Convo enjoys Eames' piano recital-lecture

Music culture should rank with literature, believes ex-Nebraskan

Supplementing a recital of representative piano selections with informal remarks, Dr. Henry Purmort Eames won applause and approval at a convocation Thursday in Temple.

Now making his twelfth piano-lecture tour of the country, the convocation artist is on the faculty of Scripps college in California. Yesterday was the second time within five years that Dr. Eames, a former Nebraskan, has appeared before a Lincoln audience.

As his opening piece the pianist played a Gregorian hymn to St. John. In developing his theme "The Enjoyment of Music," Dr. Eames chose compositions representative of the last four centuries of music.

Folk song popular.

Handel's variation of a 16th century Chorale was selected from the works of 17th century composers. (See CONVO page 2.)

Students approve Dies committee work

56% over nation favor continuance, but dislike much of its activity

By Student Opinion Surveys of America AUSTIN, Tex., Jan. 12—The "Dies committee for investigating un-American activities," which has included some of the nation's colleges in its inquiries, should be continued, a majority of U. S. students believe.

This is the result of a poll taken by the Student Opinion Surveys of America shortly before congress convened again. But it should be pointed out that altho 56 percent say that money should be appropriated for the committee to go on with its work, this study of campus sentiment is not to be interpreted as an approval of all the legislation from Texas and his associates have done.

Students often voiced their dissatisfaction with the methods and results of the committee, it was reported by the national staff of interviewers that the surveys uses. The DAILY NEBRASKAN cooperates in conducting these polls, with Paul Svoboda as local interviewer on the Nebraska campus.

56 percent favor continuance. Asked, "Do you think the government should provide money to continue the Dies committee for another year?" students everywhere answered, YES, 56 percent;

REP. MARTIN DIES ... students approve his work

NO, 26 percent. There was a large number, 18 percent, who had no opinion, many admitting they had never heard of the committee. The surveys finds that out of nearly three dozen subjects it has used in its polls this is one of the least known. A majority of those who did know about it, however, believe that the investigation of "isms" in this country is desirable and necessary.

The committee recently made (See OPINION page 3.)

Nebraskans conform to 50-50 vote; 'nays' charge 'duplication'

by Paul Svoboda.

Started 18 months ago to investigate un-American activities, the Dies committee, headed by Rep. Dies of Texas, has been subject to severe attacks for its actions and policies.

The committee has filled the front pages of the newspapers for many months with its sensational revelations concerning the German bund and activity of the communist party in the United States.

Recently the committee astounded the nation with its charge that the American Student Union was the nucleus for youth communistic activities and even went so far as to name colleges and universities where alleged "red" elements were present.

What does the college youth think of the Dies group? Do they feel it should be continued? Only a very small minority of student opinion was taken but their impressions conform with the consensus in the colleges all over the nation which was taken by the Student Opinions Poll edited by Joe Belden of the University of (See REPORTER page 4.)
