Learning the Hard Way

Nebraska students are going to literally get a taste of the war Monday when the organized houses, Student Union, residence halls for women and ag campus boarding clubs are put on a one day trial of British rations. For three meals, students will eat the type of food eaten by the British daily, eat consisting mostly of bread and potatoes.

This plan is heartily approved by the home economics association and the National Bureau of Home Economics who wrote to the defense council, sponsoring the plan, that it was the first idea of this kind to be tried on campuses over the country and asked to be advised of the results.

Many students will groan when they sit down to Monday night's meal and find food they are unaccustomed to, but these same students are those who need to be knocked in the head to make them realize that the United States is at war and that there will be sacrifices far greater than a one day's menu to make. This plan will give groups some idea of what is to be expected in the future as far as food is concerned and may make a few of us realize that we should seriously set our minds and efforts to the war if we are going to obtain a final victory.

This plan is but one of few which should be tried on this campus next year to wake up many individuals. The council will have one of the most important jobs of any organization on the campus and should get the whole-hearted cooperation of every other group in an effort to educate Nebraska students along war lines.

Projects such as air raid drills, gas drills, ambulance driving, and intense food and clothing rationing should be introduced next year by the council. Some will scoff at the idea of air raid drills but the practice and experience of going thru such drills may come in handy for persons who will leave school next year to work in cities where air raids may be a common occurrence.

The defense council has sponsored several good projects this year but their main effort was spent in getting the group organized and planning activities. Under the chairmanship of Nancy Haycock, the group has carried on first aid classes, given dances for soldiers, conducted a successful victory book campaign, donated furniture to the USO club at Fort Crook, and produced a Red Cross benefit show. This is only a scratch on the surface compared to what can be done for the duration.

Every organization on the campus is asked to send representatives to the group but this year the membership has been comprised largely of women. Next year's council should find men's activities represented if we are to have

A War Ago

Regents of the university wishing to rid Nebraska of every suspicion of loyalty, issued the following proclamation:

"Every instructor, officer and employee of the university must be loyal and a wholehearted active American. Every person connected with the institution who is shown in public hearing to be negatively halting and hesitant in support of the government or failing to do his or her part when called upon in the present struggle will be summarily dismissed from any connection with the university and a loyal successor will be appointed according to a decision by the board of regents."

The board felt that a matter so vital to the university should be taken by everyone in the utmost sincerity and the necessity for the above proclamation was felt very necessary.

On Other Campuses

By Marsa Lee Civin.

Students at Purdue may take advantage of the courses in nutrition and canteen work offered by the home economics department. These courses will train workers in the proper care for large groups of persons in case of emergency.

Members of the staff at U. C. L. A. conducted a survey to investigate various methods of getting to school which some of the student geniuses plan to adopt. Some of the replies include such sage remarks as "I'll tap the water on my knee and swim to school;" "I hope I'm a long way from home with a cute gal so's I can enjoy it;" "Give me my boots and saddles."

Unless the interfraternity council at the University of Oregon follows the lead of the heads of the various houses and votes to ban exchange desserts from the campus, the recently enacted ruling by the women students will not accomplish its major purpose, that of saving time and energy for national defense.

Movie minded students at the University of Indiana are having their big chance as Sol Baiano, the talent scout from Warner Brothers, interviewed university students taking parts in theatre productions during the past

Japanese-Americans forced to leave school in evacuated military zones will be helped according to reports from U.C.L.A. where these students will be offered college scholarships at universities in non-restricted military areas and correspondence courses be provided for those remaining at evacuation centers.

Saturday collegians at the University of Kansas welcome their parents to the campus when the university holds its Parent's Day program. An extremely varied program is planned as the folks will register Saturday morning, attend the afternoon track meet, an all-student style and fashion show, and a tea given by the department of home economics. A buffet-supper in the union ballroom completes the day's activities.

Friday, May 15, has been officially designated at Duke university as War Day on the campus to celebrate the national war effort. A full day of patriotic programs to heighten campus enthusiasm in the war effort is being planned with campus-wide decorations, a religious service parade, an outdoor rally, lawn supper, and dance.

an all-university group. The defense council this year has proved its worth. Let's make next year's committee an even more extensive and active organization.

Bob Schlater.

Rations . . .

(Continued from Page 1.)

that is not also nation-and home-wide."

As to the immediate effect on cokes, there will be no shortage as far as he can see. The syrup of Towne Colas, which are now served in the Grill until a shipment of Coca Cola syrup is received, which incidentally is expected any day now, is mixed with a simple syrup made of water and 80 percent sugar, but will continue to be available until the last grain of sugar has departed. When Coca Cola syrup is received, there will be no need to mix a simple syrup with it as Coca Cola already has the sugar added.

So the moral of this tale seems to be to go on making coke dates

with your best girl, and putting sugar in your coffee, but cooperate in every way with the Union staff in refraining from needlessly wasting sugar.

Queen . . .

own mind, as she designs her own date dresses and formal, which tend to be black or blue.

The Prom Girl-beauty queen is 5 feet, 5 inches tall, weighs 114. She has "sort of" blue eyes and a penchant for sunbathing. Ambition: Traveling.

But the N Club won't tell who will travel to the coliseum to be present as Queen of Queens, and, in the meantime, the public will have to "wait and see."

Relations . . .

(Continued from Page 1.)

it will be held in Iowa at one of the smaller colleges in the state.

Members of the club will be divided into committees next fall according to interests. Each group will plan a meeting for the entire club membership. In addition to these meetings, outside speakers may be called in and forums and round table discussions will take up several of the meetings.

Eighteen Attend Meeting.

Those attending the meeting yesterday were: Mary Ellene Dalton, Stan Lowe, Perry Fuller, Margaret Iwata, Jim Lake, Tom Dredla, Ralph Schroeder, Janis

Collegiate Oddities

On Ag Campus Thirty Ag Coeds Compete In Meat Judging Contest

By Randall Pratt

Coeds... 30 to 35 of them will compete Saturday morning in a meats judging contest. They will identify 25 retail cuts of meat and will be asked to name the wholesale cut each comes from, as well as the two best methods of cooking each cut. They will place five classes, including two of beef, two of pork, and one of lamb, and will write reasons for their placings.

Miss Matilda Peters, Miss Florence Smith, and Mrs. Edna Brenner Synder of the foods and nutrition division, will be among the official judges for the women students. Other judges will include members of the senior meats team.

The contest will be held in the meats laboratory, with Paul Fidler, instructor in animal husbandry, in charge.

Men Judge Friday

The men students' meat judging contest will be held Friday

morning in the Lincoln Packing company coolers. The winner of first place in each contest will receive a trophy furnished by the National Livestock and Meat Board. Second place winners will receive pen and pencil sets furnished by the Nebraska Live Stock Breeders and Feeders Association. Many ribbons will be awarded in the various classes and for all-round judging in each contest.

Speakers for the general convocations at the annual Nebraska 4-H Club Week to be held in Lincoln on May 18 to 22 were announced yesterday at the state club office on ag campus.

Those on the list included Chancellor B. F. Schwartz of Wesleyan University, Dr. A. L. Miller, director of the state health department, Breta Peterson, Lincoln attorney and member of the university law college faculty, and L. F. Livingston, director of extension for the Du Pont firm, in Delaware.

Hagelin, Barbara Townsend, Jessie Lou Tyler.

Joan Martz, Morris Coff, Dorothy Tilton, Joan Finkle, Dorothy Lemon, Ed Morgan, Elaine Dobs and Helen Kelley.

Other students interested in becoming members of the club are welcomed and are asked to contact the secretary giving their name, summer address and the subject in which they are particularly interested.

Suggested subjects for committees and discussions are the Far East, Near East, Europe, Pan-America, Africa and post-war problems and reconstruction.

Debate . . .

(Continued from Page 1.)

Morris Coff, Sigma Alpha Mu. Those rated superior by the judges were Bob Fuller, Beta Theta Pi, and John Binning, Phi Gamma Delta. Those judged excellent were Don Labovitz, Sigma Alpha Mu; Albert Johnson, Sigma Chi; Charles Cather, Beta Theta Pi; Gale Cummings, Delta Sigma Pi and Truman Clare, Delta Sigma Pi.

S. W. Edgecombe, horticulturist on the extension staff of Iowa State college, has resigned to become associate professor in plant science at the University of Manitoba, Winnipeg.

The second annual Kentucky high school junior legislature and the 22nd annual Kentucky high school speech festival were held in April at the University of Kentucky.

Tulane Expect Boom in Apple Market Soon

(By Associated Collegiate Press.)

A boom in the apple market is expected at the Tulane university college of arts and sciences this semester, for the college has acquired its first "schoolm'an"—young and pretty Mrs. Alfred Loeblich, jr.

She will take the place of her husband, instructor in geology at the university, who, as first lieutenant in the field artillery, has been granted a leave of absence for the duration of the war.

Just a natural part of a partnership that began in their undergraduate days at the University of Oklahoma is the way that Dr. and Mrs. Loeblich describe her taking over his job. Virtually meeting over a microscope, they received their B. S. degrees together, took postgraduate work together, and received fellowships to the University of Chicago together, Mrs. Loeblich being the first woman ever to have received one in geology.

"Since we both had fellowships, it was cheaper to live together than to live apart, so—we got married," explained Mr. Loeblich. Since their marriage they have worked together on the collecting of rocks, to be boiled and treated to extract microscopic fossils
