In a formation which is a masterpiece of charting, the band breaks into a huge map of the United States playing the "Stars and Stripes Forever." At the same time the 120 members of the band unite in singing "I Am an American" from this formation.

As a concluding specialty number, "Chiribirin," is performed with the members of the band breaking into a fan-like concert formation.

Dr. Scott claims . . .

Big education need is unified program of federal support

Development of a systematic and unified policy of federal support is the greatest need of the educational program today, Dr. C. W. Scott of teachers college told the Fremont Kiwanis club yesterday noon.

"Federal Support for Public Education" was Dr. Scott's subject, and he pointed out that "Equitable educational opportunity for all American youths is impossible without federal support."

"We need more support for general education and less for specific projects," he declared. "Support should be distributed on the basis of need, with greatest taxation where resources are most abundant and greatest spending where children's educational need is most acute."

A minimum of federal control should accompany such support, according to Dr. Scott, altho "some is inevitable and even desirable."
