Frosh Nebraskan Reporters Meet At 5 Wednesday

Freshman who signed up for work on the Daily Nebraskan at the activities mart and all other students interested in working on the reportorial staff of the paper will, meet with Marge Marlette, editor, Wednesday, at 5 o'clock in the Daily office in the basement of the Union.

This meeting is especially important since the editor will explain the function of the reporters and assign beats. Reporters will be given beats according to their preference and time.

A list of inches of each reporter and staff member turned in each week is posted on the bulletin board in the office so each one can know how his work compares with other workers. At the end of each semester the publications board selects a new staff. New news editors are selected from those reporters showing the most work and ability.
