## Activity . . .

(Continued from Page 1.)

The result was overwhelming, so many persons attending the lectures that larger auditoriums twice had to be obtained to handle the audiences.

Any community may obtain the lecture series by writing the extension division of the university. The university is paid ten dollars per lecture plus travel and other incidental expenses involved. It is suggested that various organizations within interested communities sponsor the lectures, so that door admissions not be charged.

**Hold Discussion Panels**  
 The war-lectures committee is composed of seven faculty members, headed by Dr. Hertzler, who have outlined the series so that the background, strategy, and problems of the second World War and anticipated post-war problems will be discussed. Following the lectures, discussion panels with the audiences may be held.

Members of the war-lectures committee are Dr. J. O. Hertzler, chairman of the department of sociology; Dr. K. O. Broady, director of the extension division; Dean Nels A. Bengtson, chairman of the department of geography; Dr. O.

J. Ferguson, dean of the college of engineering; Dr. R. W. Goss, dean of the graduate college; Dr. Lane W. Lancaster, chairman of the department of political science; Dr. C. H. Oldfather, dean of the college of arts and sciences.

The following are topics on which lectures are given, any of which may be included in a community's series:

- "America's Objectives."
- "Latin America and Hemisphere Defense."
- "War Comes to America."
- "The Clash of Occident and Orient in the Pacific."
- "The Washington Conference and Naval Power in the Pacific."
- "The Treaty of Versailles and World War II."
- "Nazi Germany and the War."
- "Dietatorship and Totalitarianism in Europe."
- "Contributions of the University of Nebraska to the War Effort."
- "War and Propaganda."
- "American War Economics."
- "The British Empire and the War."
- "Educational Adjustments in Institutions of Higher Learning."
- "Engineering in the War Effort."
- "The Chemical Background for War."
- "The Role of Physics in the War."
- "Social Work and the War."
- "Art in War Time."
- "Better Nutrition and Individual and National Responsibility."
- "Mineral and Oil Resources in the War."
- "Public Education and the War."
- "War Literature."
- "Political Aspects of the Peace."
- "Some Economic Aspects of the Peace."
- "Credit and Monetary Problems of the Post-War Period."
- "Agriculture After the Second World War."

Lecturers, in addition to those members of the committee, are

J. E. Lawrence, James L. Sellers, H. C. Vedeler, Roger V. Shumate, G. W. Gray, Earl S. Fullbrook, James M. Reinhardt, O. J. Ferguson, C. H. Oldfather, W. E. Milltzer, H. H. Marvin, Frank Z. Glick, Dwight Kirsch, Ruth M. Leverton, E. F. Schramm, O. H. Werner and R. A. Gettman.

will then be impossible to grant requests of students who ask for special schedules, Congdon declared. He emphasized that no student can be sure of having a schedule fitted to his hours of employment unless he registers before Wednesday.

## Services . . .

(Continued from Page 1.)

"Chief Heckler of the Master of Ceremonies" respectively, when the show gets under way. Business manager of the show is Catherine Wells, stage manager; Bob Van Sant, properties manager; Bill Heintzelman, and Mabel Jean Schmer is in charge of the lights.

At 9:30, immediately following the show, the Union's New Year's party will begin. Free cokes and brownies will be served in the Pan American cafeteria and parlors ABC and XYZ during the entire party to those students who have obtained food coupons from the Union lobby before the show and during the party.

Identification cards must be presented before food coupons will be given to attending students.

## Columbia Offers Electronics, Metal Classes to Women

Columbia University is opening up a new field for women by offering ten-work courses in electronics and in metals. The requirements are a high school diploma, mathematics and trigonometry and one year of college physics or its equivalent.

Women specialists in these subjects are needed by the Naval Ordnance Laboratory, the Army Signal Corps, the Tennessee Valley Authority and some private corporations.

Alumni office of the University of Wisconsin now has on file the records of approximately 138,000 alumni.

# Curtiss-Wright Inaugurates Coed Engineering Training In Special Aviation Classes

## . . . At Eight Colleges

"For Men Only," the sign that has labeled the engineering profession, has now been removed, according to G. W. Vaughan, president of Curtiss-Wright corporation, for his company is now seeking approximately 800 American college women for special training as engineers in eight universities.

Applicants chosen for the course will take special aviation courses for ten months, registered as special students living in special sections of college residence buildings receiving all benefits and privileges given regular students. The "Cadettes," as the girls will be called, will receive tuition, room and board and a salary of ten dollars a week.

The courses will begin Feb. 1, 1943, and the "Cadettes" will enter various Curtiss-Wright plants in the east and middle west in December to take over engineering positions, thereby releasing regular engineers for more creative duties.

Women interested in the program are advised to contact by letter, telephone or telegram Miss M. McLeod, a Curtiss-Wright representative, who is located at the President hotel in Kansas City,

Mo., between Jan. 7 and 15 inclusive to arrange for convenient interviews.

Qualifications for "Cadette" positions are that women students must have passed their 18th birthday prior to Feb. 1, 1943 should have a sophomore standing, or better, and must have had college algebra or its equivalent. The program will be administered by Cornell university, Rensselaer Polytechnic Institute, Pennsylvania State college, Purdue university, University of Minnesota, Northwestern university, Iowa State college and university, and the University of Texas.

Several hundred candidates have been accepted for the training and many young women interviewed had long-standing interest in engineering despite the fact that less than 20 women received engineering degrees in the past year. Many applicants stated that they had not entered the field because of its dominance by men.

## Credit Offered For Commando Training Here

To toughen Nebraska men for the strenuous physical training program of the army, navy, and marine services is the purpose of the new commando course in the men's phys ed department stated R. G. Clapp, chairman of the department, recently.

Started immediately following Thanksgiving vacation last year, the course, then purely voluntary, drew a regular attendance of between 40 to 45 men. These men were given the same type of training program that is used by the armed forces, which includes strenuous calisthenics, obstacle course training, wrestling, jiu jitsu, swimming under emergency conditions, boxing, tumbling, and vaulting.

Classed on the department schedule as general recreation, section XII-A, the commando course is now offered for credit, if the student wishes to register for credit. The course is, however, still open to volunteer participation.

Section XII-A will be given Monday thru Friday at 5 p. m. and again at 5:30. Students may choose which three days they would prefer to take the course for credit, but are urged by Dr. Clapp to come every day for the additional training and practice.

Another section (21-1) is open at 2:30 p. m. Monday, Wednesday, and Friday for men who have had no previous credit in general recreation.

Men should consult Dr. Clapp, 207 Coliseum, or W. W. Knight, 206 Coliseum, for further information.

## Civil Service Needs Women As Engineers

Women with a college degree in any field are invited to qualify as junior engineers in the government service by taking a short training course in recognized engineering schools.

Candidates may take a ten-week, full-time course or go to school in the evenings for 27 weeks, with their tuition paid. The entrance salary will be \$2,000 and appointments may be made anywhere in the country. Further information may be had at the Civil Service Information Office, 801 E. St., N. W.

Students who are interested in earning part of their expenses while attending classes are given the opportunity of working part-time for the government under a new commission ruling. Part-time employees are especially needed as stenographers and typists, at the rate of \$1440 a year; tabulating machine operators, \$1260 and \$1440 a year, telephone operators, \$1260 and \$1440, and messengers, \$1200 and \$1320. However, applications will be accepted for any type of position on a part-time basis.

Requests for further information about this type of employment outside Washington, D. C., should be directed to the nearest civil service regional office.
