Another House Of Usher

Last night the Student Council met and elected officers for next year. On the new council were 24 affiliated students and 10 unaffiliated students, yet it was the latter group which determined largely the course of the election.

Yes, the Union faction got too big for itself and blew up. Certain self-seeking individuals broke the foundation of what was once a rock-ribbed party. A few months ago we wrote concerning the barb party and its decline in importance and prestige likening it to The House of Usher. The midyear slump of that organization was due mainly to a lack of coordination on the part of the various leaders and the general laxity of interest of most unaffiliated students. This cannot be said of the Greek party. Here not only was a lack of leadership but down-to-earth treachery of the leaders themselves. Unlike thieves, politicians have no code of honor.

"The facts leading up to the election of officers last night are very interesting. Two weeks ago the Greek faction nominated offieers for the Student Council. Since this faction has a goodly majority on that body election was virtually assured. However, developments caused a split. People were being pushed and shoved. They allegedly needed this and needed that. The faction leader with-

By Marsa Lee Civin.

April 24, 1918, 700 already enlisted, drafted men were stationed on the campus to take up technical intensive training in engineering and military mechanics.

Captain Andrew Knight, representative of the war department and Dean O. J. Ferguson of engineering college inspected conditions on Ag campus as to facilities for instruction and quarters for men.

Three hundred and fifty soldiers were to receive training on ag campus in automobile, cement work, forging, wood work, and other military mechanics. These men were housed in the judging pavilion, upper part of new horse barn, and machine shed. They ate in the cafeteria in the home economics building.

The 350 men on the city campus were quartered at Nebraska Hall and had their meals at Temple Theatre.

Many of the ex-engineers who were called in the draft were sent back here to receive more training in mechanics.

The returns at the end of the university drive for the Liberty loan totaled \$3,009. The campus drive was carried on by the 1918 Kosmet-Klub group.

out calling a meeting of his followers set about lining things up without their approval.

However, his moves were blocked even though he had acquired the block of barb party votes which were offered first to one person and then finally to the person the faction head was backing. Failing to establish him as a candidate the entire block of votes, both barb and Greek, were thrown behind a substitute who also was a Greek in order to prevent another person from getting the presidency of the Student Council.

The individual finally selected as head of the governing body is very capable and richly deserved the honor conferred upon him. The Council will thrive under his guidance, but not so the Greek faction. For without question enmities have grown. The faith and trust in faction determination has been abolished for some time to come.

It was all a sordid mess, and the even tualities which indubitally will occur will probably find the Greek faction-or what was the greek faction-right behind the old eightball. But whatever happens in the years to come the Greeks have themselves and only themselves to blame. It is another House of Usher trembling with distrust, faltering in leadership, and rotten with treachery.

over for a week of further bylaws before voting took place. The second stated that all officers of the council had to be selected from hold-over members. Mr. Lantz, faculty advisor of the council, affirmed the official standing of these by-laws and stated that the second had been followed for some fifteen years.

Roy Byram again objected to these as being unfair to the barb party and new members of the Council and proposed an amendment that would make both seniors and holdovers eligible for of-Considerable discussion followed with Burton Theil admitting the unfortunate party affiliations of all holdovers but advising the continuance of the by-law. Chris Petersen presented the advisibility

of having experienced council Seven Sisters . . .

It's spring on the university campus, and any collegiate columnist who is any good puts forth his best efforts and writes a column on his reactions to the most wonderful season in the

Writing "Sauce for the Gander" in the Daily Minnesotan, Max Shulman did some mighty mesmerizing for gopher students. We like spring, but not because its a good time to write columns; rather because it's such a wonderful time for picnics. Therefore, we get the picnic and you get Max Shulman (which is a break for both you and us.)

COLOR... The reds and yellows and pinks and greens and blues of the coeds' dresses and the brown and white of their shoes, What did girls wear on their feet before saddle shoes? The bright blue of the sky and the whiteness of the fleecy clouds, like a very bad sentimental painting. The spring green of the grass before the summer heat yellows it.

ODORS...Best of all, the green earth. Lunch bags being opened-ham, peanut butter, egg salad. Ice cream cones, Nothing in the world smells like an ice cream cone. Ice cream has an odor, but it is not like an ice cream cone.

STUDY . . . Young men with backs propped against trees, Coeds lying full length, heads supported on crooked arms. Sunlight shining on open pages of thick red history books, green tooexpensive psych lab manuals, finely set poetry volumes, small baffling mathematics texts.
