These opening days of vacation we turn our minds to the man's side of the question to discover summer plans for national fraternity conventions. Loading luggage and passengers in a conglomeration of cars, they trek east, west, in all directions, to gather at round tables in serious discussion of chapter problems.

Plans for the centennial celebration of the founding of Beta Theta Pi will be laid this summer at Pollan Springs, Maine, September 6 to 10 and from the Nebraska

campus goes Kermit Hansen who is considering a tour of the New England states and a visit in New York City before he returns next fall. In addition to the hundred year anniversary which will be feted at Miami, Ohio, next summer, the local chapter is looking forward to celebrating their semi-centennial anniversary on this campus.

Bruce Duncan and Ralph Ludwick leave August 22 for five days at Evanston, Illinois, where the Sig Alphas hold their annual training school. There, too, is the new memorial, a home for S. A. E.'s and over 200 hundred boys gather yearly from the 111 chapters in the interests of their own groups.

Oak Point Comfort is the destination of George Bacon and the rest of the boys attending the Phi

Delt convention during the closing days of August. A caravan of them, including Bill Woods, Al Maust, Jim Stuart, Roy Barnes and Bill Andreson will head toward Virginia late this summer to be present at the national get-together.

The inevitable attraction of New York state and all of its advantages for conventions lead the D. U.'s to choose Schenectady for this year's gathering. From 64 chapters come delegates to this, the 104th, convention. Howard Linch of Lincoln is Nebraska chapter's delegate with Carl Norden, also of Lincoln, as alternate.

Not quite so far away is the Chi Phi meeting to be held at Columbus, Ohio, during the first week of September. The fraternity was founded in 1824 at Princeton and now has 33 chapters, each of which is sending two men to this year's convention. From the Nebraska campus go Dean Kadavy and Ed Segrist, while Tom Andrews is planning to accompany them.

Another fraternity has chosen Chicago and now we're speaking of the Phi Psi's who meet June 20 to 25 at the Edgewater Beach hotel. Thursty Phelps, Fred Stiner, Lylse Christiansen, Bob Miller, and Jack Byers are all motoring to the affair.

And then there are the boys who are turning to the west coast with conventions in mind. Louie Leigh and Bill Wagner are the two delegates from Nebraska to the Fiji meeting at Portland, Ore. But with them will probably go Stuart Wiley, Bernie Inghram, Dale Barlan and Hugh Eisenhart. No wonder they have been talking about it for weeks even tho it isn't until September 1st, for among the distinguished Phi Gams present will be ex-Governor Landon. The delegation from Lincoln plans to tout the coast and return just in time for rush week.

Couldn't find out much about the Sig Ep convention, but we do know that it's at Berkley, Calif., sometime during June and that Dwan Green is being sent by this chapter.
