fifths of the students now in school

believe they will return for at least

one more year's study. This study

should not be interpreted to mean

that college enrollments will be de-

pleted by 11 percent. This figure

is merely an indication as to how much the defense program is liable to affect the college male.

Onward to Omaha

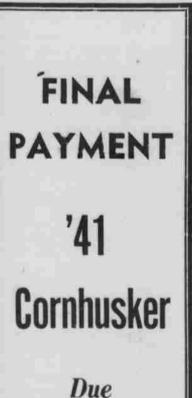

Exams are about over

and the social side of life again takes the spotlight as we learn of buffet dinners that are planned for Sunday night at the Phi Psi and Alpha Chi houses. While speaking of the Alpha Chis we might mention that they seem to have a busy weekend in store for them. Friday night they have an hour dance with the Betas. One couple who will be doing most of dancing together consists of Polly Jo Taylor and Beta Harry Rinder (the lad who showed so much Delta Gamma spirit a few weeks ago when he went down to KU for the installation of a new DG chapter). Weekend activities also include initiation and banquet at the Lincoln hotel for the Alpha Chi pledges.

In Closing

I'll pass on to you a few little Draftitems hat a little bird told/ me (which concern) fact to the effect that Theta Betty Mae Clopp is now wearing the Sig Alpha pin of erstwhile Carranova Leonard Jacobson, that Alex Mills has a very interested eye on Theta cutie Jeanette Emmert, and that Phi Gam Jerry Thompson has lost his pin.

DAILY NEBRASKAN

Pamphlet explains necessary factors for success in college

week by the public affairs com- his own decisions promptly. mittee, there are four dependent factors: purpose, social adjust-ment, ability to make decisions and sensitivity.

This may or may not have some These characteristics, the article pointed out, are affected by many has been seeing a great deal of things, the most important being Julia Gurley the last few weeks. home influences. Students whose A rather unusual deal occurred parents were moderately interlast week in the Delta Sig house ested in their affairs, rather than when the true brotherly spirit was indifferent or oversolicitous, were displayed by Joe Flammang who the best adjusted group in col-let fraternity brother Don Sulli- lege. lege.

curious indication of good livan, Ohio. That is all for today; home adjustment," the pamphlet stresses, "is a liking for the subject of English. Narrow reading interests seemed to go with poor home adjustment."

Personality measurements.

Personality measurements show that "frequency of attendance at movies-seven or more times a month-was a sign of poor personality, as was frequency of indul-gence in card games."

"Bull sessions" were also an indication, with better-adjusted students being the ones who participated in large sessions and the less well adjusted participating in small groups.

Good health laid success.

Among those things listed in the pamphlet which aid students to make good are: safeguarding health, participating in athletics,

Party-

(Continued from page 1.)

Slade, Alta Schacht and Connie Dye have charge of refreshments, and Boyd MacDougal is in charge of music.

Other social events on the program of the interhouse Council-Barb Union group are swimming parties, picnics, skating parties and exchange dinners. At the present, the smaller organized houses are the chief participants altho Towne Club and Raymond Hall will be included later.

Orfield reports on new supreme court committee

5

Prof. L. B. Orfield, university law professor, reports that the main goal of the U. S. supreme court advisory committee on criminal procedure, to which he was recently appointed, will be to compile rules simple in form and simple to interpret. Professor Orfield returned last week from the committee's first meeting in Washington, D. C.

The committee will meet again next fall to consider the first tentative draft of a uniform code of pleading, practice, and procedure for criminal cases in federal courts. Meantime Professor Orfield expects to devote considerable time to study and work on several topics of the code.
