

Party Line

By Betty Jo Nye and Mary K. Waring.

This week the girls' minds are turning finally toward initiation, while the boys are waiting to be inducted. But on the UN campus, there are still enough men left to make society interesting.

DU Dean Yates better known to his dental college cohorts as Doc, has been cavorting with a certain lass from Beatrice nearly every week end lately. (For further verification of this statement, see Senor Richardo Luther.)

Las Fireworks.

There seemed to be a lot of fireworks on the campus last week end judging from the number of steady deals that broke up. For instance . . . Shirts Wright, KAT, gave back her diamond to Jack Cresse of the army air corps, while Pauline VanHorne, DG, and Claude Wilson, ATO, have decided to call their steady romance quits. To prove it, Poggie stepped out with Ralph Mallott, Phi Psi, last Saturday, and has accepted another date with him for this week end. While we are on the subject of broken romances, we wonder what happened to the one of Dorothy Carnahan, Chi O and Ed Danielson, Phi Psi?

The ATO's, out of pure curiosity of course would like to know if Kay King, Alpha Chi, would like to go steady, McCartney says so. How about it, Kay?

Happy Birthday.

Sigma Nu, Byron Peterson was honored on his birthday last Saturday evening with a cake and all the trimmings . . . including Ruth Panzer, Alpha Chi, Bob Rogers, Sigma Nu and Joy Laune, Gamma Phi, were also in attendance.

with an air corps staff under 1st Lt. J. L. Mosle giving them military indoctrination and training.

The men, who will move to flight schools after completing their five months here, are scheduled to receive a limited amount of flight training. The air corps staff has taken over completely the offices of the Creighton athletic department. Academic training of the soldiers will consist of mathematics, physics, current history, geography, English and civil air regulations. Their complete program will consist of more than 700 hours in class and on the field.

might prove to be well worth watching are: John Drummond, DU and Lorraine Rabe, Alpha Phi; Walt Metz, Phi Psi and Mary Jo Gish, DG.

We heard that the Deltas have purchased a cocker spaniel pup and have decided to call it Patty, in honor of Patty Welch, Pi Phi. No doubt Dick Haggart was chairman of the naming committee.

And now in finishing, we wish to leave this parting thought dedicated to the ERC's.

Am he gone?
Are he went?
Has he left us all alone???
Us can never go to he,
Him can only come to we,
Alas it cannot was!

'Minute Maids' Make Debut; Sell Stamps

Stamps are now being sold at all campus parties! Buy all you can every time you have a chance.

Under the title of Minute Maids the beauty queen candidates made their debut at the Sigma Alpha Mu freshman party last Saturday night. Shirley Kushner, Sigma Delta Tau candidate, sold the stamps at this first party to use this plan.

That the queens possess salesmanship as well as beauty, was exhibited when Shirley sold \$17.40 to the party makers last weekend.

Next weekend stamps will be sold by the candidates at the Dorm informal Friday night and at several other parties.

and entertaining Sunday afternoon. An annual presentation of the national music honorary fraternity, it was given earlier than usual this year due to the ever-increasing evacuation of male students.

The Glee club, directed by Russell Leger, was composed of the entire chapter. Proof of their excellent vocal work was the unbroken silence following the stirring "Hail Sinfonia" by Sullivan. Unusually well done also was Monteverdi's "Come Death, I Shall Not Fear Thee."

Wenzlaff Commended.

Don Wenzlaff is to be commended on the Sinfonietta's performance. Some good ensemble work was done despite the recent loss of essential members. Of great importance to the audience was the Weinberger "Concerto for Timpani," just off the press, in which Barney Heeney soloed.

The most popular numbers of all were those of the male quartet. Encored twice, they displayed in all songs that blending, tone quality, split-second timing and personality which are required to make a topnotch group click.

Of interest is the fact that all directing was done by members. We'd like to see more of this type of experience open to students.

Chandrasekhar Says Stars Now Relax to Blink

CHICAGO, Ill. (ACP). Stars don't twinkle—they blink.

Yawning away their span of life, the vast systems of stars are undergoing a slow process of "relaxation," according to a theory presented by Prof. Subrahmanyan Chandrasekhar of the University of Chicago.

The stars' manner of relaxing is different, to say the least. No masseur's rhythmic pat—but the traffic on the heavenly highways slows down these stellar "bundles of nerves."

"Any given star," Dr. Chandrasekhar said, "because of occasional near misses while passing other stars, gradually will lose energy by deflecting slower moving stars from their paths."
