

# Mingling with Marg

Social affairs at a new low, what with that before-vacation catch-up, the drippy weather, and everyone going home Thursday . . . but the candy-passing we've waited for since last year finally came through Monday night when Pat Jensen surprised the Alpha Phi sisters and ATO Claude Wilson passed the cigars to his brothers . . . and this closes, we guess, all the heavy rumoring and bickering which went on about this affair all winter . . . the next big romance on the list is that of DU Dick Smiley and Theta Suzi Harrison—she's visiting here from St. Louis now, and Dick is again on the "out coking" list . . . Sigma Alpha Mu Dave Bernstein and SDT Mickey Krasne, who were both in school last year, have announced their engagement recently . . . and the Ellen Ann Armstrong-Eric Thor combination is getting pretty regular of late, even if rumor has it that a hometown boy is still on the inner track with her . . . the Phi Mu's are still looking for the explanation of why a certain sleeping Beta was dumped in their front door Friday night, mattress and all . . . and just imagine what the Beta thought when he woke up amidst all the femininity . . . and since Tri Delta Betty Dunn is sporting a brand new car, Farm House Bob Wheeler is sitting up and taking notice more than ever . . . on the "getting warmer" list is the affair of Delta Gamma Louise Malmberg and Sigma Chi Leonard East . . . for any further romantic temperatures, refer to the new Awgwan's Love Graft . . . scene after Tassel meeting—each and every member munching a bite of the candy passed by ex-prexy Virginia Nolte, as they discussed plans for selling tickets for the Cob-Tassel dance April 14 . . . and in another corner sat Ginnie Nolte and Gerheart Butt—a not unusual combination of late . . . and as the end nears (for a short time, at least), throw back

(Continued from Page 7).

tively fast time of :7.7. Littler made the best time in the 40 yard dash and the longer 75 with :4.5 and :7.9 respectively. Not content to rest on his laurels here, he went ahead to leap 21 feet 7 1/2 inches to cop the broad jump, and threw the 12 pound shot 44 feet 6 1/2 inches to win this event also.

A damper was put on the meet when James Richardson, Sigma Nu, broke his arm while competing in the high jump.

Finals will be held tomorrow night starting promptly at 7:30. All qualifiers are requested to be ready to go at that time as all events will be run off according to schedule.

## "If my son ever discovered the truth about me.."

What would he think, Johnny Kelsey wondered. He'd always been "the swellest guy in the world" to his son. Then one night Johnny got drunk and ran over a man. He knew his friends would "fix" things, hush it up somehow. But there was one person Johnny still had to face—his own son. . . . Read in your Post tonight this dramatic story of a father and son, by the author of *The Late George Apley* and *Wickford Point*.

A NEW SHORT STORY

### "Beginning Now..." J.P. Marquand

WE COURTED HER WITH A SANDWICH KNIFE! Two soda poppers go after the same job—and the same girl. In *Second Man*, Jerome Barry writes the story of a triple-decker frame-up.

IMAGINE MOVING A MOUNTAIN! Rolling a giant river from side to side! Lifting an ocean liner over a 70-foot dam! When U. S. public-works engineers push Nature around, they make those ancient Romans and Egyptians look like amateurs with Meccano sets. Garet Garrett tells you the amazing story in *Great Works*.

AND The Great World Money Play, the story of Secretary Morgenthau and the gold-standard crisis, by Joseph Alsop and Robert Kintner. . . . A Mr. Tutt story, "Private Enemy No. 1," by Arthur Train. . . . ALSO—short stories, serials, editorials, fun, Post Scripts and cartoons. All in this week's issue of the Post.

## WHY SOME INVENTIONS MAKE MONEY..and some don't

Why did a rubber-heel improvement make millions for an obscure cobbler—and an idea for gum wrappers lose a manufacturer \$6,000,000? Here are fascinating stories about dozens of inventions. Clues as to whether your gadget may be worth money. You'll find how to protect your idea. How to know if it's worth patenting. And what to do if you think "That Idea's Worth Millions."
