Lincoln - -

in 51.2, is in no danger unless McArthur breaks it. His best time this year, however, has been but 52.4. Hudson of Bridgeport may provide his stiffest opposition.

Mile mark safe.

The mile record of 4:28.1 held by Gilbert Dodds should be in no danger. Bob Francisco, Lincoln, and Charles Helms, sensational Kearney youngster, may fight it out in class A. Laverne Clabaugh of Nelson, who won the gold medal in the half-mile last year, beat Francisco in the mile at Hastings last week, but will probably concentrate on his pet event. Duane Findley of Milford may come thru with the gold medal, and two milers from western Nebraska, Don Cosner of Gates, and Carl Carlson of Sunflower, have been turning in good times.

In the half mile, Clabaugh will run into trouble from Madison's Bob Ginn, who has turned in a 2:02 this season. The record, held by Sisco Asher, former Nebraska runner, is 2:00.7.

A free Saturday night dance will be added to list of Union functions, as Mrs. Vera Mae Yinger, Union social director, seeks to relieve pre-exam tension in the student body. The dance will be open to all students upon presentation of their identification cards, and will last from 9 to 12.

"It's a good time for students to relax," says Mrs. Yinger.

Catholics ask appraisal of education

WASHINGTON, D. C.—Adopting resolutions which declared that American education needs re-appraisal in the light of the rapid present day changes and issues which confront the democratic way of life, the National Catholic Educational association concluded its 36th annual meeting at the Catholic university in Washington.

The convention address of Rt. Rev. John R. Hagan, Diocesan Superintendent of Schools in Cleveland, O., inspired the formulation of a resolution calling upon the association to work constantly for the return of religion to American education as the only means of guaranteeing the perpetuation of American democracy.

The association declared its hearty accord with the action outlined by the late Pope Pius XI, and by the Bishops of the United States at the opening of the Catholic university jubilee last fall, looking toward the installation of more comprehensive studies in the true principles of democracy in the Catholic educational system of this country. It recommended the project as worthy of the active support and co-operation of all Catholic educators. The university, which is now compiling these courses for parochial and high schools and colleges, was termed the capstone of Catholic educational endeavor in this country.

"Because religion may not be taught in tax supported schools," the resolutions state, "and because families and churches have not the resources to maintain schools of their own in sufficient number to provide adequately for religious
