastic Honorary Installs Members in Special Meet

Seven new members were initiated into Alpha Lambda Delta, freshman girls scholastic honorary, last night, at special initiation services in Ellen Smith hall. Those installed as members included Blanche Larson, Doris Redick, Fern Steuterville, Horlene Cassidy, Dorothy Cook, Marjorie Emerig, and Mary Louise Baker. Members are selected on the basis of high scholastic averages earned during their freshman year.

Margaret Lohs was in charge of program arrangements. Menu committee members included Isabel Roseoe, Mary Griebenstroh, and Mary Louise Speidel.

FROSH AWS TO HEAR MISS DURAND TODAY

Mortar Board President Will Discuss Functions of Honorary.

Maxine Durand, president of the Mortar Board Society, will speak at the Freshman A. W. S. meeting, to be held at 5 o'clock this afternoon in Ellen Smith hall.

Miss Durand, an active member of the A. W. S. board, will discuss the significance of the senior honorary society, and how one is elected to it. Betty Cherry, A. W. S. board member in charge of the Freshman group, stated that Miss Durand's discussion would probably contain an explanation of the traditions of the annual Mortar Board party.

Gertrude McArthur, chairman of this week's meeting, said that parliamentary law will be discussed. Betty Ann Roach will act as secretary.

OLDFATHER SPEAKS AT VESPER SERVICES

Professor Tells Educator's Views on Requisites For Success.

"The professor should be essentially honest, fair and open minded, should keep young, and should get his satisfaction from seeing the development of the students," said Dean C. H. Olfather in an address entitled, "Significant Living from an Educator's Viewpoint," which he gave at the vesper service Tuesday afternoon. The dean also said that the professor should most of all be a student of the subject he is teaching. Moulding of character is not done directly but indirectly.

The professional, "Father of Life," was sung by the choir under the direction of Maxine Fedette. "Great Master Touch," was the choir's special number, and "The Earth is Touched in Silence," was sung as a recessional. The group united in singing "It Came Upon the Midnight Clear." Marian Bradley was in charge of devotions.

THE WEATHER

Forecast for today is fair and colder again. The weather bureau reports that temperatures are generally below average throughout the country with 20 degrees as the estimated low for Lincoln.
