President of Innocents, Burton Theil, urges all organized houses to participate in this competition, "to make this year's competition a real homecoming for Nebraska alumni."

Draft Boards May Defer Collegians

To Complete Partially Finished Semester

If local draft boards heed the recommendation of Brigadier General Guy N. Henninger, state director of selective service, induction of college students for military training will be postponed until they have completed partly finished semester terms.

In a message to local boards clerks this week, General Henninger again emphasized the national need for deferment of students who are in training or preparation for occupations essential to national health, safety or interest and also asserted that local boards have the authority and should take the opportunity to postpone induction of other student registrants, enrolled in good faith in the state's universities.

"It is essential," General Henninger said, "that we permit students an opportunity to complete the semester in which they are en-

rolled. Individual hardships on registered students should be avoided if at all possible."

Longer Deferment.

In regard to students deferred for longer than the completion of the semester, General Henninger declared that students and draft boards should clearly understand that it is the shortage within the occupation which forms the basis
