

# Party Line

BY WOLFGANG MONROE.

The weekend begins to look bigger and better as each day passes. New affair is the Kappa Sig pledge party. All about Palm Beach, etc. Complete with leis and flowers. We still want to know who the Phi Gams have picked to be Gaboon Girl of 1943. It appears likely to this tattle that Marj Christensen may be a likely candidate.

## Strange Things

Like Anamary Lee, Kappa pledge, taking the pin of that veteran pin hanger, Leonard Dunker. This girl must be pretty strong poison. First a Phi Gam pin, then steady with a Phi Psi and now she has captured the heart of one of the OLD guard.

Like Ray Miller concealing the fact that his pin now rests in the hands of one Betty Ruth Dunlap. Seems the exchange was made last Saturday night.

Like the typical Nebraska Coed having a coke in the Union Saturday morning for the World-Herald. And typically Nebraskan she was sans date.

Like Ronny Metz taking such a long time at the candy passing Monday night. Just as if he was leaving soon!

Like Bill Palmer paying his printing bill in advance. (He requested that I make this statement.)

## I Wonder

Does Frank White really enjoy going out with that slide rule?

Has the FCC given the Betas up as a lost cause. The least they could do is give them 99 years a piece.

How the Red Cross made so much money and how much Bloom made on the side?

## I've Enjoyed

The Greek Week that McNutt put on this year.

The Thoughts of studying in the air conditioned library.

Bill Dafoe's political inactivity.

Waiting for Betsy Wright to free herself of those ties that bind.

The names various womens organizations have called me.

## Aimless Thoughts

Wonder why the AWS board upset their own rules and stayed out so late after the Coed Follies . . . Mac, the janitor in the Union, is one swell fellow . . . why do people drop courses in the middle of the semester . . . it's strange that Mary Russel doesn't get into town more often on weekends . . . wonder why so many prospective MB's are working so hard on the war council . . . isn't it a silly rule that picnics featuring more than three couples must be chaperoned . . .

Please, won't someone please apply for the job of society editor. No qualifications necessary. One must be able to have their friends, enemies, and others dislike them and still smile.

## Receives WAVES Ensign Commission

Tying for top honors in her graduating class, Alicia Henson, university graduate, was commissioned as an ensign in the WAVES in February.

Now stationed with the bureau of aeronautics, navy department in Washington, Ensign Henson was graduated from UN last June. She was a member of Alpha Omicron Pi sorority.

## Bulletin

### STUDENT COUNCIL.

There will be no Student Council meeting tonight, according to Dick Harnsburger, president.

## Accepting Challenge . . . 'University Adjusts Itself To Needs of Nation at War' . . . Writes Nebraska Alumnus

—Courtesy Journal. Featuring the university's adjustment to the needs of a nation at war, the March issue of The Nebraska Alumnus came out this week.

The cover shot shows the north entrance of the new Don Love Memorial Library with the color guard bearing the stars and stripes and the state flag with two cadet officers saluting as they pass in review.

### Problems of War.

In "The Challenge to Higher Education," Elsworth DuTreau takes up the problems of a university at war and the importance of keeping institutions of higher learning functioning as normally as possible for the duration while at the same time making room

for new war time responsibilities. He concludes his March article by saying, "In the world of tomorrow, the humanities will be the rock which we will build a universal civilization. Higher education is the laboratory of the humanities as well as of the sciences. Let us give higher education the best chance possible to do a successful job for freedom today and for the citizenship and leadership of the post-war world."

The campus calendar includes an account of the Prom and the advanced tapping of the Innocents, the war activities, student council action, and new appointments.

### Alum News.

The charter day address of John L. Buechal '12, entitled "Beyond Our Borders" is reprinted in part,

## Mailboy, Not Varsity Athlete, Captures Women's Interest

(ACP). Since the war began, it is the mailboy and not the varsity athlete who is the most popular figure on the college campus, according to a survey by the Holcad, Westminster college "All-American" newspaper.

Coeds get more mail on Fridays than any other day in the week, observers noted. Close to this record day ranks Wednesday's mail deliveries of letters, airmails, and post cards to women's dormitories. College girls stand the poorest

chances of getting mail on Saturdays and Thursdays.

### Laundry Comes Thursday.

If it is a package or a laundry kit she is looking for, a coed is most likely to get it on Thursday, and has the least chance on Tuesdays, the survey indicated.

Each of the 350 Westminster coeds get an average of five letters a week, the Holcad estimated.

The foundry of the State College of Washington is producing light metal alloy castings for the war effort, in a co-operative project with the Washington state planning council.

Macalester college, St. Paul, is in its 58th year.

Mark H. Ingraham, head of the University of Wisconsin mathematics department since 1932, has been named dean of the college of letters and science.
