Corn Cobs Plan Winter Program

Pepsters to Sell Apples At Basketball Games

After a lapse of more than two weeks in activity, Corn Cobs men's pep club, laid plans for basketball season and other activities at their regular meeting last night in the Union.

Plans to take over the selling of apples at home basketball games were made, and Saturday night will see ten Cobs tossing their product into the stands.

With Bob Seidel slated to be the leader, names of workers and activities who play musical instruments were taken with a Corn Cobs jam band in the ranking.

At the next meeting all activities and pledges will sit for the Cornhusker picture. Bob Flory will be in charge of plans for a dance sometime during the spring.

The club promises to bring a big name band to the campus and further details of the affair will be released later.

Grad Home From War

Japanese Terminate Snipes' Cruise

A start on a round-the-world cruise; detention in Shanghai by the Sino-Japanese war; a year correspondent for the United Press, in sketch of Johnston Snipes, '37, university graduate and past staff member of The Daily Nebraskan.

Thrilling and unusual experiences by the dozen filled the every day life of Snipes. The getting of first accounts of the fighting during the bombing and shelling of Shanghai gave him an understanding of death, starvation, misery, humor, and drama which all go to make up war.

On one occasion Snipes and a British reporter, Pembroke Stephens, were covering the shelling of the coolie section of the city. A giant shell whined overhead and burst near the two reporters, killing Stephens. Snipes miraculously escaped.

According to Snipes, any person was in danger of death the moment that he stepped beyond the boundary separating the International settlement from the rest of the city.

N. Y. Educator Pronounces Activities of Great Value

McCann States New Employer Viewpoint

NEW YORK, N. Y. (I.P.) Educators are beginning to take cognizance of the demand of employers for college trained men and women with a background of experience in undergraduate activities...

"We can no longer overlook the fact that interest and ability in the many activities outside the classroom have a definite vocational as well as educational benefits," Dean McCann said.

Dean McCann cited the development of extra curricular activities as one of the major trends in modern education.

Recognition of Value. "There is now nearly universal recognition and deliberate cultivation of the educational values of extracurricular activities. Until a comparatively short time ago few educators would concede that extracurricular activities had any values that could properly be called educational.

spirits of youth and were less obnoxious than alcoholic orgies or traditional rowdy pranks like hoisting the president's cow into the chapel belfry.

"Because of this former blindness of ours, the development of extra curricular education was for a number of years left entirely to the students themselves, without faculty or administrative support—was indeed intermittently sabotaged by ingenious faculty restrictions.

"Everywhere now we support and develop them. The latest phase of this development, and the most fruitful, consists in tying in these activities as laboratory adjuncts of parallel instructional offerings, an integration of extra-curriculum and curriculum, to the enrichment and stimulation of both."

Two Wars Touch Texas Library

Spanish, Chinese Book Dealers Close

AUSTIN, Tex. (I.P.) The University of Texas library is feeling the pressure of the tense world international situation. The library recently received a letter from the Shanghai agent who furnishes it with books from the far east, expressing his thanks for an order for two volumes. But no two volumes came with it.

"We regret to have to advise that these cannot be had at present," the dealer wrote, "as the offices of the publishers have been closed by the Japanese military authorities. They are likely to remain closed until after the conclusion of the present hostilities."

The library is now virtually out of direct touch with the two danger spots of the world—the far east and Spain. Two years ago its Madrid dealer and six months ago its Barcelona dealer regretted that their business relations with the world must cease until "certain difficulties" were cleared up.
