A Thought on Thanksgiving

It is a more jittery than jitter-bug Ameriean youth that is trekking homeward today thruout the United States to spend Thanksgiving Day with "the folks." Events that have transpired since September, nationally and internationally, have east a gloomy shadow over commonly bright and cheerful campuses. The fun of going to college has not been celipsed. but it is being seriously threatened, sufficiently to warrant a genuine student interest in the affairs of the world.

Thanksgiving, however, is the time of the year in which we are supposed to look about us and find things for which to be thankful-Students, as a rule, are more pessimistic than many other people in taking inventory of our common blessings. They are inclined, therefore, to see the gloomier side of the European war scares, racial persecutions, dictatorships and ultra-nationalism.

The troubled state of the world should serve as a strong impetus for a more devout Thanksgiving in the United States. We can shout from the house tops that we do have something to be thankful for-among them, home, parents, friends, college. When students peek tomorrow at the turkey during the saying of "grace," that bird should be a palatable reminder of what there is to be thankful for.

American youth, which must be led by college students of today in the generation of the future, faces a far from encouraging future. Thanksgiving Day should serve to rekindle the enthusiasm necessary to make our domocracy a bigger and better example of good government, liberty, tolerance, freedom and happiness. It is not enough to give thanks alone-we must resolve to keep ourselves and our country out of the influence of those who jealously covet the many things that we have for which we can be thankful. Armistics day is not a day for the celebration of the World with Thanksgiving Day, a day devoted not to any Turkey Day dinner. celebration but to an expression of thankful-

ness for "life, liberty and the pursuit of happiness." and all that the phrase implies.

Dear Biff Jones:

This is our final message of the season, Major, and our sentiments before the last game are mingled as we look back over a hectie Cornhusker season, Five losses, two wins and one tie says the record book, And Kansas the way to the coast. To the Editor: While I have little doubt that you know whether the Bismark type of environment best suits your nature or not, I know a great many people who prefer Mr. Rapp's company and style better.

From your statement, it is quite evident that your knowledge regarding the booking of bands has been sadly neglected thru want of actual experience or personal investigation of the same.

While I would gladly have addressed this little note to you personally, you made such impossible because either your ethical standards in regard to correct journalistic practices do not coincide with your logic or you graciously spared Sunday's Daily Nebraskan readers the terror, which your signature might have struck in their hearts.

Especially for you, and others who are interested in a discussion of the problems of the various campus music committees, I take the liberty in presenting a few pertinent facts

Moreover, the Huskers have turned down bids to Bowl Games - most recently the Sugar Bowl, and would not be any more inclined to meet Creighton than any
