

A MIRROR PICTURE

Of 1939 Spring Fashions

THIS spring you'll want to look into your mirror and see yourself dressed as Dame Fashion dictates for 1939! Here at Miller's we have carefully studied fashion trends, and we offer you those styles which we consider important for spring.

for the little girl look

THIS is the season to be young, to be gay, to be carefree. Clothes reflect it by their schoolgirl pleats and flares, by their baby bodice boleros, fitted basque jackets, tucks like the ones from your baby dresses, and by white collars, such as you wore on your first grader frock!

COATS

... put a swing in your stride

YOU'LL like the youthful back or front fullness in the lines of the new boxy coats. Shoulders are definitely accented (a fashion note that flatters the figure). Tweeds and soft fleeces.
