## Cornhusker distributes 450 annuals

## Circulation opens again tomorrow; only a few copies left at \$4.75

The feverish anxiety which kept crowds of people lined in the the division of engineering draw-Union basement waiting for copies of the '39 yearbook Friday and Saturday afternoon had abated considerably by the time the 400th Cornhusker had been claimed about 4:30, and it was a full hour and a half before 50 more people called for the last of the first 450

"We've got Cornhuskers and no callers now," said Max Horn about that time, which was quite the reversal of the situation which had prevailed in the corridor outside the Cornhusker office for the past couple of days. No copies of the annual are on hand now, but more will be delivered tomorrow and distribution will continue until all of the 1,550 books are disposed of.

Only a few copies remain for sale at \$4.75, Horn said, altho there may be a few more if holders of part payment receipts do not show up with their balance before the allotted time has

expired. The books are printed in batches and then allowed to stand for five days to allow the ink to dry and the covers to set. Though most of the books have been printed and bound by now, they cannot be delivered until the five day period has elapsed.
