Perhaps the ball presages a return to sound governmental policy. At least, this is to be hoped. Perhaps, congress will again legislate, the supreme court interpret and the president act merely as an executor. Actions are reputed to speak louder than words, but Roosevelt's voice had the "boys" fooled for six years,

JEAN CARNAHAN, FRESH MAN, ARTS AND SCIENCE.

"To me, it's just what we need. It will give the students an insti-tution of their own and they will take more interest in it. I'm for it a hundred percent."

ADELINE GUSTAFSON, FRESH-MAN, ARTS AND SCIENCE.

"Gee, I think it is a grand idea. It will save students from going to other places for their entertainment. I believe that the more we center the social activities of a student around the Union, the better off we will be. It will be more of an incentive for students to come to the Union and it will give everyone a better chance to get acquainted."

SID GENDEL. FRESHMAN, ARTS AND SCIENCE.

"I don't especially care for the type of entertainment a night club affords. To me it is rather superficial and not at all essential to university life. There are many other forms of better entertainment to be had. However, it is much better than having students going out to road-houses and the

BILL IRWIN, JUNIOR, ARTS AND SCIENCE.

"It would be a good thing if the student body would give it all of the backing that it could. It is just the thing for a fellow who doesn't have a car and can't go to such places as the Turnpike. I don't think they can go wrong on it, for after the formal season there will be a lack of student activities."

JEAN LACEY, FRESHMAN, BUSINESS ADMINISTRATION.

"I like the entire plan. It will keep students from such places as road-side inns. It will give them good clean entertainment in their own crowd.

well. I believe that if students want to go to a night club they will go some place other than the Union."

PHYLLIS PLATZ, SOPHOMORE. PHARMACY.

"I approve of it. It would give students a place of their own to go to and be away from the usual run of inns and dance halls. Then too, it is something new and different."
BERNARD M'KEAN, FRESH-MAN B. ADMINISTRATION.

"If the students would enter into the spirit of the thing and it was run in an efficient manner, we can't do without it. But above all, student co-operation to the nth degree is all important and I feel that the students will get behind such a plan and give it their push,"
BETTE DRACY, FRESHMAN, TEACHERS.

"It would give the University something along the social line that they have in the larger cities. Then too, it would provide an opening for student talent for they could participate in the providing of entertainment. MARVIN RUDOLPHS, SOPHO-

MORE, ARTS AND SCIENCE. "I believe that it-would do some good. It would lead to a better balanced social life for the average student in that they would see the better side of a good time and their surroundings would be more stimulating. It would be something apart from the down-town hangouts."

Uni sends French paper of 1789 to NY to be photographed

A bound copy of the "Chronique de Paris", a Parisian daily, one of the few authentic sources of the French revolutionary period owned by the university, has been sent to New York university where photostatic copies of the volume will be made.

The Parisian daily contains reports of the speeches, decrees, memoirs, and records of assembly meetings which occurred in Paris during the French revolution. It is considered one of the most important dailies published in France during that period.

Publication of the paper was continuous during the revolution except for eight days in March, 1789, when it was banned by the government. The volume came into the possession of the university library in November, 1931.
