

By Pat Chamberlain and Marge Christensen.

Candle-burned-at-both-ends C. Petersen again bows to an untruth: in an urgent letter to aforementioned gore-monger, Jean Kirkpatrick said she appreciated the suggestion, but she is not engaged to Emory Burnett nor either to anyone. Priorities on diamonds go to Alpha Xi Delt this week with two sparklers and a marriage. Rings adorn Mary Louise Howerter and Jean McAllister from Russ Steuber and Richard Bradley respectively, while Irene Courtenay left last Sunday to join husband of a week, Norman Johnson, now in the air corps.

Happy and pinned are Pat Fulton and George Yetter, for his Phi Psi badge is now under her Kappa key as of Friday night. Brothers and sisters are impatient for promised candy and seegars.

A new combination seen at the Phi Delt formal were Theta Sheila Wheeler and Phi Delt Nick Douvas, who were really enjoying each other.

It Leads to Difficulties.

Cochran can lead to a lot of confusion, especially to Randy Pratt's brothers in the Farm House, They are wondering whether it is the Theta or Pi Phi Cochran that he is escorting to the Easter breakfast at ag, but after all, isn't the Theta going steady? And by the way, Fuller Pratt has some super, stiff-bristled hair brushes for you gais to glamorize your hair . . . 50 strokes before retiring, you know.

A new blue convertible brings former pinmates Tri Delt Ruth Grant and ATO Bob James back to occasional dating. Do you suppose the new will revive the old? Incidentally, Bob's brothers, Don Sherwood, Don James, Ray Calk-kinn, and Dick Hunter made an excursion to Beatrice last night to give the gals down there a break.

Glamorous, pear studded is the Sig Ep heart which replaced the traditional pledge pin last night after initiation ceremonies. The rites then adjourned to the Turnpike for finishing touches. Interesting duos were AOPi Jackie Stretton with Vic Bradshaw, a revived coupling AXiDelt Frankie Smith with prexy Jack Busby, and steady man Bart Baker with Chi Ococo Dorothy Miller. And say, to take care of a gloomy Sunday turn up at the Turnpike for a wheeeee,

Rogers Gives Final Gallery Lecture Today

Meyric R. Rogers, curator of decorative arts at the Chicago Art Institute, will give the final gallery talk today on the closing day of the 52nd annual Nebraska Art Association exhibition of contemporary art.

The speaker is well known to Lincoln audiences, having lectured here in 1939 and again in 1940. As on his previous visits, he will serve as one of the art experts to decide on work from this year's exhibition recommended for purchase by the university. The other adviser will be Fred Bartlett, curator of paintings in the Denver Art Museum.

Formerly director of the City Art Museum at St. Louis, since 1939, Rogers has been in charge of reorganizing and building up the large Wing of Decorative Art in the Chicago Art Institute. He has also taught art at Smith college.

The Yale University Press published his book on the "Sculpture of Carl Milles" in 1940. He has also had numerous papers and monographs on art subjects published by the St. Louis Art Museum, the Museum of Modern Art in New York City, and other art institutions.

Some 4,000 school children have visited the exhibition during the month with about 160 having the privilege of a second view Saturday, March 21. Representing 28 schools, the children came in groups of 50 or more and were addressed by Miss Elva McFie, art superintendent of the Lincoln schools, and Mrs. J. P. Colbert. Students from Irving junior high school on Thursday took the last of these personally conducted tours.

Geography Class Takes Field Trip

Students in urban geography at the university made a field trip to Wahoo, Fremont, Valley, Omaha, Council Bluffs and Plattsmouth Saturday. Miss Esther Anderson was in charge of the trip.

Studies were made to show how geographic features in the cities and in the hinterland have contributed to population growth there. Some centripetal and centrifugal forces affecting occupational zones, housing projects, industries, and problems related to urban growth patterns were em-

Plans are to place within the stone a box containing a copy of the college bulletin; statements concerning the war and general economic conditions, enrollment at the college, and personnel of the last legislature; and copies of the Lincoln Journal, Lincoln Star, the student-published Cornhusker Countryman, and Agricultural Extension Service News. The Nebraska Farmer is furnishing a copy of the recent issue, and a reprint of the first copy of the magazine, for the box.

Construction of the new building is proceeding on schedule in spite of some delays because of bad weather, according to L. F. Seaton, operating superintendent for the university. In fact, yester-day there was a temporary iceskating rink, amid planks, bricks and iron pipes, on the first floor of the building. Despite the frigid clime, workers were busy on the basement level, where the lounge, game room, book nook, and committee rooms are taking shape. No difficulties in obtaining materials because of priority orders are anticipated at this time.
