

A Gift of a Way of Life

THAT'S the thought that this Christmas, in this country, brings out. For this year, all the most loving wishes for family and friends are best put into the present with a future . . . United States War Stamps and Bonds. All the good things in America's way of life . . . all the wonders in store when peace returns . . . all the help our fighting men need . . . you give when you give Bonds and Stamps!

GIVING needed, useful gifts is also a part of this new Christmas spirit. Now, more importantly than ever, a Magee's label manifests the quality that these days require and keeps intact the faith you have in all fine things!

AND if the greatest material part of this Christmas is for the children, let the tree lights shine all the brighter. Let color and beauty and warmth and fragrance make memories they'll cherish and carry on through Christmases to come, when peace brings joy to all mankind!
