#### Phi Tau Theta holds spring banquet today

The annual Phi Tau Theta spring banquet to be held today in the Union will be woven around the "'Pioneering" theme with Rev. Max Burke of the Second Baptist

AUSTIN, Tex., May 11.- "Work-ing his way throught college" has Benchley, Hoover become a much-applied phrase in

youth attending one of the nation's fifteen hundred institutions of higher learning, And it is a fell-founded description, for nearly half of them are doing just that.

A nation-wide study of economic conditions of college and university students has been conducted by the Student Opinion Surveys of America, the results showing that 47.2 percent "work to pay part or all of their college expenses.

The student that goes through four years of classroom and laboratory routine and as a sideline earns all his living expenses is not as common as the one who has a part-time job that merely supplements his allowance from home or a scholarship fund. Nevertheless, the surveys clearly point out that almost five out of every ten students in this country care anough about an education beyond high school to be willing to work for it.

Although not as many women as men hold jobs, over a third report that they perform some sort of work to aid their pocketbooks. Slightly less than 34 percent of the coeds included in the representative sample used answered "yes" to the question, "Do you work to pay all or part of your college expenses?"

Students in the central states-Ohio, Indiana, Illinois, Michigan, Kansas, Nebraska, Missouri, Iowa, Wisconsin, Minnesota, North Dakota, and South Dekota-appear to have the most ambition or the greatest need. In this section there is a remarkably even distribution of working students, 54 percent. Of these 62 percent are men and

41 percent are women. New Englanders seem to be better off when it comes to receiving

the monthly checks from home, Only three out of every ten men and two out of every ten women perform some work while in college. Other sections of the country fall between these two extremes.

There are collegians who sweep halls of learning for their spending money. Others wait on tables or act as clerks in stores for their means. The smarter ones coach and even write papers for their classmates at handsome rates. A Texas undergraduate has developed a "night mail service." Alongside the U. S. mailboxes he has set up his own. For five cents he will get your letters to the trains at hours when Uncle Sam's mailmen are home asleep. Thousands receive N.Y.A. aid. Colleges and universities employ a great many as assistants and library pages. The variety of student oc-

cupations is staggering.
