Friends Hold Tea in Honor Of Thiessen

Former Student's Work On Display in Morrill

Leonard Thiessen, Omaha artist, whose works have been drawing crowds to the Morrill art galleries this week, will attend a tea in his honor this afternoon given by Lincoln friends in connection with the University's recognition of National Fine Arts week. The tea will be held in Gallery A of Morrill where his works are being exhibited.

Mr. Thiessen is a former fine arts student at Nebraska. He is known to a large number of people in Lincoln because of his designs in the Stuart theater and because of his decorative schemes of many of Lincoln's finest homes.

Favorites among the visitors to the exhibit this week were Thiessen's paintings of "Gothia," his portrait of Baroness Med de Djævis-Armarna, and his fresco of a Russian church. Also shown are a number of oil paintings, drawings, decorator's designs, and sketches for murals.

Much of Thiessen's work is the

College Plans Short Course

Srb Opens Agricultural Instruction on Nov. 21

Plans now are being completed for the opening of the annual Farm Operators' short course at the University college of agriculture on Nov. 21, according to J. V. Srb, director of short courses at that institution. The practical farm training course lasts for 16 weeks.

Designed for farm youths who find it impossible to attend a full college year, the course has grown in popularity in recent years. Usually about 75 to 80 enroll for the first and second year studies.

"This is the time of year when most farm boys can get away from home with the least loss to the farm business," says Mr. Srb. "Corn picking usually holds them to the farm until the latter part of November. The period of four months immediately following makes an ideal time for a young man to come to the agricultural college where he can get training which will assist him greatly in the years which are to follow."

The farm boys study all phases of farm management during their four month stay at the agricultural college. The first year students take up forge and woodwork, animal husbandry, field crops, animal diseases, English, farm calculations, meteorology, music and physical education. Similar studies are taken up by the second year students.

Regular faculty members at the college serve as instructors of the various courses. The students take part in music and athletic activities.

Union Asks Students To Put Names in Books

The lost and found department of the Student Union has requested that students put their names in books and notebooks to aid in finding the owners. The department reports that many books and notebooks without names in them were found in the Union this week. The lost and found department is located in the first floor check room of the Union.

Girl Intramural Heads To Pose at 5 Today

Girl intramural representatives will have their picture taken today at 5 o'clock at the campus studio. It is imperative that all members be present, according to Harriet Cummer, publicity director.

Conventions Draw Faculty

Chancellor, Deans Go to Chicago, California

Conventions of national organizations are drawing many members of the University faculty to their meetings within the next few weeks. Attending the 43rd annual convocation of the National Association of State Universities in Chicago Nov. 9-11 will be Chancellor C. S. Boucher. While in Chicago the Chancellor will remain to attend the annual meeting of the Association of Land Grant colleges and universities to be held Nov. 14-16.

Others who will attend the Land Grant meeting in Chicago are Dean W. W. Burr of the college of agriculture, Miss Margaret Fedde of the home ec department, Director W. H. Brokaw of the extension service, H. G. Gould, assistant director of extension, Miss Mary-Ellen Brown, state extension agent in women's work, and Dean O. J. Ferguson, of the college of engineering.

Vocation Forum Studies Chem

Dr. Hamilton to Talk to Frosh Tuesday

Fifth in the series of vocational forums will be held Tuesday, Nov. 8, beginning at 7 p. m., in room 102 of the Avery laboratory of chemistry. The speaker, Dr. C. S. Hamilton, professor of chemistry, will discuss the various fields of work in chemistry, and problems relating to training and entry into the fields. He will also discuss questions that a student should consider before deciding to enter or not enter the field as his vocation.

Any student who is interested in chemistry as a possible vocation for himself will find this forum informative, useful and worthwhile, according to Prof. C. S. Gregory, professor of psychology. In addition, any student in the university, regardless of what college or class he or she is in, may attend this forum.

Lyman Secures Science Films

Dean Invites Public To See Sound-Pictures

Dr. R. A. Lyman, dean of the college of pharmacy of the University of Nebraska, announced Saturday that six sound films from the University of Chicago dealing with various aspects of physiology will be shown in Pharmacy hall, room 104, Monday evening at 7 o'clock.

This series of pictures, sponsored by the Erpi corporation, will be open to the public and it is expected that medical groups and other scientific societies over the city as well as the student body will be in attendance. The following films will be shown: "Mechanism of Breathing," "Heart and Circulation," "Nervous System," "Body Defenses Against Disease," "Reproduction Among Mammals," "Digestion of Foods."

N.U. Spikes Hawk Hopes With 16-7 Win

Anderson Sparks Revived Nebraska Squad in First Victory

BY NORMAN HARRIS.

Sports Editor: THE DAILY NEBRASKAN.

Four and one-half minutes remaining in the game . . . Kansas fights desperately to cling to a 7 to 6 lead. Jayhawk Cadwalader fumbles. Husker Lloyd Grimm recovers on the Kansas 33. Two minutes later, Senior Fullback Bill Anderson, a product of Plainville, Kas., booted a field goal from the Hawk 15 to send the Huskers into a 9 to 7 lead.

Two minutes later, Bill Bunsen, the Kansas Bunsen Burner, slings a low one. White shirted Bob Mills plucks it out of the air on the Jayhawk 19 and goes over. Anderson boots the extra point.

Thus, in two paragraphs, unfolds the story of a Nebraska fourth quarter rally, and tells how they copped their first victory of the season, the hard way.

Going into an early lead as Jack

Spanish Club Presents Play Next Wednesday

The Spanish club will present the play "Esgrima y Amor," Wednesday, Nov. 9, at 7:30 p. m., in Gallery B of Morrill. Directed by John Hammond and Hilario Saenz of the Spanish department, the cast will be made up of Spanish students. Other entertainment of the evening will include a guitar solo by Harry Tourtelot and vocal duet by Mr. Hammond and Harry Tourtelot.

Vojta Benes Sees Minority Question as Peace Obstacle

Eduard's Brother Here To State Country's Case

By Jerry Cummings.

Key man in the recent Czechoslovakian crisis was dynamic little Eduard Benes, adjudged Europe's "smartest little statesman." Vojta Benes, brother of the illustrious ex-president, now supervisor of schools in Czechoslovakia, returned Friday to the city where during the closing years of the Great war he studied educational problems at the University. His immediate mission was a visit to his old friend, Charles Smrha, director of Nebraska's department of insurance.

Small, brown eyed, mustached, gold-toothed, Vojta is now serving as an emissary of the National Council of Czechoslovakia, and is traveling over this country stating his country's position in addresses everywhere.

Terrific Loss.

Benes evened in a press conference Friday that Germany's powerful air force was a determining factor affecting Czechoslovakia's decision to yield to the powers in granting Sudetenland to the Germans. He asserted that the Czechoslovakian army was at least on equal footing with the

U.N. Retires Last Coliseum Bonds

Engineers Hold Meeting

Columbus Is Scene of Fall Convention

Members of the engineering college of the University and other engineers throughout the state will attend the second annual fall meeting of the Nebraska engineering society to be held at Columbus, Nov. 11, according to an announcement by Prof. J. P. Colbert, secretary of the organization. The first public announcement of the convention was an error when it listed the meeting at Hastings.

Registration will begin at 10 o'clock Saturday morning, followed by a discussion of two projects—employment service, by A. T. Lobdell, and a new engineering building, by G. E. Blackstone. At 11:15, D. L. Erickson, city engineer of Lincoln, will answer questions concerning the new engineers' registration law. After luncheon T. L. Frank of the Northwestern Bell Telephone company will give a demonstration on "modern telephone magic. Fred C. Albert of Columbus will describe the Loup river public power district setup and will take delegates on an inspection tour of the project.

Senator Edward R. Burke of Nebraska will discuss "Observations Based on My Recent Trip to Europe" at the annual evening banquet at 6:30. The meetings of the society will be held in the Columbus city auditorium.

\$30,000 Payment Puts Athletic Department in Debt Free Condition

John K. Seleck, business manager of athletics, announced Friday that a final payment of \$30,000 on coliseum bonds was made in October, retiring all the indebtedness against the university coliseum.

Total cost of the field house, constructed in 1926 was \$353,384. Of that amount \$63,888 represented the original cash appropriation, \$200,000 was the bond issue principal, and \$89,490 was the bond interest.

Chancellor Boucher, commenting on the retirement of the coliseum debts, said that he considered this a real testimonial to the soundness of Nebraska's athletic program.

Selleck said retirement of the bonds left the athletic department free of debts. In 1926, the year that the coliseum was built, the memorial stadium indebtedness was discharged. The newest project of the athletic department is the expansion of the athletic field for practice field, freshman football, and varsity baseball facilities.

At present the department has plans for erecting a \$275,000 athletic service building at the north end of the stadium, but the plans are based on an uncertain PWA grant. This building would house training quarters, equipment storage facilities, and a small field house, suitable for indoor football and baseball practice.

Rifles Announce Crack Squad

Experts Appear First at Military Ball

Announcement of members of the University of Nebraska Pershing Rifle crack squad was made Saturday by William Anderson of Omaha, captain. This group will put on a performance at the military ball, Dec. 2, and will stage other demonstrations at different times throughout the year.

Membership is as follows: Jack Rohrbaugh, Lincoln; Harry Seagren, Omaha; Bill Milek, Omaha; Gordon Johnston, Omaha; Dave Livermore, Lincoln; John Coelde, Omaha; Jack McPhail, Omaha; Morris Roettger, Omaha; Melvin Tannenbaum, Omaha; Orpha Anderson, Lincoln; Warren Day, Lincoln; Frank Protzman, Lincoln; Tom Uren, Omaha; Gerald Wilson, Lincoln, and Vernon Vrana, Omaha.

Hranac Heads Comenius Club

Czech Group Elects New Officers Friday

Charles Hranac was elected president of the Comenius club, Czech student organization, at a meeting held in the Student Union Friday night. Other new officers are: vice president, Joe Foral; secretary, Mae Koutsky; treasurer, Robert Kubicek; guide, Emil Brodecky; and reporter, Evelyn Hervert.

The highlight of the program for the evening was an address by Professor Orin Stepanek. He read and commented upon a letter written by a Czech woman after the recent crisis. Other features of entertainment were Bohemian violin selections played by Emil Brodecky, a skit by Joe Foral, and Czech songs sung by the members
