'I'm Up a Creek'

New University Library Makes First Statement For The Press

When queried on how it feels about the times, the new Don L. Library replied: "I'm more up a creek regarding the future than anybody.'

"Here I am a beautiful edifice and what happens? I'm out in the cold; nobody even uses me. All I've had since the beginning is tough luck.

First I was supposed to be completed last August as a lirary. Then I was scheduled to get a whole bunch of books this month and become a full fledged, library. Then came the new deal about colleges, and I ain't even a library anymore.

There are rumors I may house some soldiers, but what I'm praying for is the latest rumor to come true. It is that a bunch of nice WAACs or WAVES will be using my facilities.

Right now practically everything is done and only a handful of workers are left. I sure hope something happens soon. Here I'm a million dollar baby not doing a darned thing.

Time magazine's semi-annual current events quiz is scheduled for Sunday afternoon, Jan. 24, in the Union. The first 50 undergraduate and graduate students who register at the Union checkstand before Jan. 19 will compete in this contest on present-day world events.

The 50 minute test consisting of 105 questions on war, politics, diplomacy, science and art current events will be given in the form of multiple choice, character identification, map-spotting, quotation choice and picture identification questions. A gag set of questions entitled "What Would You Do?" will be entered in the quiz, but the answers will not be included in the contestant's final score.

Work Alone.

Individuals will work separately on the written questions instead entertainment places are treating year. If any organized house does not have a representative in the contest after the limit of 50 is reached, that house may enter a contestant regardless.

Winner of the quiz will receive his choice of any \$5 book or Time magazine's 12 inch world globe, with metal semi-meridians on a handsome base. Runner-up of the contest may have his choice of any \$2.50 book given by the Union competitive games com-

WAA Offers **Three Women Scholarships**

Three \$25 scholarships for women students will be offered again this year by the Women's Athletic Association, according to Betty Newman, president. All university women fulfilling the requirements are asked to apply at the WAA office in Grant Memorial hall between January 18

One of the scholarships will be awarded to a woman working her way through school who has maintained a good scholastic record. The other two scholarships will go to girls who have participated in WAA-intramurals or clubs, and have a good scholastic record.

According to the president, the WAA scholarships are not difficult to obtain, although this idea has kept many coeds from applying for the grants.

The class will provide skilled workers for Nebraska bomber and ordnance plants. Not only men but women may enroll for the class. Dr. W. L. Baufre, director of war industrial training, is in charge of the class.

Correction . . .

The announcement appearing in yesterday's paper concerning the banquet for the V-7 naval group was not an official naval announcement but only the plans for this misinterpretation.

Bulletin Lists Requirements Of Women's Service Groups

BY GEORGE ABBOTT.

With enlistment openings in the WAACS, WAVES, and SPARS now totaling over 250,000 the American Council on Education has released a bulletin outlining requirements for college women in the three organizations.

"It is more and more evident," according to the council, "that both commissioned and noncommissioned officers to be in command of units within the women's services may be in large numbers selected from this year's seniors and from recent alumnae among our college graduates."

List Requisites.

Women are eligible for any of the services at twenty or twenty-one. An outline of requirements and purposes of the WAACS, WAVES and SPARS follows:

WAAC's

The Women's Army Auxiliary Corps is an organization not technically in the Army, but under military discipline and formed into military units for noncombatant service with the Army either in the United States or overseas. The minimum age for volunteering is 21; the maximum 44, inclusive; with no stipulated educational requirements although the individual must pass an intelligence test. Salaries are equivalent to corresponding Army grade and

Almost without exception, potential officers are selected from the ranks of enlisted personnel (auxiliaries) and are sent to Officer's Candidate School. Because of the rapid expansion of those enrolled. We are sorry
