25 Japanese Attendumvensity of NEW UN Classes This Fall SEP 30 1942. Despite rumors to the contract of the co

students admitted to the university this fall number only 25, it was revealed yesterday by G. W. Rosenlof, registrar.

Rumors had it that approximately 300 Japanese-American students were expected to attend school here this fall. These reports were false as Rosenlof stated that the number of new ones entering UN for the 1942-43 term exceds by only a few the 11 attending Nebraska last year.

There is no need for any kind of a scare concerning these students, Rosenlof cautioned. All are citizens of the United States, and must give sufficient evidence of loyalty to their country. None are admitted unless earefully checked and approved by the proper government officials thru the War Relocation Council, a quasi-public agency set up to supervise the relocation of Japanese-Americans desiring to complete their education.
