Informality Is Keynote of Ag Social Mixer

Two more pins are in the possession of a couple of gals—this can't go on forever. Kay Duncan has combined the Alpha Sig pin of Stanley Scott with her Pi Phi arrow... Theta Alice McCampbell and Kappa Sig Ren Bukacek have sealed it with the big pin-hanging. And a pin returned, but not with the usual conditions resulting, for they are still steadying it—Phi Gam Al O'Conner and Theta Aline Hosman... Here's the big congratulations to Bob Miller, Phi Gam, who has finally decided to settle down with one girl, who is, you can guess, Alpha Chi Dotie Filley...

Informality was the key-note of the ag college social mixer held in the activities building on ag campus last night. Music was furnished by Ray Crawford and his public address system.

Sponsored by the Social Council, with Willard Vesik as chairman, these mixers have been given about every two weeks. Ten cents per person is charged for entrance.

Beta Sigs Elect Johnson Prexy

Beta Sigma Psi fraternity has elected officers for the coming semester. The new officers are: Marvin Johnson, president; Louis Sprandel, vice president; Harold Dryer, secretary; and Johnny Bauermeister, social chairman.

Museum Requests Loan of Brook's Famous Painting

The Worcester, Mass. art museum has requested the loan of Alexander Brook's painting, "Peggy Bacon and Metaphysics," from the Hall collection at the University of Nebraska exhibition Feb. 18 through March 22.

The Worcester exhibition will feature 50 outstanding paintings done by American artists between 1930 and 1940. "Peggy Bacon and Metaphysics" has been selected by a national advisory committee headed by Charles H. Sawyer, director of the Worcester museum. Formerly director of the Addison gallery at Andover, Mass., Sawyer visited Lincoln during a recent summer to see the permanent art collections at the university.

Phi Sigma Iota Hears Speakers

Two speakers will be heard at the next meeting of Phi Sigma Iota. Romance language fraternity, to be held Wednesday, January 14, at 7:30 p. m. in Parlor X of the Union.

William Eberline will talk on "El Duque de Rivas," and Antonio Obard will speak about his native country, Chile.

Rumored that Alpha Chi Frankie Haberman really put her heart into her song the night of the Alpha Chi formal when she offered "My Melancholy Baby" during intermission... Here's an old piece of news that just came in about the constant dating of Phi Gam Jim Lindberg and Missouri KKG Jane Haggerty during Xmas vacation (might have a bearing on today's problems)... While we're all the way back to the holidays we might mention the big breakup between Sigma Nu Don Engdahl and Kappa Sweets Campbell which never smoothed itself out...

And have you noticed the three day beard and haggard look on Emory Burnett's face since he learned that former one-and-only wanted to be alone... AGR Don "Stainless" Steele has added a new one to his list, and last night saw him squiring DG Jerry Sandall... Note on brotherly love: Betas Will Folsom and Ed Huwatt got a little confused and came out plus Barbara Shuff for Will and minus the same gal with Ed, who was formerly pinned to her... Kappy Kady Wells and Sig Nu Cliff Bloom have come to the parting of the ways... Kady's leads to the Phi Psi house and Charles Drake, while Cliff stays with the KKG's and Barbie Stuh... A.I.'s well that prints well.

Much importance lies in the kind of photograph you attach to an application. Townsend quality should be given first consideration. Studio, 226 So. 11.—Adv.

Skating Rink at Ag College Will Open This Afternoon

. . . If Weather Is Good

Our current cold weather wave has heralded in more than colds, ear muffs and rubber boots. This afternoon marks the opening, informal as it may be, of the ag college skating rink. The rink was filled with water yesterday afternoon, and providing the weather remains unchanged, will provide some excellent chances for alleged Sonjas and hockey speedsters.

Only university students are invited, including students from both campuses. Plans are being made for a lighting system, so that the glamor of zipping over ice at night might be given. There are also facilities for flooding the rink whenever roughness appears. As yet, no plans have been made for a warming shack, but the Ag Activities building across the road will be open for warming of toes, etc.

Promoted by the Ag executive board, and strongly backed by Dean Burr and the tractor testing laboratory, the rink was believed necessary because of the decided interest students have shown for skating, and the lack of nearby facilities. The tractor testing laboratory furnished tractors for put-

ting grade around the rink to hold in water.

So hail ye hearties and lovers of winter sports, to the northwest part of Ag campus, west of the tractor testing lab.

Calling All Weathermen!—Army Needs College Men

. . . Specially 'Air' Trained

Students who are studying—as well as talking about—the weather these days will have jobs all cut out for them in defense work according to a news bulletin from Randolph Field in Texas.

Uncle Sam's rapidly expanding Air Corps can use specifically-trained students in their work, excluding only those rather dubious groups mentioned in the old saying: "Only fools and foreigners will attempt to predict the weather in Texas."

Four groups of civilian meteorologists, including full instructors or associates, assistants or juniors are being sought by the Gulf Coast Air Corps Training Center to begin immediately. The positions will be filled directly at the training center, and command salaries of from \$2,000 to \$3,000 annually.

Under the deferment regulations, applicants accepted for the posts will not be liable for immediate call into the Selective Service.

Heading the qualifications list is the request for students who have had at least a year of weather bureau work plus a six-semester hour college course on the subject. With a college degree

unnecessary, applications will be accepted also from students who have college credit in differential and integral calculus and advanced

physics. For this latter group, a ten-week training school will provide the substitute for the practical experience.

Weather men taking jobs will be placed at the Gulf Training Center's five basic flight schools—at Waco, San Angelo, Sherman and Randolph Field, Texas and Enid Oklahoma.

Eula Friend, University of Omaha beauty queen, received 98 fan letters after her picture was published in Look magazine.
