NYA Girls' Supervisors Hold Annual State Conference

After a three-day program, the third annual state conference of girls' work supervisors in NYA service projects closed yesterday. The meetings, which were held at the union, were headed by Miss Gladys J. Shamp, state youth administrator.

Wednesday's morning's program

International Fraternity Meet Sets Standards

The National Interfraternity conference, representing the college fraternities of the United States and Canada, has adopted a platform embodying the seven principles of democracy to which these fraternities subscribe. A creed prepared for the membership states these principles as follows: "The college fraternity of the United States and Canada which was conceived in the atmosphere of a struggle for political independence, and came into being as an expression of self-government:

1. Adheres steadfastly to social, religious, political, and economic democracy as the only sound basis for a satisfying personal and national life.
2. Defends the individual's right to liberty and equality of opportunity.
3. Inculcates a sense of responsibility to self, to college, to country, and to society.
4. Stresses the spiritual values of life as the foundation of the truly democratic way of living.
5. Supports our countries' championship of the cause of democracy.
6. Condemns all activities tending to subvert the principles and processes of democratic government.
7. Pledges unqualified loyalty and devotion to country.

included a breakfast at the Lindell hotel, at which F. L. Priest, state safety supervisor, spoke. Talks were given by Miss Drusilla G. Winchester, director of the state division of youth personnel, and Miss Rose Wanek, state supervisor of homemaking education in the department of vocational education, Miss Helen Eiting, chief of the service projects section, presided.

Mrs. E. P. Costigan, chief of the Denver regional office and special consultant at the conference, Miss Delia Garrett, state supervisor of homemaking for youth in NYA in the department of vocational education, and Mrs. Louise B. Anderson, supervisor of the related training program at Lincoln opened the Wednesday afternoon meeting with a discussion. Talks were also given by James C. Lewis, superintendent of recreation in Lincoln and Miss Ruthalee Holloway, assistant.

During Summer . . .

Field Parties Obtain New Fossils for Morrill Exhibits

Nine field parties sponsored by the university went to great lengths this summer to add specimens to the exhibits in Morrill even to digging up the city streets of Creighton, Neb., to recover the skeleton of a giant rhinoceros, which is probably much larger than any other skeleton known in America.

Parties, from three to eight in number, were located in Creighton, Gordon, Hemingford, Bridgeport, Broadwater, and Oshkosh, Neb., also in Guernsey and Eden, Wyo., and Harrison, Ark. The major portion of the "finds" are now stored in the museum where they are being unpacked, but sixty large boxes and crates have been stored downtown for future use. Most of the specimens will be used to build up the scientific study

Reorganization this summer of the student health hospitalization service gives students for the first time, their choice of three Lincoln hospitals in case of serious illness, Dean R. A. Lyman, director of the health service, announced this week in a special information pamphlet given to all new students.

Instead of the old infirmary which the university has used for the past 12 years, students in need of hospitalization may receive care in the Lincoln General, Bryan Memorial or St. Elizabeth hospitals.

New Plan Economical.

"The new hospitalization set-up will save the university a great deal of money," said Dr. Lyman.

Under the new rules, the total period of hospitalization to which a student is entitled in any one

series of the museum and duplicates will be exchanged with other museums.

Besides discovering the rhino skeleton, the workers found the skull of a giant ground sloth near Mullen, Neb., first such find during the last 50 years. However, the entire results of the expeditions will not be known until all of the boxes have been unpacked and the contents examined.

Work was limited this year because WPA funds were not available in the quantity that they have been during the last several years. Eminent scientists from the leading institutions of the country visited several of these work sites during the convention of the Society of Vertebrate Paleontology held in Lincoln this summer.

Infirmary Out; Administration Revises Hospitalization Plan

papers must also be signed by a staff member. Routine hospital tests will be given by the university, saving students a laboratory fee required by all hospitals. Students must pay extra for special treatments or personal physicians. The infirmary was first secured because Lincoln hospitals did not have wards for contagious cases, and there was difficulty over the entrance of non-residents in Lincoln to the General hospital.

Ward for Contagion Cases.

However, the Lincoln General hospital has built a new ward for contagious cases and an understanding has been made with all three hospitals for admittance of any regular university student. Students with a contagious disease, however, must stay at the General hospital. Otherwise, students have their choice of hospitals.

It is with a great deal of speculation that university officials watch student reaction to the new plan, Dean Lyman said, for, unless an extra bill is paid, students will stay in the hospital wards far from the campus.

No change has been made in the medical fee with all students paying the regular two dollar fee entitling them to all examinations required for registration, military and physician education placement, intramural and swimming privileges certain special examinations and the special rates in case of hospitalization.

Sell Supplies at Cost.

Again this year, medical supplies and prescriptions can be secured at the pharmacy building at cost. Student health service offices are located at 208 pharmacy on city campus, 113 college activities building on ag campus. Objectives of the student health service as explained in the pamphlet are "To control contagion in the university community, take care of students when they are ill and to improve the health of the student body by education and practice."

Freshman Football

Freshman football will begin today at 3:30 p. m. at which time the boys will be given a physical examination. Identification cards are necessary.

The lookout is encouraging said A. J. "Lew" Lewandowski and he hopes to have as many boys as he had last year. Lewandowski issued the following pointers for first year players.

1. The training quarters are located in south end of east stadium.
 2. Freshman football suits are to be issued all day Friday. Practice begins officially September 19th at 3:30.
 3. Those who have jobs or absolutely have to study may leave practice early with the consent of the coaches.
 4. Free admittance to the varsity games is based on the weekly attendance, presence at 3 practices being the minimum.
 5. The requirements for a freshman football numeral are that the recipient must be carrying at least 12 scholastic hours at the time of completing the requirements for the numeral. He must also be a member of the freshman-varsity squad, have a good attendance record, and be recommended by the freshman coaches.
- Several years previous, 148 turned out for the freshman squad. Coach Lewandowski hopes that the 1941 turnout will parallel that year's record.

Field Parties Obtain New Fossils for Morrill Exhibits

including Rhino Skeleton

Nine field parties sponsored by the university went to great lengths this summer to add specimens to the exhibits in Morrill even to digging up the city streets of Creighton, Neb., to recover the skeleton of a giant rhinoceros, which is probably much larger than any other skeleton known in America.

Parties, from three to eight in number, were located in Creighton, Gordon, Hemingford, Bridgeport, Broadwater, and Oshkosh, Neb., also in Guernsey and Eden, Wyo., and Harrison, Ark. The major portion of the "finds" are now stored in the museum where they are being unpacked, but sixty large boxes and crates have been stored downtown for future use. Most of the specimens will be used to build up the scientific study

How to Win Friends in one easy lesson

Treat yourself and others to wholesome, delicious Wrigley's Spearmint Gum. Swell to chew. Helps keep breath sweet, teeth bright. The Flavor Lasts.

WRIGLEY'S SPEARMINT CHEWING GUM

Vacumatic, \$8.75 and \$17.75 Sets, Duo-fold, \$3.95 and \$5

Hark! the Old Bells chime again, "Don't Forget Your Parker!"

For School - Parker's SUPER-CHARGED Pen

-More Room for Ink because NO rubber sac, hence a Pen that won't run dry in lectures, tests, exams!

- ◆ GUARANTEED by LIFE CONTRACT
- ◆ Exclusive Style—streamlined, Pearl and Jet RINGS.

Toting books around won't get a student anywhere if his pen runs dry in the classroom. So look before you leap to some problem pen. It will only frustrate your I. Q. on Test-day.

Go and try it today at any near-by pen counter. But use discretion by looking for Parker's Blue Diamond on the smart ARROW clip. That's our Life Guarantee Contract.

In college after college, coast to coast, the Parker Vacumatic is voted No. 1 by students because of these modern features:

Junior or Sub-deb, \$5; Debutante or Major, \$8.75. Maxima, \$10; Duo-fold, \$2.95 and \$3.95. Pen and Pencil Sets, \$3.95, \$5.00, \$8.75 and up.

The Parker Pen Co., Janesville, Wis. COPR. 1941, THE PARKER PEN CO.

◆ One-Hand SACLESS FILLER

◆ Television Barrel—shows when to refill.

◆ Lubricated Writing—Non-brittle, 14 K Gold Point tipped with all-smooth Osmi-ridi in that won't wear scratchy in a lifetime.
