### Dr. R. G. Clapp Appointed To Olympic Committee

Dr. R. G. Clapp, chairman of the department of physical education for men, has been appointed a member of the American Olympic committee for this year and will attend the meeting of the group in New York City June 26. The committee of which he is a member has charge of all matters having to do with the United States' participation in the Olympic games which will be held in Tokyo in 1940.

### HORSE SHOE PLAYING INAUGURATES UNION'S PROGRAM OF SPORTS

Hour Dance Set Wednesday from 5-6, Admission Free to All.

Horseshoe playing started yesterday as the first recreational sport in the Student Union program for the summer. Equipment may be checked out daily at 6:30 p. m. at the Union check stand and courts have been laid out on the lot east of the building. A tournament is planned to start about June 21.

An hour dance in the ballroom to Capehart recordings is scheduled between 5 and 6 o'clock Wednesday. Admission will be free and dates are unnecessary, according to Miss Marion Steele, Union social director.

**Movies Thursday.**  
Thursday evening at 8 o'clock, sound movies will be shown in the ballroom, and Friday evening another dance will be held. The orchestra for the latter affair will be announced later. Saturday afternoon, students may attend another

### C. B. SCHULTZ HEADS EXCAVATION GROUPS

Three Museum Parties Go To Western Nebraska For Summer.

Three Nebraska museum parties are in the field this year in western Nebraska, excavating for museum specimens, particularly the remaining bones of the giant camel, part of which have already been obtained. C. Bertrand Schultz, assistant director of the museum, left Saturday with those members of the parties who were not already in the field. In addition to students, a large number of WPA workers will assist.

Groups already in the field include the party under Grayson Meade, which has been located for several weeks in the vicinity of Hemingford. Frank Dudek of Clarkson recently joined this group. Thompson Stout, Lewellen; Emery Blue, Lincoln, and Jack Graham of York will be in charge of parties this year. Included in Stout's group are Robert Glover, Bennet; Ervin Brier, De Witt; and Guy Johnson and Loren Toohey, both of Hemingford. This party will work along the headwaters of the Niobrara and will make Hemingford their camp site.

**To Survey Drainages.**  
Blue's party will survey the drainages of White creek and Hat creek in the vicinities of Crawford and Harrison. Members of this party include: Harry Gunderson, Lincoln; John Mercer, Orleans; Lloyd Tanner, Mascot; James Crosbie, Lincoln, and John Adams of Curtis. Graham, assisted by Donald Chaloupka of Bridgeport, will study the pleistocene terraces near Broadwater and Bridgeport along the North Platte valley.

Schultz's headquarters will be at Bridgeport, and he will direct all parties from there. Funds for carrying on the summer work have come as usual from the contributions of the late Charles Morrill and Childs Frick of the American Museum of Natural History.

### VAN ROYEN SAILS FOR AMSTERDAM GEOGRAPHY MEET

Professor Will Represent State at Congress, July 18 to 28.

Dr. Willem Van Royen, assistant professor of geography, sailed Saturday for Amsterdam, Holland, where he will give two addresses at the 15th international geographical congress, July 18 to 28. He has been certified by Governor Cochran as Nebraska's official representative at this world conference.

Dr. Van Royen will speak before the physiography section meetings on "Post Glacial Topographic and Climatic Changes in the Central Plains Region." He will also read a paper at the economic geography conference discussing some of the relationships between soils, climate, and crop yields in the American middlewest.

**To Go to Denmark.**  
While in Europe, Dr. Van Royen will also represent the state and university at the second international congress of anthropological and ethnological sciences in Denmark Aug. 1 to 6. He and Mrs. Van Royen will travel quite extensively abroad, particularly thru the Balkan countries. They plan to visit the leading educational centers as well as such geograph-

### SCHRAMM, STUDENTS LEAVE FOR SOUTHWEST

Party to Visit New Mexico, Colorado, Wyoming, South Dakota.

Ten students of advanced geology, accompanied by Dr. E. F. Schramm, chairman of the department, left Monday for a six weeks' field trip thru Colorado, New Mexico, Arizona, Utah, Wyoming and South Dakota, where they will study various rock formations and mineral and coal deposits.

Those composing the party include: Wilmer Shir, Lee Cornelius, Paul Fuenning, Everett Lowry, Carl Alexis, Ted Kubick, William Hendy, Robert Gutru, Frank Johnson and John Groth. These students will receive six hours of university credit for their work on the trip. They will go by bus and will camp in various places along the route.

**Study Along Republican River.**  
After a study of the geological formations along the Republican river of southern Nebraska, the party will go to Denver for a short time, studying the formations of the Rocky mountain front range. They will then go south to Trinidad, where they will study coal deposits. In eastern and northeastern New Mexico studies will be made of coal and potash deposits.

Following a trip south to Carlsbad cavern, the party will turn west to Arizona, where they will visit a petrified forest, a meteor crater, the Grand Canyon and a number of copper mines. Crossing the Colorado river north, they will go to Zion National park in southern Utah. Studies will be made of formations all along the Wasatch mountain range in Utah. Turning north thru Utah, the group will then examine various coal and oil shale deposits, and visit refineries at various points.

Entering South Dakota, they will go to the Homestake mines in the northern portion of the Black Hills, one of the largest groups of gold mines in the world. They will study formations near Rapid City and Hot Springs, turn east to the Big Bad Lands, and from there go south across Nebraska and back to Lincoln.

### Lost, Found Moves To Teachers College

The lost and found department for the summer session has been moved to the office of Director Moritz, 305 Teachers College, and reports of articles misplaced or found should be reported there. The list to date consists only of a green rain cape, which may be redeemed upon identification.

### ENROLLMENT CLIMBS TO POSSIBLE RECORD, TOPS 2,000 MONDAY

Registration Books Close Thursday, Deadline for Graduation.

Summer enrollment promises to reach a new high in 1938 as registration figures up to Monday morning showed a total of 2,005 students. This is far ahead of last year when total summer registration amounted to only 2,017—12 more students than at the present time with registration for this year not due to close until Thursday, the deadline for graduates.

Total enrollment in the university during the past year has been officially announced as 11,748. This is nearly an all-time record, being surpassed only by the 11,848 figure of 1926-27 and the 11,875 figure of 1927-28. Enrollment of 1936-37 reached 11,525. All of these figures include summer session, extension, first and second semester collegiate registrations, short courses, and secondary registrations.

Increases were reported last year in the following colleges and schools: Agriculture, business administration, engineering, law, journalism and nursing.

### Dr. Hendricks Writes For Current Magazine

Dr. B. Clifford Hendricks of the department of chemistry recently published another article on examinations in The Journal of Chemical Education.

Tests should be used as a tool to measure progress, the article explains, not merely to provide a grade upon which to base promotion and graduation. Students are really growing pupils, and tests show us whether or not there really is growth and how much.

### SUMMER DRAMA SEASON TO OPEN THURSDAY NIGHT

Revival of Winter Success, 'Penny Wise,' Offers Original Cast.

Not to be outdone by New England's "straw hat" theater season, the university speech department inaugurates its 1938 summer theater with the presentation of "Penny Wise," three act comedy, Thursday evening at the Temple.

Produced last winter by the University Players, "Penny Wise" won the enthusiastic approval of the campus in its week's run. Most of the original cast will be featured in Thursday's revival including Betty Widener as Penny, John Gaeth as Gordon, her husband, Don Boehm as wise-cracking brother Jeff, Ruth Van Slyke as Tina, Helen Rice as Martha, Waldemar Mueller as Mr. Dunn, and Betty Rowland as Katherine.

The light humor of "Penny Wise" makes it especially suitable for summer theater fare. Penny is the sweet little wife whom everyone loves, even the ex-mistresses of her husband. When a new feminine menace appears to threaten

### DR. PFEILER WILL LEAVE FOR EUROPE TOMORROW

German Professor to Obtain First-Hand Information Of Affairs Abroad.

D. W. K. Pfeiler, associate professor of Germanic languages, will leave tomorrow for New York, to sail from there for an extended trip through central Europe. He will visit Germany and Czechoslovakia, and perhaps go to Vienna, Austria, and Budapest, in Hungary.

Dr. Pfeiler states that the purpose of his trip will be to obtain a first-hand information on the political and economic situation in these countries, and to continue work in his special field of research, which is a study of the World War in literature. In this connection he will visit libraries of the various countries and hold interviews with writers who treat the War as a theme of literature. He will return around Sept. 1.

### G-Men Demonstrate Prowess

G-men from Washington will demonstrate the firing of tracer bullets from machine guns tomorrow night before the university's first institute for peace officers. In charge of the demonstration will be I. E. Nitschke of the FBI. Dr. James Reinhardt, sociology, has arranged the institute program with the co-operation of W. C. Condit, editor of the Nebraska Sheriff, and Prof. R. D. Moritz, director of the summer session. Programs will continue thru Friday.
