

BY THE HAUNTER

No fire engines were called for and no fire engines came, but enough water was poured in the Sig Alpha windows the other night to put out the blaze in old Chicago and two or three times over. The action started when smiling Sam Francis drenched the boys on the S. A. E. lawn with a bucket of H<sub>2</sub>O thrown from a second story window. The hose was brought into play from below and Sam and his other mermaid friend would have had a dousing if the window hadn't slammed down. Someone threw a rock through the pane of glass and the room was flooded. The big one sheltered himself with a shower curtain till a bucket was brought to drop on the hosers' heads. Swish and the window was down once more and the fight was over.

John Mason and Verna Ray were much embarrassed by the announcement of their pin hanging in this column. The two have received congratulations all day from their friends and enemies, when as a matter of fact Johnnie is still sporting his hardware himself. We are sorry; we were led astray by Kappa gossip.

Romance is in the air and this time it's Adna Dobson and Jane Bell who are rushing around together. Rumor has it that Dobby is the 28th victim, but don't get us wrong. We only heard.

Back to the Beta house, as predicted, went Marie Anderson, Kite girl. We were right for once.

And it's a new girl at the drug who serves cokes to the studs who drink them. The Sig Alpha must have run Irma, the old one, out for she wasn't there yesterday morning.

Need we remind you that the Awgwan is on the stands. Truth is on the march in the core columns, so beware of cartoonists and candid cameras.

Nothing remains a secret forever. Pris Chalm, Theta, and Bucky Prime, A. T. O., were rejoicing at the fact that Pris had had his pin for nigh onto a week and it had escaped the publications. However, it was seen and it's not in possession of just-friends now. It seems he got it the Tuesday before Ivy Day. That evening both houses sang over the radio, and so Pris and Bucky came home together. That was the night she put it next to her kite.

It seems that Chi Phi calls their officers by letters of the alphabet, for those just elected were turned in by these titles: Dean Kadavy, alpha; Wayne Mullet, beta; Kenneth Teich, gamma; Bill Spencer, delta; George Nelson Lyon, epsilon; and Cecil Hallowell, zeta.

Saturday night brings the Sigma Nu Gold Rush party once again. This party has been a tradition since 1912. It was first started for the purpose of having an original party and has continued ever so. The whole house takes on the appearance of the days of '49. The decorations are so complete that it takes a whole day to put them up. There is the old fashioned 'd' and bar; gambling tables and tin-type pictures; photographers asking to take pictures, and characters of the old west running all over the place. Last year Adna Dobson came as a gambler, and his date, Frances Boliman, D. G., wore hooped skirts. Tommy Davidson, brought his squaw in by the hair; Jack Simmons came as a deacon, but Louise Boyd, Kappa, failed to fall in line with her date, for she didn't come as the deacon's wife, definitely not.

Duke Decker showed up as a prospector, with Virginia Lee. However, he didn't use her pan to look for gold, Betty Jean Davidson and Jack Bingenheimer were together, and also Mary Margaret Maly with Harry Haney. In fact, it looked as tho it were the days of Delta Gamma instead of '49. Pat Peterson became the second Mae West with her sweeping skirt and fancy dress. Pat, who is a Pi Phi, was supposed to be the "Belle of '49," and according to reports, she really was there. Her date was Howard Fisher, who portrayed the part of a gambler, we suppose, to keep Pat in her frills and laces. At present, couples are worrying as to what to show up in. Maybe this will help. Theta Xi fraternity recently pledged four new men: Glen Schluackebier, Utica; Claude Tethor, Wood Lake; J. E. Liebenor, Fairbury, Pawnee City; and Arthur Lien, Fairbury.

Alpha Sigs are wishing someone would tell Bing Crosby-Rhode who is constantly using the telephone (talking to Ruthie Yourd mostly) that she is not going steady anymore. Maybe a few more are glad to hear of this also.

The Chi Phi's held their annual alumni Reunion banquet Saturday, in the Skyroom of the Hotel Blackstone in Omaha. In spite of bad weather, 125 attended. An interesting address, "The Road Ahead" was given by the speaker of the evening, George A. Lee of Lincoln.

MUSIC SCHOOL PRESENTS 30TH CONVOCATION TODAY

Misses Tookey, Kennedy Give Junior Piano, Violin Recital in Temple.

The 30th musical convocation of the school of music is being held this afternoon at 4 o'clock in the Temple theater.

Features of the junior recital will be several piano solos by Virginia Tookey, and a violin solo by Carolyn Kennedy. Perry Beach will be at the piano for Miss Kennedy.

The advanced student recital was held in the Temple theater yesterday afternoon. A large crowd made up of students and the general public attended the recital.

L. B. Smith to Address Sigma Gamma Epsilon This Evening at 8:00

Sigma Gamma Epsilon, honorary geology fraternity, will hold an open house this evening at 8:00 in Morrill hall. Professor L. B. Smith, director of the department of architecture, will speak in room 20 of the building. The fraternity invites all who wish to attend.

Highlights On the Air

The Women's National Radio committee at its fourth annual luncheon meeting last week announced that its members had voted in favor of a single award for "splendid achievement in radio" for 1937.

This award went to George V. Denny, jr., and "America's Town Meeting of the Air," a National Broadcasting Company feature.

Although confining itself to this one selection, the committee commended a number of other broadcasts in various classifications without the formality of making presentations or awards.

The following were some of the favorites published:

Best programs of serious music commercially sponsored: Ford Sunday evening hour, Philadelphia orchestra concerts, "Musical Star" programs and Metropolitan Opera broadcasts.

The first is a CBS program, the others, NBC broadcasts.

Best Dramatic programs: Lux radio theatre and Columbia Workshop, both CBS features.

Best serial program: One Man's Family, NBC program.

Best variety program: Good news of 1938, Rudy Vallee, both NBC.

Best adult educational programs: "America's Town Meeting of the Air," NBC; and Professor Quiz, CBS.

Best Radio Comedians: Charlie McCarthy, and Fred Allen, both NBC.

Outstanding comedy team: Jack Benny and Mary Livingstone first, Amos and Andy second, Burns and Allen third. All are NBC performers.

Most popular master of ceremonies: Don Ameche, first; Robert Taylor, second. Both NBC.

Good taste in Advertising: First place to Jell-O, on NBC, Second to DuPont "Cavalcade of America" on CBS.

If she remembers a tune while digging in her garden or having her hair waved, it's a sure sign to Connie Boswell that the song, whether she likes it or not, is going to be a hit. All it has to do is "repeat" in her mind.

Acting on these hunches, the warm voiced girl from the deep south, singing star on the CBS Monday night Show has shown uncanny ability to pick winners in the popular song sweepstakes.

"I do recordings at least four months in advance," she says, in explaining how she manages to be so lucky in picking hits. "I hear these new songs, work them over on the piano, and if they keep coming back when I'm doing things I like to do, I know I have something."

Her all time "high" in picking successes occurred recently when out of eight songs, submitted, she picked seven that turned out to be hits. But "Martha," the newest Boswell craze, she picked for "Swinging," because she adored the Caruso records of the opera as a child.

Connie, once just one of the trio of the famous Boswell sisters, which included Martha and Vet, is definitely "on her own" now in the entertainment field. Again she is demonstrating that spark of originality in modern music which brought to her and her sisters fame and wealth.

She is one of the few feminine stars who talks the way she sings. She speaks with a deep tone and her words have a haunting timber.

Chatter... Dorothy Lamour threaten to bob her brown hair as long hair hardly seems worth the time and trouble... her friends aren't worried as she said that before... Bing Crosby is gathering fishing tackle to go after trout on his mountain ranch when the season opens... Bing celebrated his 34th birthday May 2. Tyrone Power will be starred next with Loretta Young and Anabella in a 2 million dollar picture, "Suez"...

Don Ameche and Jack Benny are vacationing together between broadcasts on a desert ranch near Palm Springs... Marion Talley has taken to raising orchids... which take seven years to go from seed to blossom... Fannie Brice is still stunned from news that one oak tree transplanted on grounds of her new home in Beverly Hills will cost her \$750.

Expedition to Navajo Area Seeks Two Nebraska Men

Scientists to Map Indian Territory, Explore Utah Canyons.

Two University of Nebraska men may be elected to join the expedition for the exploration of the northern Navajo country in Arizona and Utah this summer. The men may be students or instructors and should be interested in engineering, archeology, geology in the biological sciences, or in the management of a scientific expedition. It was announced today at the Explorers' club by Dr. Charles Del Norte Winning, field director of the Rainbow Bridge, Monument Valley expedition.

The expedition is to explore, map, and study an area of some 2,000 square miles in a remote region that is probably farther from a railroad than any other point in the United States. Penetrating as far as possible by motor, the field party will then move equipment by pack train up winding canyons out into Rainbow plateau. Near the head of the Dogoszi Biko, a base camp will be established, and from this point scouting parties and scientific workers will push on afoot.

Engineers Map Canyons.

Ansel Franklin Hall, president, the American Exploration society, under whose direction the expedition is organized, states:

"We have already begun our explorations in that fascinating country of mesas, canyons, and deserts, but have as yet covered only a small portion of the area. About the middle of June we are going back to take up the task of pushing out as far as possible into

the 2,000 or more square miles that lie beyond our present horizons. Engineers will map intricately carved canyons, and will record the location of cliff dwellings and other evidence of pre-historic peoples reported by the archeological field parties. Extensive excavation will be completed in the Tsegi canyon. The botanists will concentrate upon a study of the richly forested summit of Navajo mountain."

Seek Rare Animals.

Biologists under the leadership of Dr. Angus Woodbury, of the University of Utah, will seek rare mammals, birds, reptiles, and fish in the deep canyons of the San Juan and Colorado rivers.

Other members of the staff will be Prof. Ralph L. Beals, department of anthropology, University of California; Lyndon L. Hargrave of the Museum of Northern Arizona, archaeologist; Prof. George Brainerd, Ohio State university; John Wetherill, custodian of Navajo National Monument for the National Park Service, will be associate field director.

The exhibition operates under a board of trustees, as a co-operative project, each man sharing in the work, and the field expenses. The two men will be chosen by Dr. Winning some time during the next two weeks; meanwhile he will receive applications sent to him at the Explorers club, New York City. Applications may also be sent to Prof. Fay-Cooper Cole, University of Chicago or to Prof. Ralph L. Beals, University of California. The remainder of the party will be made up of men from Princeton, Harvard, Chicago, Stanford, University of California, and several other large universities.

NEW COED COUNSELOR GROUP HOLDS MEETING

Women Make Preparations To Aid Freshmen Girls Of Next Year.

One hundred newly elected Coed Counselors met at a mass assembly of the organization yesterday afternoon at 5 o'clock in Ellen Smith hall to begin preparations for the orientation of freshmen women next year.

Virginia Fleetwood, president of the Coed Counselor board, presided at the meeting and described the purpose and activities of the organization. Following the general meeting, the Counselors divided into their separate groups under individual board members and discussed group projects.

First work of the Counselors will be to write more than 600 letters to girls who will be freshmen here next year, describing the campus and the big sister organization. Copies of the letters to the freshmen women which are being written by the Coed Counselors must be submitted to Miss Piper before 5 o'clock, Friday.

Projects which the groups will manage next fall will be information booths during registration and the first few days of school, the giving out of buttons to freshman girls, ushering at the freshman convocation, and assisting at registration.

Miss H. Alice Howell Leaves for New York To Visit May Pershing

Miss Alice Howell, head of the speech department, leaves Thursday for a trip to the east where she will remain for the remainder of the semester.

She is going to Millbrook, N. Y., to review some plays and from there plans to go to New York City to visit Dr. Elizabeth Williamson, formerly of the University of Nebraska. From there she hopes to go to Washington, D. C., to visit Miss May Pershing.

"There seems to be a new tendency to hold fairs with increasing frequency as a means of celebrating national or local historical events. It is safe to assume that the need for experts in this field possessed of specialized training, knowledge and experience will be increasingly great." So, announces Hunter college's Prof. Broderick Cohen, his institution will inaugurate a course in international expositions.

FIRST MATINEE DANCE DRAWS THROG OF 500

Van Sant Urges Students Attend Hops to Mix, Not to Date.

Student Union officials were greatly pleased with a turnout of over 500 students at the matinee dance held yesterday in the Union ballroom.

Records were played, with the most popular hit tunes used for dance music. Director Kenneth Van Sant emphasized however, that "the purpose of these matinee dances is to let everyone get acquainted with everyone else. We do not stage these matinee dances especially for those who make dates and come to dance, but rather for the entire student body. Everyone should come, date or no date, and get acquainted. A big stage line and a lot of cutting is perfectly all right with us."

Saturday afternoon from 3:30 to 5:30 another matinee dance will be held with the recording machine providing the dance music. This evening at 8:30, in the ballroom, moving pictures will be shown free to all who wish to attend.

SIGMA DELTA CHI, THETA SIGMA PHI SATIRE E CAMPUS

(Continued from Page 1.)

"Love, and What I think of the American Technique." Ramsay will consider the same subject from the Mexican angle, "A Study in Brown."

George Binger, voluble Sigma Chi, has been secured by the Seaton, Gunderson and Selloe Shows, Inc. to act as banker and ringmaster for the affair, while clown and a vendor will lend atmosphere.

Adna Dobson as Biff Jones, and Johnny Howell and Sam Francis as members of the coaching staff will explain the new technique which the Huskers, or rather the members of the Cornhusker Gridiron Debating society, will use when they argue against the Golden Gophers of Minnesota next fall on the subject, Resolved: "That there is no place like Nebraska."

Other skits will poke fun at the white spot campaign and various campus activities. Morris Lipp, taking the part of Prof. R. P. Crawford of "I think for myself fame," will show in successive stages the manufacture and emergence of the idea Sarah Louise Meyer, ex-columist for the Daily Nebraskan, impersonating "Little Egypt" will guide Baby Snooks in her quest for life and love.

Over 300 persons are expected to attend the banquet in the Student Union Friday, according to Bruce Campbell, chairman of the program committee. Tickets for the banquet, which will begin at 6 p. m. in the ballroom, are priced at \$1 and may be obtained from members of Sigma Delta Chi or Theta Sigma Phi.
