Kosmet Klub Selects Skits

Ten Groups Compete For Cups

Up-setting former tradition, Kosmet Klub announced yesterday six sororities and four fraternities who would compete for skit cups in the annual Kosmet Klub fall revue at the Nebraska theatre, Nov. 20. There will be no curtain acts. The number was cut down to shorten the show which will be held on a week night.

Sororities presenting skits will be Alpha Omicron Pi, Delta Delta Delta, Delta Gamma, Kappa Alpha Theta, Kappa Kappa Gamma, and Pi Beta Phi. Fraternities entering will be Alpha Sigma Phi, Alpha Tau Omega, Delta Upsilon, and Phi Gamma Delta.

According to Walt Rundin, president of the Klub, all skits were especially good this year and since the number was reduced so greatly, it was difficult to make the final decision. The ten skits were selected from a total group of 22.

Kept Secret.

Presentation of the Nebraska Sweetheart and Prince Kosmet will be one of the highlights of the show. Both were elected by the student body at the fall election and their identity will be kept secret until the presentation at the show.

Winners of the skits last year were Phi Kappa Psi and Alpha Phi with Alpha Sigma Phi winning the curtain act cup. Virginia Bergsten and Ralph Worden were presented as Nebraska Sweetheart and Prince Kosmet.

Tickets are now on sale and may be purchased from any Kosmet Klub worker. Workers are Don (See KOSMET KLUB, page 2.)

Prof. Werner Writes Article On Teacher's Unionization

"Teachers must think of themselves as citizens first, as teachers second, and as cooperators with other organizations third," wrote O. H. Werner, professor of the principles of education, in his article, "Unionization of Teachers—Boon or Bane" appearing in the fall issue of The Quarterly, bulletin of the American International Institute.

Briefly the subject covers the individual and organizational forces encouraging teachers to unionize, sketches the present

status of the American Federation of Teachers, and examines the four basic assumptions which proponents of unionization make.

First Basic Assumption.

Refuting the first basic assumption for unionization, "that the economic welfare of teachers is the primary objective of a teacher's organization," Professor Werner cites the first ideal of the teaching profession. This ideal is one of service to others "which

relates to important, not trivial, human interests."

"Democracy is not achieved by unionization," stated Professor Werner, for unions are sometimes very undemocratic and mere organization of a union is no guarantee of democracy. About the third assumption that unionization alone will give the teachers freedom, the author says, "To join a union often means giving up freedom" and "teachers are not only teachers of the children of union (See WERNER, Page 2.)
