

Hulkers celebrate victory at house parties, dances

Guests visit greek houses

WE WON! b'gosh—and everybody celebrated Saturday night, either at one of the many house parties or at one of the better dance spots—except for those who made victory an excuse for a "tour" of down town spots. Now that the weekend hangover has cleared away, we can take a look at just what really was going on.

Celebrating at the Alpha Gamma Rho house party Saturday night were Marie Anderson, Theta, and Eric Thor; Betty Jo Smith and Keith Gilmore; Virginia Sack, Alpha Xi, and John Shick; and Ellen Ann Armstrong, Alpha Chi O, and Ed Rusek. Mr. and Mrs. Lyman Wallin chaperoned the party, and about 100 couples attended.

Duke Ellington attracted many from the college crowds Saturday night. Saw Jane Pratt, AOPi, with Dick Dodd from Omaha and Ruth Yourd, AOPi with Bill Davis from Minnesota. From the Chi Omega house came Edith Houston with Gordon Haney, Kappa Sig, and Ruth Stephens with Jim Minnick, Acacia. Also at the Turnpike the other night were Gail Ferguson, Kappa Delta, and Piker Davis, Beta. Hear she has a date with Bob Rothwell, Kappa Sig, this weekend.

At the Farm House party were Kenny Holland and Jean Simmons, Tri Delt; Donald Heyne and Hollis Eggers, Sigma Kappa; Robert Wheeler and Betty Dunn, Tri Delt, the couple of phone booth fame; and Doris Gray and Roger Cunningham. Doris came in from Cambridge where she is teaching this year. You remember she started wearing Roger's pin this summer.

colleges with a total enrollment of about 23,000.

This was a freshman in the now-defunct University of Vincennes when the Spanish-American war broke out in 1898. Vincennes was the only university in the country with a complete company of volunteers of which he was one.

Mustered out of the army at the close of the war, he returned to school for his sophomore year but shortly afterward withdrew and enlisted in the volunteers being sent to the Philippines. After two years in the islands he entered the Fifty-first company Coast Artillery in December, 1901, and a year later accepted a regular commission. His service in the army has been continuous since that time.

He said that it is not true that men in United States army camps have been forbidden to read about or discuss the war. "All army men are following the war very closely," he said, nodding toward a large pile of newspapers by his desk. "However, it is considered the best policy not to discuss the situation openly and to regard it as objectively as possible. We have made that the rule here, both in and out of the classroom. The whole matter is taboo as far as we are concerned."

the physical requirements. Dean Ferguson, Prof. J. W. Haney, chairman of the department of mechanical engineering, and Dr. N. A. Bengtson, chairman of the department of geography, will represent the university.

Students interested in learning to fly will have until Thursday noon to file their applications at the dean's office. Considerable interest in the course has already been aroused, and many applications have been received.

The course is available to any student above the rank of freshman who can pass the physical examination and whose scholastic standing is of the best. A laboratory fee amounting to \$40 per student will be paid the first semester, covering cost of the course, medical and insurance protection. There are no fees the second semester.
