Extension Division Plans Education for Drafted Men

New Service Offers Three Point Set-up

The university extension division will make every effort to help students called into military service continue their education, according to war-time policies announced recently by Dr. K. O. Broady, director.

The division plans also to help provide training for citizens needed to replace those entering direct war-time service. This would include replacement of teachers, nurses, industrial workers, and others.

A third policy outlined by Dr. Broady would make university resources available for maintaining the morale of Nebraska citizens.

The extension division's organization is very adaptable to changing needs, said Dr. Broady, and can be fitted to almost any emergency. The National University Extension association already is assisting with new projects suggested by the war. New activities will supplement rather than replace regular ones, and materials already available may be adapted for use in them, he said.

Regents Make Several Faculty Title Changes

Several changes in title, appointments, and resignations have been approved at the University of Nebraska by the board of regents, according to announcement Monday, December 22 from the chancellor's office.

New appointments in the College of Medicine include: Marjorie J. Hook, acting supervisor pediatric department from Dec. 1 in place of Edith O'Neill; Mildred E. Vogt, assistant clinical instructor in operating rooms from Dec. 1 in place of Hazel A. White who has resigned effective Nov. 30.

The following changes in title as approved by the administration:

Scholarship, Character Essential to Job Finding

... National Survey Shows

Scholarship and character are the qualities most sought in college graduates by American employers, Investors Syndicate of Minneapolis reports after a national survey of graduates' job prospects.

What do you know? What are you? Whom do you know? Employers are querying job applicants in about that order. Schools list qualities sought as follows in order named: scholarship, character, adaptability, campus popularity, personality, athletic prowess, ability, alertness, extra-curricular activities and dependability.

Industrialists faced with large orders that must be delivered on time, the survey report observes, are stressing production rather than distribution. They are more interested in what a job applicant knows than whom he knows. Scholarship emphasis proves this point. Scholarship, mentioned 375 times, or 23.3 per cent of an aggregate of 1,610 mentions, is listed three times as often as either personality or campus popularity,

Dr. K. O. Broady ...plans to help selectees.

Navy Recruits College Men For Training

According to an announcement released today by the navy recruiting station in Omaha, there are now 27,000 openings for college graduates, seniors, juniors, or sophomores who desire to become naval officers at the completion of the current school year.

The navy needs 7,000 graduates or seniors now in college and 5,000 men now in their junior year, to qualify for training as deck and engineering officers, and 15,000 men now in their senior, junior, sophomore years in college as prospective naval aviators.

Seniors enlisting during the next few weeks for the officers training will not be called to active duty before June, while juniors enlisting in the same division will be called to active duty only during the period the university is closed during the summer and may return to graduate in 1943.

Deferment Allowed.

Students enlisting as naval aviators will not be required to com-

Uni Adds New War Courses

Defense Program Offers Training in Radio Work; Includes Night Subjects

Newest among the defense courses being offered by the engineering college is a radio ultra-high frequency techniques course which will begin Feb. 2 for the second semester.

The course is offered to electrical engineering seniors in cooperation with the defense program. It is the first special defense course to be established offering college credit to regularly enrolled engineering students.

Prof. F. W. Norris of the electrical engineering department spent three weeks at the Massachusetts Institute of Technology in

Countryman Filings Open January 14

Filings for positions of the Cornhusker Countryman, ag college publication, open Jan. 14 according to an announcement made yesterday by R. K. Prescott, president of the faculty board of ag publications. All filings must be made in room 301 of ag hall by Jan. 15 when selections will be made.

Open are the three executive positions of the editor-in-chief, the business manager, and the circulation manager. Two associates will be chosen for each of the main officers and a number of assistantships will be open.

Scholarship Calves Aid Ag Student Loan Funds

From little calves, sizable loan funds grow. That's true on ag campus where calves, presented to the university by various public spirited citizens are used in class-work, fed out, and sold with proceeds from the "scholarship calves" maintained in student loan funds.

The university now has about five of the calves, the latest having arrived just a few weeks ago. He's a Hereford weighing about 375 pounds from the Lakeside ranch in the sandhills. Tom Hord, manager there, said proceeds from the calf will be used to establish the "Lakeside Ranch Scholarship Fund."

Get Ten Months Use.

The university receives nine to ten months use of each in animal husbandry classes according to Prof. William J. Loeffel, chairman of the animal husbandry department who is directly concerned with the administration of the various scholarship funds.

"The scholarship funds are used for junior and senior students in animal husbandry" said Prof. Loeffel. "Loans are restricted to \$50 per student. It has been our experience that many animal husbandry students get into a financial situation such that a \$50

Officials to Study War Curriculum

The special council appointed by Chancellor C. S. Boucher to make recommendations for any necessary changes in the university program to fit the national emergency will meet Thursday and announce proposed changes Friday or Saturday.

Chancellor Boucher has wired Commissioner Studebaker

Frosh Prepare For Long Cup Debate Meet

With six men and two women already registered for the Long Cup competition, Dr. Leroy Laase announced yesterday that the annual freshmen debate tournament will be held on Tuesday, Jan. 13, at 7 p. m.

Contenders will argue the question: "Resolved that after the war the nations should form a federation to establish the eight Churchill-Roosevelt principles." Each speaker will deliver an eight minute address upholding either side of the question. Those who wish to compete are asked to register their intention and the side they prefer with Dr. Laase before 12 noon, Jan. 12.

High ranking speaker of the contest will be awarded the Long trophy held now by last year's winner, Bill Rist. The contest will also serve, however, as a tryout for membership in a freshmen debate squad which will function throughout the year. An interesting intramural discussion-de-

Barb Leader Dafeo Injured In Accident

Bill Dafeo, barb leader, suffered a severe injury to his right leg and a bruised shoulder when he was struck by a car at 14th and S late Sunday night. He was taken to St. Elizabeth hospital where attendants report his condition as "good."

Dafeo had just stepped from behind a traction bus when the car driven by Raymond Grantski, 3454 Greenwood, skidded and caught Dafeo's right side tearing the leg muscles. Grantski said he saw a man step from behind the bus but was unable to stop the car on the ice.

Jim Barbur, university student, aided Dafeo in reaching the corner drug store where a tourniquet was applied before the doctor arrived.

in Washington, D. C., for official word on the proposed changes. "We will make changes if any are necessary when we obtain the official government comment," he stated.

The council will study such matters as adjustment of credits for graduation, shortening or eliminating vacation periods, modifying the summer session as to length and courses offered, and permitting qualified students to carry heavy programs, Registrar G. W. Rosenlof, chairman of the council announced yesterday.

Need Adjustments.

"We must recognize that essential adjustments must be made to speed up the educational process and yet not lose or destroy the effectiveness of training," said Rosenlof. "Modifications in credit arrangements and graduation requirements are necessary to meet the needs of men leaving for service in the armed forces," he added.

Flexibility will characterize every aspect of the university and

Awgwan Ed Joins Army; Filings Open

Into the U. S. army went the first UN publication head when Jim Lipsey, editor of the Awgwan, enlisted in the air force during Christmas vacation.

Prof. Harold Hamil, chairman of the student board of publications, stated that altho no formal resignation has been received from Lipsey, application for the editorship will be received this week since he is definitely settled at Wichita Falls, Tex., where he is in training.

Lipsey was also publicity chairman of the Interfraternity council and vice president of Zeta Beta Tau, social fraternity.

The present assistant editors of the magazine, Shirley Kyhn and Joan Metcalf, will act as co-editors on the January Awgwan for which work has started, and the publications board will not select Lipsey's successor until after that magazine has been published, in time for the new editor to take over at the beginning of the second semester.

Sunday Journal and Star.

Not an ordinary calf is this one held by Margie Pollard, home ec freshman and a state champion 4-H club member. The Lakeside ranch calf is one of the "scholarship calves" given to the university by prominent Nebraska citizens.
