SALUTE.
"Hollywood's Salute to the President" is to be broadcast from 9:30 to 11 p. m. today, with a number of the film colony's leading figures participating in the program presented under the auspices of the democratic national committee.
For the program, the song-writing team of Robins and Rainger has composed a melody dedicated to the president. Pat O'Brien will direct the program which will feature Walter Huston, Henry Fonda, Grocho Marx, Hugh Herbert, Dorothy Lamour, Sally Eilers, Andy Devine and John Ford.

HIGHLIGHTS.
A good first hand knowledge of bad luck will spell good luck for contestants on the "Ask-It-Basket" program tonight at 7 over KFAB, when Ed East poses the bulk of his questions on bad luck tokens and charms. In addition the program will carry questions on history, literature, and general subjects.

Following the Halloween theme Lanny Ross's program will feature an appropriate group of songs—"Shine On Harvest Moon," "Satan Takes a Holiday," "The Green-Eyed Dragon with the 13 Tails," and "Indian Summer." The program will be heard at 6:15 p. m. over KFAB.
President Roosevelt will be heard at 3:15 p. m. when he speaks at the dedicatory ceremonies for new buildings of the National Institute of Health in Bethesda, Maryland. The hospital is a federal research center for cancer research and serves as a national repository for large quantities of radium.
The nationwide broadcast of a talk by ex-President Hoover will originate from the university coliseum, where he will speak tonight.

SPHERES OF INFLUENCE.
The race for influence in South America countries hit the radio industry this week bringing the announcement of the appointment of Edmund Chester, former head of the Latin-America division of the

Cornstalks, pumpkins and orange and black balloons will decorate the room. Novelty tag dances will highlight the evening. Ties are forbidden for the men and the women will wear skirts and sweaters.
Marcia Birky heads the party committee with Bernice Premer, Roxana Brown, Annabelle Saunders and Irene Henson assisting her. Marie Louise Drake is chairman of the decorations committee.

Associated Press as the new CBS director of broadcasting to foreign countries.

The appointment comes on the heels of an FCC approval of plans to construct two new 50,000 watt international short wave broadcasting stations at Brentwood, Long Island, by Columbia. The transmitters will be completed in 1941. Meanwhile Chester will use the existing equipment to bring to the Latin American countries as well as Europe what he calls, "a picture of the daily life of the United States."

TRIVIA.
Kenny Baker, tenor of the Fred Allen Star Theater had a busy day last Thursday. It was Kenny Baker day at the New York World's Fair and after being guest of honor at various pavilions and exhibits, he was given a luncheon at the Ford pavilion, made a telephone call to Hollywood from the telephone exhibit, appeared with the World's Fair band, and in the evening headed the Mardi Gras parade. His principal comment was, "Gee!"
Radio seems to be a young man's business. Of the 246 employes of CBS in Hollywood, 192 are men and out of this number 121 registered for the draft.

Poll—

turns for the entire campus. Ag gave Willkie 73.7 percent this week, a difference of only 2.5 percent from results of the entire campus. Ag campus has proved a true thermometer of presidential favor. The farm administration of the New Deal is, according to opinions expressed on ag, not so popular as is thought. To corroborate this conclusion, the strong pro-Willkie feeling of students from rural sections (70.5 percent for Willkie) may be pointed out.

Teachers strongest.
Among the colleges, Willkie's strongest support came from Teachers. This fits with our results showing heavy Willkie support among the women students, for Teachers' college is made up mostly of women.
Seniors supported Willkie with more verve than any of the other classes, with the freshmen giving the next best help, while the sophomores and juniors struck an average between the two.
