

Party Line

We regret to inform that yesterday's moron joke was cut, of necessity, maybe this one will get past the censor. Did you hear about Bill McBride who took milk to the show with him—he heard they were going to have serial.

The late flash on pinnings, which appeared in yesterday's paper, concerning Dorothea Duxbury and Steven Dafoe didn't go over very well with the Pi Phi and Phi Deltas; it seems they were pinned about six months ago. What we meant to say was that they passed candy and cigars Monday but when one gets so far in writing this column they reach the point where they don't know what they are saying. All our apologies.

Betas Disappear.

There will be a mass migration of the Betas to Omaha next week end but a few have been tempted to stay in Lincoln Friday night to attend the Theta Black Kat Kabaret. Among those Beta, Theta combinations listening to Johnny Cox will be Peggy Miles and Johnny Edwards, Harold Salzburg and Shirts Wright and Paul Dinis and Jean Rogers (two points for Paul—how about that Jack?)

Overheard in the Union.

"Why didn't we join the Lincolnettes? I saw one cute cadet the other day."

"I wish the Brownies in these cribs were fresh or else they would serve hack saws with them."

"I guess we'll have to start dating cadets now since all the university boys are spending their week ends out of town. I wonder what the attraction is or is it unattraction?"

Bill Munson just informed us that he has a date with Gertrude Pumphandle Rho Dammit Rho, which reminds us that the Phi Gams are going enmasse to Kansas City next week end to see the Damma Phi Datems.

Congratulations to the new leads in the next university play; Dottie James and Bob Black.

Woman Hater Gone Haywire.

Word comes that Dave Marvin, confirmed woman hater, changed

Mother Earth Quakes 650 Times Yearly

BERKELEY, Calif. (ACP). Earthquakes are an every-day affair to Perry Byerly, professor of seismology on the Berkeley campus of the University of California.

Records of the nine seismographs on the campus and others in the six out-stations show a yearly average of 650 shocks from all over the world.

The university seismographic stations on the Berkeley campus and on Mount Hamilton are the oldest in the western hemisphere and among the oldest in the world. They were set up in 1887 at the instigation of an astronomer, E. S. Holden, former president of the university and director of Lick observatory, and a geologist, Prof. Joseph LeConte.

The Berkeley station is also the headquarters of the Seismological Society of America, and the society's bulletin is published there under editorship of George D. Louderback, professor of geology at the university.

Talk . . .

(Continued from Page 1.)

plan of the next war chest campaign.

Because of world conditions war chest budgets are increased to meet the needs of war relief agencies as well as the normal local community needs that always exist regardless of war.

his policy on receiving his call for the army. Disillusioned his anti-dance league he went dancing Friday night with Joan Thomas and had his picture taken Sunday with a dozen girls. Even anticipation changes them!!

We hear that Pi Phi "Babe" Monick is next in line for a steady deal; Bob Rauner Farm House being the recipient. Speaking of steady deals Alpha Phi Pat Gilligan is definitely a free woman.

After a two month's seige in the hospital the Phi Gams and the coeds were glad to welcome Bill Long back to the campus.

We leave you with an interesting thought to occupy your cranial void; what was Bucky Meiers doing in Kearney last week?

Announces Engagement . . .

Courtesy Lincoln Journal.

Mr. and Mrs. Ray Osborn have announced the engagement of their daughter, Jean, to Lt. Albert Wallace Crites of Fort Lewis, Wash. Miss Osborn attended the university where she is a member of Kappa Alpha Theta. Lieutenant Crites is also a graduate of UN, where he was affiliated with Sigma Nu. No date has been set for the wedding.

The engagement was announced at a tea given at the University club in Miss Osborn's honor by Sidney Ann Gardner.

Name Stuart New President Of Palladians

New officers of the Palladian Literary Society were installed Monday night at the regular business meeting with James Hugh Stuart succeeding Marjorie Johnston as president.

Other officers include Betty Toothaker, vice president; Deane Dowell, recording secretary; Mabelle Osenbaugh, corresponding secretary; Marjorie May, social chairman; Mary McDermand, critic. Hold-over officers are Bob Veach, treasurer, and Joan Thomas, historian.

Friday night six pledges were initiated into active membership of Palladian. These were: Mildred Engstrom, Ralph Luebs, Joyce Harper, Mary Helen Alexis, Herb Norman, and Janet Hutchinson.

country contended Militzer when he discussed the new things to come in the clothing field. Concerning wool, he said, "Wool can be reconstituted by chemical means and made better than before."

In the question period that followed the lecture, Professor Militzer believed that both forced and free scientific research would be employed, since too much of either would not give the best results.

Music School Holds Student Recitals Today in Temple

The School of Music will hold a student recital this afternoon at 4:30 in the Temple.

There are 35 music students taking part in this week's recital.

Co-eds studying interior design at the University of Texas have been asked by post officials from the Del Valle air base to design decorations for the officers' lounge at the base.
