Offices Union Building. Day—2-7181. Night—2-7193. Journal—2-3330.

Editor Marjorie Marlette. Business Manager Charlotte Hill

How About That?

In last week's issue, our first, there appeared a small paragraph, "All those interested in working on this page," etc. We didn't get the turn-out we needed.

We realize that there is little free time given to the soldier attending school, and that the soldier wants to use whatever free time he does have in his own way. We just thought that working on a school paper might be "his own way."

12 Can Do It.

It goes without saying that two men cannot possibly put out even one good Army page a week and still have enough time for studies. But ten or twelve men can put out two, possibly three pages each week and, through cooperative effort, each still have plenty of time and a lot of extra enjoyment to boot.

Therefore, the final decision as to whether the army is well represented in our newly-adopted school or not, depends upon you soldiers. If we wish to attend school merely as an army unit and not have soundly-planned soldier-student activities—very well then, no army page. If, however, we wish to return as nearly as we can to our former lives, we must be represented on the most important of all single undergraduate extra-curricular activities—the school newspaper.

The invitation still stands to all those who are interested. Engineers who are going on furlough are asked not to procrastinate until their return so that some organizational set-up may be planned upon their return. Come around to see either Marge Marlette in the Nebraskan office, located in the lower floor of the Student Union, Bill Calkins, or Harry Olesker, both in Room 402 at the Library.

Quotable Quotes

Congratulating General John J. Pershing on his eighty-third birthday, President Roosevelt said: "Today brings it forcibly to mind that you wanted to go through to Berlin in 1918."

Many girls have refused to join any of the auxiliary services, the WAC, the WAVES or the SPARS, because they are afraid that they will lose through their experience and associations the qualities of ladyhood they possess.

They are worrying unnecessarily because a girl who goes into one of the services as a lady will come out a lady, ladyhood being an inner quality that is indestructible. Ladyhood is unaffected by either environment or circumstances. A lady may go anywhere and meet any condition without being contaminated in the slightest degree. She may be thrown into association with men and women who are strangers to gentility and still keep her gentle approach to them and to life.

There is an appearance of ladyhood that is but a thin veneer, possessed by girls and women who think it expedient to show, but which they drop when they are not on guard or parade. And that veneer, exposed to harsh conditions, may easily be chipped off.

The girls need not worry about losing their ladyhood if they enter any of the services. If they have it when they enter, they will come out with it. Alice Reynolds, writing in the Oklahoma City University Campus, entrusts ladies to the auxiliary services.

Dick Noble, writing for the Royal Purple, Whitewater, (Wis.) State Teachers College, looks at a wartime campus: "Two hundred and ninety-three enrolled this year. Four years ago the college boasted a college membership of more than a thousand. And then some said the war in far off Europe and turbulent Asia would not affect us. Sounds rather hollow . . ."

New, How About A Little Action?

The Student Council is meeting separately, the Student Council is tonight, what there is left of it. And all students on the campus are invited to attend the meeting.

This invitation should draw a large crowd, since it is hoped that students haven't lost their interest in self-government and preparation for a more understanding part in the democracy we're fighting for. It should also provoke interest in the coming election—if there is one.

Until the student body actually elects a Council there can be little activity, and the semester is already started. An election, we think, should be held as soon as possible, not later than a week from Tuesday. The school year passes swiftly.

Head of all organizations on the campus, responsible for appointing members to the Student Union Board, the instigator of various groups which are now operating. All the answer we want is action!

We need the Student Council.

V...— Mail Clippings

Pat Chamberlin, Censor

Horse Sense is back on the Daily. That is, NORRIE ANDERSON, Daily sports editor and Phi Gamma last year, is back at UN on a 15 day furlough from his Marine OCS class at Northwestern. For the past two months, Norrie has been in the Great Lakes hospital, with blood poisoning in the face. It is still doubtful whether or not he can regain the full sight of his eye. But he still turns out copy like a true Daily Trojan.

A letter from BOB SCHLATER, Daily editor and ATO Innocent last year relates that Infantry OCS at Ft. Benning, Ga., is no weekend wheeze in Omaha. Also struggling along with him are The Campus Politico and ATO Innocent JOHN JAY DOUGLASS, Beta JACK STUART, Phi Delt LYLE KING and HANK GREEN, and Beta LYLE FOLSOM.

GEORGE BLACKSTONE, ATO PBK last year is undergoing specialized tests at Grinnell University, Iowa, and will soon be transferred to some ASTP school where he will concentrate on French.

REN BUKACEK, Kappa Sig Innocent last year, and brother Innocent Phi Gamma BOB MILLER, SAM BOB BRAMSON, Phi Delt FRED METHENY, and Kappa Sig BILL ROBINSON, are in a tank destroyers' unit at Camp Hood, Texas.

Kappas ANN CRAFT, honorary colonel last year, and ANNABELLE SHAUM, bridge fiend, have joined the WAFS, becoming the first university coeds to join this branch of the service. They are in flight training at Sweetwater, Texas.

"JEEPERS, DADDY I'M WRITING UNCLE SAM'S HANDSOMEST FLYER AND MY PEN CONKS OUT. THINK IT CAN BE FIXED?"

We Present... Rachael Locke

One of the mightiest of the mighty on this year's war-time campus is Rachael Ann Lock, president of Mortar Board and interested in practically everything.

When "Rae" was masked last Ivy Day as a new Mortar Board, it was the culmination of three years of hard work in activities and scholarship. At present she is on AWS board and a member of Phi Upsilon Omicron, honorary home economics organization. She was elected last spring to the student-faculty relations committee on Ag college and has been active in Y.W.C.A. affairs. She spends a lot of time at Ag, as she is majoring in textile and designing. Art is her hobby.

In appearance, Rachael is a tall, brown-haired, brown-eyed woman of average build. She has a slight peroxide streak in the top of her hair and a nice smile. Forgetting to speak to acquaintances on the campus is one of her foibles.

Her list of honors is enough to stagger most of us, but in the words of one of Rachael's Tri Delt sorority sisters, "You'd never know she was a big-shot from the way she acts. She's a mighty good girl." Friends say that "Rae" has a dominant personality, and her hat still fits as well as ever! If past and present are any indication, Rachael Lock looks like a "gal with a future."

"SEARCH ME, PAT. PENS AND REPAIR PARTS ARE SCARCE. WHY DIDN'T YOU PROTECT IT WITH PARKER QUINK? IT HAS SOLV-X IN IT!"

Pen shortage grows! To keep your pen writing...use Quink with solv-x!

DON'T expect to replace your pen if it fails now! Production of all pens—especially of first-choice brands—has been sharply reduced by Government order. Repair parts, too, are scarce!

Why not let Parker Quink provide the "ounce of prevention"? This ink alone has the magic ingredient, solv-x.

FOR V...—MAIL "Micro-film Black." Parker Quink in "Micro-film Black" photographs perfectly! It is jet-black—ideal for every use. Quink comes in 7 permanent colors: Micro-film Black, Blue-Black, Royal Blue, Green, Violet, Brown, Red. 2 washable colors: Black, Blue. Family size, 25¢. Other sizes, 15¢ and up.

MAKE YOUR DOLLARS FIGHT—BUY WAR BONDS NOW!

PARKER Quink

THE ONLY INK CONTAINING SOLV-X

SOLV-X
in every
bottle of
Quink...
protects pens in 5 ways!

- Protects rubber...lengthens the life of sac or diaphragm.
- Dissolves sediment and gum left by other inks. Cleans your pen as it writes.
- Prevents clogging of feed.
- Safeguards base metal parts...
- Assures quick starting and even flow at all times.
