### What with everyone

beginning to feel that Ol' Hot Breath on the back of their necks now that the fatal day of reckoning is getting close, there doesn't seem to be much news. Too many people are going steady with their books these nights.

### But Dan Cupid

is managing to keep in business, nonetheless. Two more pins have appeared on two of the better local lassies. Delt Prexy Barney Buell hung his on Pi Phi Sue Shaw, while ATO John Jay Douglass has put his piece of jewelry on Tri Delt Ruthie Ganz.

### And another steady deal

is that of DG Barbara Hahn and Sigma Nu Jim Tate.

### Weekly bedtime story

that might interest some of you (if any) concerns as nifty a triangle as we've ever seen. It seems that Phi Gam Al O'Connor is thinking of employing the expert services of "Junior G Man" Johnson, also of the Fiji house. Seems that Al has been dating cute little Marguerite Williams, Tri Delt, and that several weeks ago some belligerent male voice called him on the phone and, in no uncertain terms, said, "Hands off! She's as good as mine."

Well, to a gentleman of Mr. O'Connor's integrity that would constitute no threat, so he politely disregards the warning and goes on dating Marguerite. The interested third party called again, tried to worm his way into Al's confidence, and so Al, getting into the spirit of the thing, reeled off a hot story about all his various wives scattered all over the country, etc. The other man, true to Sigma Chi chivalry toward defenseless women and children, promptly told Miss Marguerite the whole sordid story. Of course, Al got things straightened out with her right away, and the jealous friend from down on Vine street is still out in the cold. How about it, Russ?

### And did you see

that colossal spill that DG Gen Harmon took out in front of the Theta house the other day? She was frantically pursuing Pat Cooper in her car when she turned to wave at Betty O'Shea. Next thing she knew the nasty brick sidewalk had come up and hit her in the face. All of which explains all that tape around her left ankle.

### And what's this

we hear about Glenn Miller coming to the Turnpike the last of June? That ought to be incentive for staying over for summer school—just to be in town for the big event.

### One of the (in)famous

"Dirty Five," of the Sigma Nu shack, is back in town. None other than Mase Mitchell is around checking up on his old haunts. But he'll be back in the clutches of Uncle Sam next week.

### Everyone wants

us to say something about gorgeous Rhoda Krasne, of the Sigma Delta Tau Krasnes. But this discreet young lady never does anything that most of the people who read this column would want to read about—unless it's that steady stream of ZBT's who buy her cokes every afternoon.

## Ferguson, Haney serve on credit examining board

Prof. O. J. Ferguson, dean of the college of engineering, has been asked to serve as a member of the examining committee for accrediting of engineering curricula at Washington State college,

Pullman, Wash., and at the University of North Dakota, Grand Forks, N. D.

Prof. J. W. Haney, chairman of the mechanical engineering department, will also serve on the committee examining curricula at Washington State.

Both faculty members will leave Friday evening, May 23. The examination at Washington State is scheduled for Monday, May 26; and at North Dakota, Wednesday, May 28.

student in acquiring mastery of the spoken language and knowledge of the culture of the foreign country.

Among the outside activities planned are radio programs, phonograph recordings, luncheons at which French, German, or Spanish is spoken and illustrated lectures on geographical, historical

and artistic subjects.

Attention of graduate students is called to the courses in French and German, intended to prepare them for the reading examinations required of PhD candidates.

Besides the Spanish courses listed in the summer catalogue, an additional course will be offered, due to numerous requests from students. Spanish 52, the second semester course of the first year, will be given from 10:15 to 12:20 daily, with five hours credit.
