# Gals Track Down Guys In True Leap Year Style

BY RUTH KORB.

Leap Year comes but once every four years, so we must make the best of our chance. So put on your hunting equipment, blink your false eyelashes, smile with those painted lips, and let's go!!

Since this really is Leap Year, and a member of the female sex has a legal right to ask a man to marry her, we do take advantage of this great privilege.

First, we have the subtle type. "Tactful Tillie" spends hours before the mirror and in parading up and down in front of admiring or critical eyes. Her conversation is always about little domestic things, like how well she can bake a cake, or how she always makes a bed with square corners.

Slowly, but surely, she cleverly

pushes him into that corner, and before he knows what he is doing, he is married to her. Whoever said that silence was golden must not have been married.

No Beating Around.

And then we always have "Frank Fannie," who doesn't believe in beating around that terribly large bush. Her conversation with the unsuspecting male is liable to go something like this:

"Now, Jim, you know perfectly well that I am a very capable woman. I can cook, sew, and raise children. There is no insanity in our family, and we have a good name. You aren't especially God's gift to women, but you're nice, in a repulsive sort of way. So, I have decided that I am the logical one for your to marry.

## Engineers Announce Their Day, April 28

Engineer's Day will be held Friday, April 28, it was reported today by Levi Arehart, president of the engineer's executive board which is sponsoring the annual affair.

Included in the day's activities will be an afternoon of softball contests between departments, an egg match and a "Professors' Tall Story Contest."

Present College News.

At the banquet which is open

to all engineers, the Sledge Senior will be presented and awards will be made.

"The Sledge Senior contains the news and gossip about the College of Engineering," explained Lewis Kremer, secretary of the executive board.

Dr. N. H. Cromwell, assistant professor of chemistry, will be the toastmaster at the banquet which is to be held in the ag activities building, and Mayor Lloyd Marti of Lincoln will be guest speaker.

1941 Exciting Events.

In 1941 the engineers elected a Queen to reign over their ball which was the climax of a week-end of activities. Other functions included an open house and a convocation.

Most spectacular event of the weekend, as was revealed in a 1941 Nebraskan, was the annual feud between the lawyers and engineers. The feud was started by the lawyers. They moved a 3,000 pound combine, an exhibit of the engineers, in front of the law building and then covered it with white wash. The engineers retaliated by "turning the west end of the campus into an omelet," having a fist to fist fight with the lawyers and turning the hose on them.

## Phys Ed Head Attends New York Meeting

Mabel Lee, director of physical education for women, left April 20 on a two-week trip to attend a group of professional meetings in New York City.

First conference is the American Academy of Physical Education, with Miss Lee serving on the executive committee as the immediate past president. Special guests at these meetings are Dr. Ernest Jokl of South Africa, internationally famous for his work in the field of the physiology of exercise, and Squadron Commander Winterbottom of the RAF, who is one of England's leading physical educators.

Attends Conference.

Afterwards, Miss Lee will attend the conference of the National Association of Directors of Physical Education for College Women, which she serves as a past president. Following this con-

## Coed Counselors File for Positions As Group Heads

Coeds interested in becoming leaders in the Coed Counselors' book review and charm school groups may file anytime Wednesday, Thursday and Friday of this week in Ellen Smith hall and in the home ec building on ag from 9 a. m. to 5 p. m., announced Gloria Mardis, president.

Miss Mardis suggested that those who file be juniors next fall. All applicants will be interviewed by the Coed Counselor board who will elect two or three coeds as leaders.

## Frosh Obtain Special Registration Suggestions

According to Dean Nels A. Bengston, a sheet of special suggestions in regard to closing this year's work and planning for summer school and next year is now available at the junior division office. All freshman and prospective sophomores are asked to call for their copies immediately.

## UN Regents Approve Law School Credit

Credits from any law school that is a member of the American Association of Law Schools will be accepted by the university so long as instruction in law is not being given here, according to a decree issued by the Board of Regents at its April 20-21 meeting in Curtis and North Platte.

Such credits will be satisfactory toward requirements for degrees in the college of arts and sciences under the combined program of arts and sciences and law courses.

Make New Appointments

Chancellor C. S. Boucher also reported that several leaves of absence were approved and new appointments to the staff made.

Ralph Hull, chairman of the department of mathematics and as-

## Latin-America Lecturer Talks At Uni Convo

Widely known author, lecturer and student of Latin-American affairs, Hubert Herring will appear at a university convocation April 28 at 11 a. m. in the Union ballroom under the auspices of the convocation committee.

Herring has made Latin-America a life time study. He has made more than 40 trips to the southern republics and has been director of 25 international conferences in Mexico, Guatemala and the countries of the Caribbean.

During Herring's two day stay in Lincoln he will speak at a Chamber of Commerce luncheon, before the Lincoln teachers and

Let's not waste any more time with the preliminaries."

Who was it that said that women couldn't make up their minds, and a man's?

The Clinging Vine.

The one who is the most fun of all to watch, is that favorite of big, brawny men the world round, is "I'm so weak and you're so strong Winnie." Beneath that dumb exterior, we find a fiendish brain. She can't talk about the war in Italy, nor discuss the soldier vote bill, but, boy, how she can—dance, of course. Her big eyes are always wide-open, her lips parted in a breathless smile, and her clothes carefully selected to show off her—muscles. And, do the men love it! She never fails
