

At long last...

Students can settle down for finals with election over

By Agnes Wanek.

With the all-important Student Council election out of the way, things are beginning to settle down to a little bit... and at least for a while no one will ask or tell you to vote Barb-Liberal or Progressive or anything. Concentration seems to be on the big things planned for the weekend, part of which started last night with the Theta-Phi Gam picnic. Saturday plans include the DU picnic Fiji-Tau Tussle, and Kappa Sig-Sigma Nu Field Day. And the lid's off for one final fling before the blitzkrieg begins.

IT'S HERE!

At last, after waiting for these many weeks, the Fiji-Tau Tussle will come off Saturday. Plans start in the afternoon when a strictly stag contest will be held to determine the possessor of the Golden Gobloon, now held by the Phi Gams who were triumph last year. There will be dancing in the evening beneath the light of colored lanterns and the moon (they hope). And a new feature of the affair is the election of a Fiji-Tau queen. No one seems to know on what basis the election will be made, but a queen will reign. Some ATO's and their dates are Bob James and Tri Delt Ruth Grant; Phil Ford and Gamma Phi Maxine Hoffman; Bob Windle and Alpha Chi Dorothy Wind. Phi Gams and their dates are: Gerald

Spahn and Theta Virginia Smith; Jerry Thompson and DG Beth Merrick; Claude Wright and Pi Phi Georgia Swallow.

PICKNICKING

at Linoma Beach Saturday will be the DU's and their dates for whom big things have been planned. You might be surprised to know that Ralph Reed is taking Marie Vogt, Alpha Phi of last year. Bob Green will be seen with Theta Aline Hosman. Neal Felber with DG Betty Rathburn. Wally Munson with AOPi Dorothy Heumann. Walt Johnson with Pi Phi Marylouise Simpson. Dick Young is taking the food.

TO OMAHA

will go the Chi Phis to attend their annual alumni banquet to be held on the roof ballroom of the Blackstone hotel, Saturday night. Principle speakers will be John Latenser, jr., president of the alumni association and Ed Segrist, president of the active chapter.

what may become an annual custom, the Thetas and Fijis held their usual picnic last night at Antelope park, properly chaperoned. Among those present were Lucille Botts and Bus Wisner, Virginia Stoddard and Bob Davenport, Betty Wolfers and Bob Butz, and Betty Jo Byllesby and Kenny Ellis.

Julia Love hall will hold open house on Sunday

Julia Love hall, Nebraska's newest dormitory, will hold open house from 3 to 5 Sunday afternoon for parents, alumni, and friends who wish to inspect it.

The Sunday open house will be the first opportunity of the public to see the inside of the dormitory, which boasts the latest equipment and comfort.

All rooms will be open for inspection, and Miss Katherine Hendy, social director of the dormitory, has arranged a complete tour of the building, where visitors may see the new dining hall, the kitchen, student rooms, game rooms, and the beautifully landscaped courtyard.

All recreational facilities will be available to visitors, and exhibition tennis and ping-pong matches have been arranged.

higher than the A. & M. representatives this year.

N. U. strong in field.

Nebraska's main bid for points will be in the three weight events where the powerful Huskers lifted twenty-four points in last week's Big Six meet. The A. & M. team is not particularly strong in the shot, discus or javelin, and may have a hard time winning a place in any of the three events.

Big Six champions and record holders Ed Wibbels and Herb Grote, in the discus and javelin, respectively, lead the parade. In addition, there are Ray Trochaska, who also broke the discus record, and Henry Rohn, Vike Francis and Maynard Swartz, all of whom picked up places in the meet. Bus Knight, handicapped by a sore elbow last Saturday, will be back to give the javelin another try.

The meet, which begins at 2, will be broadcast in portions over KFAB. Students will be admitted upon presentation of season athletic books.

employment, for intelligent application of your training and abilities, and for service. The Boulder dam to be built in these plains may be a thousand small dams; the All-American Canal may be hundreds of little ditches; the Lake Mead may be divided into many stock watering ponds, but you will be building a sound foundation for a new agricultural empire."
