UNION SCHEDULES LIQUID AIR SHOW FOR THIS EVENING

Prof. Everman to Present Novel Demonstration in Ballroom at 8.

Prof. Walter Everman, scientist-entertainer, will present a demonstration of liquid air this evening in the Student Union ballroom. To begin at 8 o'clock and run approximately one hour, the program is offered free of charge as one of the Union's summer attractions.

Liquid air is perhaps the coldest substance known and boils on ice. It is a treacherous liquid when employed by one not familiar with its remarkable qualities, since if one should accidentally dip his hand into the "boiling" liquid, the fingers would be cracked off like icicles. Prof. Everman will display a wide spread of laboratory equipment in his demonstration and perform a number of unusual experiments with the liquid air. He places kerosene in a test tube and by dipping it into the liquid, freezes it immediately into a candle. With the liquid, mercury is frozen into a hammer which is used to drive spikes. Raw beefsteak, fresh flowers, and a rubber ball after being dropped into the liquid for a moment and dropped to the floor shatter like glass.

Of special interest will be the liquid air engine, propelled as a result of the vapor produced by the evaporation of the liquid at ordinary temperatures. After showing all of the dangerous qualities of the liquid, Prof. Everman promises to give his audience a thrill by taking a glassful into his mouth and blowing it out as steam.

Bingham Represents Nebraska at Meeting

Prof. L. A. Bingham of the electrical engineering department will represent the student branches of North and South Dakota, Wyoming, and Nebraska at the summer convention of the American Institute of Electrical Engineers.

Scenery, Lights Embellish 'Gammer Gurton's Needle'

Reviewer Finds Miss Neff Outstanding in Cast of Old Play.

Drama with all the trimmings was offered summer theater goes by the speech department last night. Forsaking the Studio theater for the roomier setting of the Temple auditorium, the Wednesday evening players presented an amusing adaptation of the old English farce, "Gammer Gurton's Needle," complete with scenery, costumes and lighting effects.

In an all feminine cast which worked smoothly and convincingly, Gladys Neff appeared to particular advantage in the role of Hodge. Miss Neff played the role with a liveliness and abandon that added much to the play's humor, and quite equalled her performance as the wife in the production of "Henry" a few weeks ago.

Good work was also done by Ruth Carr as Diccon, Elsie Coleman as Gammer Gurton, and Janelle Seeberg as Dame Chat. Especially uproarious was the scratching, hair yanking, knock down drag out fight convincingly staged by Miss Coleman and Miss Seeberg.

Credit for the setting of the action must go to Herb Yenne, director of the play, and to Armand Hunter, instructor in speech. Jean Glat acted as assistant director, and lighting effects were handled by Charles Weaver. Other mem-

DR. DEWEY B. STUIT

Dr. Dewey B. Stuit, associate professor of educational psychology and measurements, has accepted a position as associate professor of psychology at the University of Iowa effective August 1. Dr. Stuit joined Dean F. E. Henzlik's faculty in September of 1936 from Carleton college at Northfield, Minn.

DORMITORY BUILDING PLANNED AT CURTIS

Regents Submit Application Seeking PWA Grant of \$38,250.

Application for a PWA grant of \$38,250 for the construction of a new boys' dormitory and addition to the present girls' dormitory at the Nebraska School of Agriculture at Curtis was filed by the board of regents last Saturday. The total cost of the project is estimated to be \$85,000, of which the university dormitory corporation will provide \$46,750 from the sale of bonds. It is estimated that construction will be started within three weeks after the allotment of funds.

The contemplated boys' dormitory is greatly needed since Curtis (Continued on Page 2.)

Resigns WPA EDUCATORS BEGIN SESSIONS; BROADY SPEAKS

Dr. Worcester Conducts Forum Discussion; Morse Talks.

Opening last Monday and continuing through July 29 is the annual state WPA educational conference being held on the campus. Officials estimate that more than 250 delegates are in attendance.

Yesterday afternoon Dr. D. A. Worcester, chairman of the department of educational psychology and measurements, led a forum discussion on problems of adult reading, followed by Prof. C. K. Morse of the extension division who continued his discussion of educational practices from the day before. Morning sessions of the conference are being devoted to special group meetings.

Tuesday, Dr. K. O. Broady, professor of school administration, prophesied a broader school curriculum which would include adult education as part of the U. S. educational system. Other members of the faculty who will appear on the program of the conference include Dr. O. H. Werner, Dean F. E. Henzlik, and Dr. G. W. Rosenlof, all of the teachers college, and Dr. A. A. Reed of the extension division.

Registration sheets indicate that adult and nursery school educators from practically every section of the state are represented. Mrs. Gladys Bradley, state director, received word yesterday that Dr. Mildred J. Wiese, specialist in teacher education and curriculum from the Washington office will be present for the program on Friday, July 29.

Miss Munger to Give Recital Next Monday; Herb Yenne to Speak

LaVern Munger will present a dramatic recital of Oscar Wilde's famous play, "Lady Windermere's Fan" in the Studio theater next Monday evening beginning at 7:30. On Wednesday evening, Aug. 3, Herb Yenne, assistant professor of speech, will discuss the New York plays of the past season. Mr. Yenne spent two weeks in the metropolis last spring, during which time he saw no less than 17 shows.

Appointed

Dr. Beatrice Lins, now of Kansas State college, has been appointed by Dr. R. A. Lyman, dean of the pharmacy college and director of student health, to fill the vacancy left by the resignation of Dr. Edna Schrick, resident physician on the staff here.

Dr. Schrick has accepted a similar position at Oberlin college. Dr. Lins has been in charge of student health work at the Kansas agricultural school since 1935, going there from the staff at the University of Kansas. Her appointment here is effective September 1.

HAUN'S BAND PLAYS AT DANCE TOMORROW IN UNION BALLROOM

Regular Weekly Features to Continue Through Summer Term.

Dave Haun and his orchestra will again provide the music for the weekly Friday night dance tomorrow evening in the Student Union ballroom. Admission, as usual, will be ten cents per person with identification cards necessary for admittance.

Another matinee dance is scheduled for Saturday afternoon from 3:30 to 5:30 in the ballroom with no admission charge. Recorded music will be played. An hour dance has also been arranged for Wednesday afternoon of next week from 5 to 6 o'clock.

These regular dancing features will be continued thru the end of the summer session, according to Miss Marian Steele, Union social director, inasmuch as large attendance continues to indicate the popularity of this part of the Union's summer recreation program.

SUMMER DRAMA SERIES WINDS UP NEXT WEDNESDAY

Two Comedies to Comprise Concluding Program; Admission Free.

Presentation of two comedies will feature next Wednesday evening's drama program, the concluding one of the summer series. Admission will be free with the curtain scheduled to go up at 7:30 in the Studio theater on the second floor of the Temple building.

The action of "Star Struck" revolves about the troubles of the wife of a famous movie actor who is besieged by adoring women bearing gifts and come hither glances. Marjorie Corrington will appear as Kitty, the wife, and in the roles of the female suitors will be Maxine Tittler, Leila Massie, Eloise Otto, Ruth McDuffee, Janelle Seeberg, and Gladys Neff. Wanda Cawmer is directing the play.

"Amazons On Broadway" is described as an amusing play with a surprise ending dealing with the carryings-on of a group of lady gangsters engaged in fleecing beauty shop operators by means of a lucrative protection racket. Head gangster roll will be taken by Helen Rice, while the part of the sweet, unsuspecting sister who comes to visit will be portrayed by Eloise Otto. Other members of the cast include Jane Keefe, Gladys Neff, Mildred Burnham, Inez Thompson, Ruth Carr, Elsie Coleman, Clydene Rossater, and Maxine Tittler. Clydene Rossater is acting as director.

DR. BOUCHER TO TALK TO STATE HISTORIANS

Dr. C. B. Boucher, new chancellor of the University, will deliver the main address at the annual meeting of the state historical society Sept. 30. Dr. Boucher stated that as a historian he would be interested in the work of the society and he has expressed a wish to become identified with it. The subject of his speech will be "Calamity Howlers in Historical Perspective."

Child Study School Boasts Air-Conditioning System

Summer Projects Include Circus, Erosion Study, "Baby Clinic."

"What's all this trap?" asked the tactless observer, and the pupils of Group D, makers of the model air-conditioning unit at the University's Children's Experimental School, in the Bancroft building, bristled with indignation. For what appeared to the visitor to be an old automobile radiator with a few pipes and other gadgets represents the crowning achievement of a six weeks' study of air-conditioning principles by this group of eleven to thirteen year old pupils. The story of their work was broadcast last week over KFAB, despite the protests of one boy who thought they "might be running competition with some of the firms which sell air-conditioning units."

Equally as fascinating in this laboratory of the elementary education department, which closed its six weeks' period last Friday, were the activities going on in other rooms of the building. In a large, sunny nursery room on the south side of the building twenty children of ages from three to four gathered each morning to play with the boats, to sing about the snap-turtle, to rest,
