With nothing but study facing everyone, social life has really died down to a minimum, except of course the big N Club dance about which you have no doubt already heard...

A candy passing we missed, and we're sorry, took place Monday with Dick Gellatly, Delt, and Mary Helen Dietrich the two who spent all that money... Chicago will be the scene tomorrow of the wedding between Chick Oldfather, Phi Delt and PBK, and Tess Cassidy, Theta and Mortar Board. There is really an example of "like attracting like"... It is hard to believe but the Romeo of the campus has finally fallen. Yes, Sig Chi Bill McKerney is now wearing one of the brother's pins and his own rests now in the possession of a gal in California...

Picnics are still in the foreground with the Farm House's annual one scheduled for Friday afternoon followed by a dance that night... And the Delta Gammas and Tri Deltas are getting together Wednesday for one of the rougher and tougher baseball games of the season... Well, he finally parted with it. Paul "Bottle" Jones is the Sigma Nu we refer to, "it" is his pin, and the lucky recipient is Gamma Phi Jean Saeger... Congratulations to a number of new pledges of two different houses, namely Dick Folda and Harry McGee now advocates of the Sig Ep crew and Ray Tollman and Carl Lerch entries in the Phi Gam league...

Altho nothing new, some mention should perhaps be made of the flaming renewal of the steady deal between Ed Cizek, Sig Alph, and Edna Mae Neidermeyer, Chi O. Some say it could be traced to the fact that he once more has a car, but surely it is really love... The what was once a rapidly getting stronger affair between Sig Nu Jack Young and Kappa Sweets Campbell is now being halted somewhat through the interference of brother Nu Dumbo Engldahl...

Just so his name can have one more printing, the story of Don "Stainless" Steele, AGA, involving the results of some kind of an accident and the bailing out efforts of Pi Phi Janet Haggart is hereby told... The sisters are beginning to wonder if Tri Delt Helen Jean

## Weathermen Call Students For War Duty

Applications from university men or women who wish appointments with the United States weather bureau for the duration of the war are now being accepted in the bureau's local office, room 305 Brace lab, according to an announcement released yesterday by T. A. Blair, senior meteorologist.

Appointments will be made as vacancies may occur, with preference shown to students having some university work in meteorology, physics, mathematics or geography.

Most appointments are made at salaries of \$1,440 to \$1,620 per year, and are made on personal record and qualifications without examination, other than physical.

Assignments may be made anywhere in the United States, the release emphasized, but those applying here will probably be assigned to positions in Nebraska or adjoining states.

Acceptance of an appointment does not result in deferment under the selective service regulations.

## Air Cadet Board Examines Students During This Week

With registration running well above average, the aviation cadet examining board was busily engaged all day yesterday signing students from all colleges and high schools in Lincoln and the surrounding area.

It was officially announced yesterday that the examining board will remain here for the remainder of the week to take applications for the air force reserve. Students are, however, encouraged to register as soon as possible to allow ample time and room for those

coming long distances to register at the end of the week. All registering is done at Nebraska hall, in room 201.

### Time Left.

There is still time for men to apply for the service by filling out the necessary application blank at the office of the junior division, announced Major Greene, chairman of the board. It was further reminded that the reserve program applies to all men between the ages of 18 and 20, whether or not they are in school.
