Vandals take books from Union 'nook'

To combat thievery, officials formulate rigid rules starting today

Some of the people who have made use of the Union's book nook in the past few weeks have so appreciated the books that they couldn't bear the thought of leaving them behind-so they took the along.

Mrs. Yinger noticed two weeks ago that books were beginning to trickle out, but hope and faith prevented her from taking any announces action until it was proved necessary, and it proved necessary yesterday when another audit showed show tryouts that 17 books were missing.

Heretofore, no precautions have been taken against thievery; no thought was given to the possi-bility that books would be stolen from a reading room, which was to be used by "ladies and gentlemen."

Rules in operation today.

But starting today, no one will be allowed to enter the book nook who is wearing overclothing or carrying anything which might serve to conceal books; no one will be allowed to enter carrying any books; and Union officials will see that nobody will leave carrying any.

Among the stolen books are some purchased with the money donated by J. C. Seacrest, books presented by the authors and also books from others.

All were books which were notorious for passages which might serve as material for a fraternity See VANDALS, page 2.

Marking the close of the university formal season, the nation's foremost swing drummer, Gene Krupa, will bring his orchestra, on the way to fulfill an engage-ment at the famous College Inn in Chicago to the Prom. Krupa's recent appearance at the Univers-ity of California was described by their college nonce as "urringing their college paper as "wringing rhythm from the overflowing audience and giving pleasure to all."

Krupa, who practices with his hat on to get the true sound of the drums, claims that it is impossible to write the music for the drums, as the drummer must have imagination to create when the occasion arises and the music loses its appeal when put on paper. A participant in football, basketball and tennis when in college, Krupa is five feet, eight inches tall and has brown eyes and black hair. His main ambition is to play in a symphony orchestra, in the same manner as he

plays with his own band. Krupa will be interviewed over KFAB Friday afternoon and his music will be broadcast from 9:30
