Fiji's, Tau's clash in Penn woods at traditional 'Tussel'

In a hard fought battle yesterday at Penn woods the Phi Gams again took over the Golden Gai-bon trophy in the annual Fiji-Tau Tussel. Winning the greased pig race, the Fijis added enough points to win from the ATO's who have had the possession of the trophy this year.

Phyllis Anderson, Kappa Alpha Theta, was presented as the queen of the Tussel at the dance which was held on a pavillion in the back yard of the ATO house. Colored lights, and foliage made the setting very appropriate for the occasion.

In the afternoon the ATO'S won the softball and the milk drinking contest but failing to win the pig race lost by the close margin. A picnic lunch followed the events of the afternoon.

The two fraternities started off

the activities yesterday by lunching together. This was followed by a parade of cars painted in keeping with the traditional affair.

Zoologist publishes magazine article

Robert H. Shuler, who received his M. Sc. degree in zoology from the university in 1937, has an article on "Quantitative Effects of Implantation of Cattle Anterior Pituitary Powder on Gonads of Immature Rats" in the April proceedings of the Society for Experimental Biology and Medicine. He did his work on the subject in the department of physiology and pharmacology in the college of pharmacy under Dr. H. C. O. Holck.

Joint program planned by schools in east

BRYN MAWR, Pa. (AP). The departments of politics and government of Bryn Mawr, Haverford and Swarthmore college have announced a joint series of public lectures dealing with "economic, legal and institutional foundations of the next peace."

The series is part of the new program of co-operative effort among the three colleges.

"By pooling facilities while preserving autonomy," says President Felix Morley of Haverford, "small colleges can give their students university advantages without in any way sacrificing the inestimable assets of the small college."

Stamping themselves as the team to beat for the Big Six title, Nebraska's track team became teachers yesterday and to the tune of 74-57, spanked Iowa State in their dual meet.

Coach Ed Weir wound the team up and when they unwound they found that they had shattered five dual records, equalled another, captured 11 firsts and had run away with the meet as they pleased.

Leading the Husker record setters was Gene Littler who flashed to records in both the 440 and 220 yard dash. His 47.5 second time in the 440 is the fastest run by a conference runner, and he had plenty left at the finish.

Ginn breaks record.

Bobbie Ginn broke a 29 year old record as he led the field in the mile run with a 4:28 clocking. He settled for another first in the 880. Bill Smutz had to match the 120 yard high hurdle record before he could beat team-mate, Ralph King. Smutz was timed at 14.9.

The other two records were broken on the field when Ray Prohaska let the discus fly 146 feet 8 3/4 inches, and Herb Grote, for the first time this year under 200 feet, still put his name in the record books with a 195 feet 3 3/4 inch heave.

Iowa State only took four events, and they set records in two of them to do it. Larry Inman in the 2 mile and Norm Pedersen in the broad jump were the Iowa big-shots along with Baxter and Ruh-sam who tied in the high jump. Their mile relay team also won.

Personal grudge.

Smutz and King renewed their friendly personal duel in the low hurdles with Smutz getting the edge. This combination looks like sure point winners in the Big Six championships Friday and Saturday.

Footballer George Abel won the century dash for UN when the red-head, Littler, decided that two records was enough for a day.

Harold Hunt stopped as soon as he was assured first place in the pole vault; so the meet record was saved. 12 feet 1 1/4 inches was his best jump yesterday.

A clean sweep for the Corn-huskers came in the shot-put. Vic Schleich took first, Ray Pro-

chaska, second; and Herb Grote, throwing just for the fun of it, surprised with a third.

What gratified Ed Weir most was the all-around strength of the team. There were plenty of seconds and thirds in the final results along with the blue ribbon honors.

That's what the Huskers did to Iowa State. Ed Weir hopes they'll do as well against the rest of the conference.

College uses substitutes for metals

The increased use of aluminum, stainless steel and nickel for national defense has brought about little handicap in the work carried on by the college instrument shop at Iowa State college, according to Ithiel Coleman, head of the shop.

Substitutes of these metals is made whenever possible. Copper, brass, iron and steel still are obtainable and are used in the substitutions. When a high polish is needed on metal, a low grade of steel is used and then chromium plated.

It is also impossible to get precision tools and other equipment necessary for the course offered there because of the defense program. However, students have many of the tools themselves and the college has a supply of those that workers do not have.
