If the puns are pretty bad and the writing is noticeably amateurish, just chalk it up to inexperience. Writing newspaper copy is sort of hard, we've decided, the main reason being the news we know we are pledged to secrecy not to print. Such a life!

Sig Alph Bob Burruss got off to a pre-season vacation Tuesday night and trotted off to Wisconsin to see his love life.

The football team is still mighty curious to know who was on the other end of the wire when Eddie Schwartzkopf got his weekly call at Ashland on Saturday mornings before games.

We thought for a while that Sigma Nu "Bus" Knight was pinning away for his Chi O love, who is in Chicago this year, but his interest is still developing toward one of Lincoln high's beauties—and to Ye Pippe Dinner, he's asked Theta Martha Bengston.

The pledges at the Kappa house are still yelling "Somebody's going to get aw-ful-ly wet tonight" in the most convincing tone on Mondays, for the benefit of six of the sisters—quite a number for

the beginning of the year. The annual football dinner for the traveling squad was given Tuesday night at Coach Jones' house. From rumors, the team had a swell time discussing its post-season game.

Much talk about what to wear to California—some say a cross between spring and fall clothes, and others say strictly rainish.

Hear that some of the DU's are riding out to the Bowl on the caboose of a hog train. What a contrast—hogs to roses!

Ellie Lutz is still home in Council Bluffs—minus her tonsils by this time.

It's amazing how little we know about who's taking who to the Military Ball. We'll have to leave that to Jo, we guess.

If you've seen Phi Psi Jack Morrow's nose, maybe you're wondering what happened to him. Have you seen "Arise, My Love"? Could be!

Well, frans, thanks for listening. This was lots of fun, and we hope you'll let us write this again some time. Merry Christmas.

Headlines-

(Continued from Page 1.)

Eight lives were snuffed out in the smashup yesterday that ended United Airlines long record of safe flying. A Chicago bound Mainliner suddenly nosed down, scraped an apartment house, fell in flaming wreckage into a vacant lot, only ten seconds from its usual landing on Chicago Municipal airport.

Dead include: the pilots, United Airlines division superintendent, safety engineers, a corporation president and a corporation manager.

Ice on the wings is the only plausible suggested cause. Vice President Herlihy pronounced it unlikely; other pilots at the airport thought it probable. Since both pilot and co-pilot perished, precise determination is unlikely. Ice-formation is still a serious problem to the Airlines. Preventative devices exist, but none are truly satisfactory. Under extreme conditions planes are still held on the ground.

Company C, Engineering; Mary Louise Woodward, Battery B, Field artillery, and Ruth Grant, First battalion, Field artillery.
