

UN Grad of '41 Writes Article For Blue Print

From the battle scarred islands of the south Pacific, Houston Jones, a '41 graduate of the university, writes of his views on the engineering educational systems and its subjects in the April issue of the Blue Print, monthly magazine of the college of engineering.

Jones says there is a demand for engineering leadership in economic, national and international affairs, and attributes the demand for new leadership to the fact that people have lost confidence in the men and groups who led them after the last war thru the chaos of the '30's into the present conflict.

"The ideal engineer has rounded out his personality and increased his endowment thru the development of a consciousness of matters social, economic, political, literary, artistic and indeed, of matters bearing upon human interest in general."

News of Miller.

Alumni news tells of Capt. Paul Miller, '43, "missing in action" on the Anzio beachhead. He took part in the Tunisian campaign, served as volunteer in the Sicilian campaign and at the Anzio beachhead assignment. In addition, he received the purple heart decoration for wounds in the Italian campaign.

Other articles of interest are: "Engineers' Responsibility in Civic Affairs" by D. Robert Yarnall, chief engineer, for Yarnall-Waring Co., Philadelphia, Pa., and "North Platte's Primary Network Electrical Distribution System," by Bertram E. Ellsworth.

City Churches Plan Activities For Weekend

Lincoln churches announce their week-end plans. Father G. J. Shuster, chaplain, will say mass at 11 a. m. in room 201 of the Temple. Confessions will be heard before and after the mass. St. Mary's Cathedral, 1420 K street, will have masses from 6 a. m. to 11 a. m.

Roger Williams fellowship will meet at the Baptist student house at 6 p. m. with Phillip Meng, Chinese student, speaking to the group on "Religion in China." Virginia Stuermer will lead the worship with Ada Harms presiding. **Speaks on Conference.**

Rev. Ray Kearns announced that Maria Yamashita will speak to the Presbyterian students on her recent trip to the World Student Christian Conference, held in Aurora, Ill. Following the meeting, a 25c supper will be served.

Services at the University Episcopal church, 346 No. 13th street, will be held at 8:30 and 1:30 a. m. Rev. L. W. McMillin, pastor, announced.

Wesleyan Student Foundation will have a joint meeting with Ag campus Sunday night and discussion will be "Faith I Live By." Methodist students will meet the student house at 6:30 p. m. before going to the ag student house, 3605 Holdrege street.

Rev. Mr. Erek, university pastor, announces the Lutheran chapel service for students and service men will be held in room 215 of the Union at 11 a. m. The sermon topic will be: "What Did Israel Promise at Mount Sinai?"

Apparently the Japanese are having a difficult time cussin' the Helldivers, the Curtiss-Wright planes now dealing out punishment in the South Pacific.

Dr. R. H. Gerhard, instructor of Japanese at Ohio State university, points out there is no word for "hell" in Japanese.

Dr. Herhard said the closest they could get to Helldiver is "Herudiaba."

Mrs. J. Almy Gives Physics Scholarship

Announcement of an annual \$50 physics scholarship established by Mrs. Amy C. Almy, has been made by Perry Branch, director-secretary of the Nebraska Foundation.

Mrs. Almy is the widow of the late Dr. John E. Almy who was for many years professor of experimental physics.

The first scholarship will be available next fall to the student who has completed one year of college work satisfactory and who displays marked ability and promise of success.

MRS. ALMY

Dr. Fred Koch Speaks To Chemical Society

Dr. Fred C. Koch, director of biochemical research for Armour and company, spoke Wednesday night at the 204th meeting of the Nebraska section of the American Chemical Society in the Avery laboratory of chemistry.

His subject was "Recent Biochemical Studies on Male Sex Hormones."

In his address, Dr. Koch described some of the important work and developments in the field of sex hormones during the last 15 years. He told of several of the experiments that he and his biochemical colleagues have performed in that period of time.

At the University of Chicago he has held successively the positions of assistant professor, associate professor, professor and chairman of the department of biochemistry.

In 1941 he was made Hixon Distinguished Service Professor Emeritus of biochemistry. The same year he began working for the Armour company and two years later was made director of biochemical research for the same company.

Used Slides and Drawings.

His speech was accompanied by slides and blackboard drawings, all of which he explained during his speech. His subject, though highly scientific, was interesting to chemists and layman alike.

Before Dr. Koch addressed the group, they dined at the Union building and had a business meeting.

The 205th meeting of the Nebraska section is to be held next Thursday night at 8:00. The address is to be given in the general

lecture room of Avery laboratory. The speaker will be announced this week.
