

Awgwan love issue attacks perennial spring problems

Just in time to give pointers for vacation philanderings and offer suggestions for Easter attire, the LOVE issue of the Awgwan hits campus stands this morning. Fashion plates of campus styles and a prevue of the Easter fashion parade are sprinkled among pages of hints, warnings and instructions about love, spring and related subjects.

Campus couples portrayed.

Pictorial representation of how contemporary campus couples are making out comes out in the Love-Graph, which the editors guarantee to be inaccurate to one-tenth of 1 percent.

For girls who are a bit dubious about the kisses they have to offer, and for boys who aren't quite satisfied with results, the Awgwan has compiled a Kiss-Kwizz, which is alleged to be an accurate, unemotional, unembarrassing method of testing kissing ability.

All that is necessary is to answer such questions as: "Do you give her your coat when she says she's cold? Do you leave your glasses on? Do you think a picnic is a place to eat? And do you

make some irrelevant remark immediately after a kiss?"

'Rag' tries out quiz.

A boy and a girl kwizzed at random in the Union with this test by a representative of the DAILY NEBRASKAN scored 80 percent and 90 percent respectively. The girl has a date now that she didn't have before the kwiz.

Feature article of the month is "How to Fall in Love" by Bob Hemphill. You may as well get to work on falling in love as soon as you can find an acceptable co-worker, the article states. It tells how to fall in love, how to tell when you've fallen, and what to do about it.

How to break a date.

"Let's Break a Date" says George Frischer on page nine. One way to break a date without being blunt, he says, is as follows: "As you are helping her (your date) down the front steps of her house, quickly jerk her arm behind her back. Apply pressure until a snapping sound is heard. Say, 'Well, I'll be damned,' and laugh in her face."

Pep groups sell tickets for dance

Tassel-Corn Cob party scheduled for April 14

Ticket sales for the joint Tassel-Corn Cob party, scheduled for April 14 in the Student Union ballroom, are well under way, according to heads of both pep clubs.

The groups have signed Carl Colby and his Minnesota Collegians for the dance. Colby played here last December for the Sigma Alpha Mu formal, and later was engaged by the Union for a week end stand.

Tickets are being sold by Corn Cobs and Tassels for 60 cents a couple. Vacation starts Thursday and the dance will be held the following Friday after school opens next week.

George Rosen, Corn Cob president, and Selma Hill, Tassel president, urge students to get their tickets before vacation starts, to make sure they attend "the best party of the after formal season."

Roberts wins ag contest

Kerchberger captures junior livestock division

Lyle Roberts of Tecumseh and Vern Kerchberger of Hay Springs were announced yesterday as the winners of a student livestock judging contest held at the ag college. The Block and Bridle club, animal husbandry society, sponsored the contest. Roberts was the highest of 21 senior entries and Kerchberger of 91 junior entries.

Roberts scored 925 out of a possible 1,000 points, and Marvin Kruse of Loretto was second with 912. Other senior placings were: Keith Gilmore of Callaway, third; Edwin Rousek of Burwell, fourth; Eric Thor of Stanton, fifth.

Kerchberger was crowded to place first in the junior division with only an eight point lead over Charles Garder of Tecumseh, and Oscar Teftmeir of Burchard, who scored 691 out of a possible 800 points. Others placing were Wallace Fausch of Guide Rock, 687; Carl Erwin, McCook, 686; John Beckwith of Loretto, 685.

Kappa Phi cabinet holds dinner meeting tonight

The Kappa Phi cabinet will hold a covered dish dinner at the Wesley Foundation this evening at 6 o'clock.

Rev. and Mrs. Robert E. Drew will be guests. A business meeting will follow the dinner when plans for the spring banquet, initiation and installation will be laid. Virginia Ostergard is making the arrangements for the dinner.

McMillin speaks at season's final vespers

Explaining Holy Week as the most holy period of the Christian year, the Rev. L. W. McMillin spoke at the final vespers of the season held last night in Ellen Smith.

The week began with Palm Sunday, whose palms, said Dr. McMillin, are symbolic of victory and the struggle preceding victory. The week itself is meant to be a week of struggle and penitence, and for one who is not kept Lent, there can be no Saster. "Life, too, is a struggle, with the end in the peace of death and the approving "Well done, my faithful servant of the Lord."

Mary Bullock, completing a term as vesper chairman, led the devotionals, reading three psalms.

Beauty Queen--

(Continued from Page 1). pressed the opinion that the 1939 Cornhusker should make its appearance on the campus at approximately the same date as scheduled for the beauty queen ball. Business manager Max Horn stated that the yearbook had already gone to press and the only thing holding back its completion is the delay in the advertising copy's arrival. If no unexpected delays are encountered in the future the staff hopes to shatter the record for early completion of the issue established a few years ago.

Training--

(Continued from Page 1). the stadium repair project and construction of the building. Removal of the dirt will not be completed until after vacation time, he said, but the building could be started by midsummer.

Services for Holy Week continue

Dr. Wherli completes early morning series

University Holy Week services will be continued today with 7:15 morning services in the Union. Dr. Allen Wherli, professor of Old Testament Theology at the Evangelical and Reformed Eden Seminary at Westergrove, Mo., will be the principal speaker.

Marjorie Smith will play a violin solo and a vocal trio of Lois and Ruth Martin and Marjorie MacLaughlin will sing. Cecil Richmond will accompany the trio on the piano.

The services will again be offered tomorrow morning at 7:15, when Dr. Wherli will again give a short talk. Other features on the Thursday program will be a solo by Nate Holman and several instrumental numbers.

ence courses. The chapter has within its discretion to select from one-tenth to one-sixth of the group qualifying for membership. Part of this group is selected from the mid-year class in November.

Barb Council postpones picnic, hears ISA report

The Barb Council decided to postpone the spring picnic until April 29 and heard Francis Woodard's report of the national ISA convention at the Monday meeting.

Woodard was elected one of the eight members of the ISA executive board at the convention held March 30 to April 1 at Lawrence, Kas. Approximately 150 Barbs were present from 26 schools ranging from Georgia to California. Next year's convention, which is to be planned by the executive board, will be held at Purdue university.

Service group to show film on highway safety

A film dealing with highway safety and the training of the state highway patrol were shown last night at a meeting of Alpha Phi Omega, national service fraternity. Program for the meeting, which was held in the Union was presented by members of the State Highway Patrol.

- Robert J. Weaver, Lincoln, Botany, Chemistry.

Scholars are becoming increasingly important to society. Dr. Hayward Keniston, of the University of Chicago declared in the convocation address, and stressed the everlasting importance of clear thinking and fundamental honesty. These two virtues, he said, are needed if ever this country is to be a better, wiser and cleaner place in which to live.

"The University of Nebraska has provided you with an opportunity of acquiring a higher education," Dr. Keniston stated, addressing the new members. "You must use this opportunity not for selfish gain, but in terms of what you can give to the improvement of life on earth. For more than 300 years our people have had faith in public education. Why? Chiefly because they believed that somehow, thru education, individuals would become better citizens."

Wadsworth presides.

True scholastic virtues are not of an intellectual character alone, he pointed out. They embody the moral principles as well. Intelligence in itself is not the salvation of civilization, but intelligence plus integrity will provide the essentials for sound leadership.

Presiding over the joint convocation, Dr. James Wadsworth, president of Phi Beta Kappa introduced Dr. Emma Anderson, president of Sigma Xi who explained the purpose of the scientific honorary.

Sigma Xi grants its undergraduate members an associate membership for distinction achieved in research problems, or for definite evidence of an ability to pursue research work. Active membership in the fraternity is granted only to graduates who have continued to demonstrate research ability.

Phi Beta Kappa elects each year a varying number of students from any college on the campus, providing they have completed the required number of arts and sci-

Miller's Notes

ON EASTER GIFTS

A LITTLE remembrance to a good room mate is a name handkerchief, a sheer cotton in pastels, with popular names applied in corner. Each—10c.

A FLOWER for her buttonhole, artificial, but with a fresh look.—50c.

SHELL JEWELRY as pretty as those picked at the seashore. Necklaces and bracelets, each—\$1.

SCARFS in colorful new shades in rayon crepes. Ascots—\$1.

HAND KERCHIEFS, in dainty, very sheer Swiss linens—50c, \$1.

CANDY EGGS, with chocolate covering and vanilla cream and fruit centers, each—15c.

EARLY AMERICAN TOILET WATER—that spice and rose fragrance so much desired.—\$1.

WITCHING HOUR CHOCOLATES—in Easter box, lb.—1.15.
