

### Society . . .

Monday night and Harry James will find lots of former UN students back for the occasion. Marine Cadet Reid Devoe, Fiji, will be escorting Theta Mary Lancaster, and Tom Scheer, Sig Chi from Camp Lee, Virginia, has a big date with Mary Ann Meyer, Alpha Phi. Incidentally, this deal might develop into something steady. Rumor has it that Phi Delt's Rex Wagner and Bruce Allen will be there, too. Who'll the lucky gals be?

In spite of the man shortage, Alpha Phi Margie Munson has too many men on her hands for Harry James so a sister is taking care of one.

Lt. Jack Hogan, Tau, seems to have a pull with Uncle Sam. Hogie was down to see the boys on another leave this week.

Pi Phi Betty Dobbs and Lt. Pres Hays, former Innocent and Sigma Nu, have chosen mid-fall for the taking of the vows. Glad to see they got together.

Beta Harry Staples, ASTP on the campus last year drove up from West Virginia in his Cadillac convert to see Alpha Chi Mary Lou Holtz for two days last week. Sounds interesting, Mary Lou.

Bev Swartwood and Bev Evans over Tri Delt way have been having a big week with both their men here on leaves. Lt. Bill Sorenson, Sig Chi of last year, to see Swartwood and Lieutenant Gross visiting Bev Evans.

Taus had a big reunion Friday night in honor of Lt. "Dog" Finley and Ensign Bill Korff who are back. "Dog" was with his pinmate Pat Parrish, KAT; Bill Korff with Joan Damewood, Bob Brown and Kappa June Korb and Bill Gayer with Mary Kay Bogan, Tri Delt. By the way, we are wondering where Harold Hopkins fits into Pat Parrish's plans now.

Mary Edwards and Carol Fredrickson, Tri Delt, took a jaunt down to the KU game this week end. More of such UN loyalty would be a good idea.

Alpha Phi Pledge Gladys Grothe has been seeing a lot of Bob Wilkins, DU, lately. Friday night they took in Dunninger. Is this a steady deal???

Lt. Jack Martin, SAE, was married Oct. 6 to Shirley Wise, Minnesota U Tri Delt. Shirley is now visiting her in-laws in Lincoln. Tri Delt's can really be proud of her.

Some more James fans Monday night will be Alpha Chi Catherine Curley and Sig Chi Jehanie Bell—Tom Cornish, Phi Gam, and Janice Wilson, Tri Delt—Jackie Crogh, Alpha Chi, and Lt. Bill Jackson from N. Y.—Marg Olson, Alpha Phi, and Thorn Dillon, Fiji—Some DG dates are Gerry McKinsey and Don Kline—Betty Simodynes and Lt. Danny Meyer, Phi Delt—Mickey McPherson and Dick Miller.

Alpha Chi B. J. Hunzinger, now of the WAVES, was back on the campus this week as well as DG Betty Newman sporting a new diamond from Beta Bill Williams.

Newmie is now a hostess with the United Airlines.

Kathy Legge, Pi Phi, is a bottleneck in the man situation. We hear she was with three fellows Friday night. More power to her.

### Mentalist . . .

(Continued from Page One.)  
 cause the management of the restaurant was convinced that he already knew what was offered. Laughing at these attitudes, Dunninger declares that he must use the same process for working with one individual as with a group of people. Mr. Dunninger says that he loses about two pounds during one performance and ages considerably. A tremendous amount of vitality is drained from his system due to the powerful concentration he must exert; therefore it is impossible for him

### Bulletin

**Kappa Phi.**  
 First semester pledging service of Kappa Phi, Methodist Women's Club, will take place Wednesday, October 25, at 5:30 p. m. in Room 313 of the Student Union. After the pledging, the new pledges will be honored with a Big and Little Sister dinner in the XY room of the Union.

Both alumnae and activities will be present at the service. Lavawn Johnson is chairman and Beverly Biba will be toastmistress at the dinner.

to spend all of his time reading people's thoughts.

**"Warms Up."**  
 For about thirty minutes before he makes a public appearance, he "warms up" and places himself in the receptive state of mind necessary for his performance. The mental genius has cultivated this ability through thirty years of experience, appearing in the White House before six different

presidents, and experimenting with Edison and Steinmetz.

For the past four years, Dunninger has worked in large medical institutions under the auspices of physicians, curing "uncurable" diseases by a form of hypnosis. He made it very clear that he does not use hypnosis in his public appearances.

When asked to define his ability, he suggested it as being perhaps either hypnotic or magnetic or a combination of both. Dunninger makes about three public appearances a week in addition

to his radio programs. Commenting on his years of experience he stated that cheap imitators of his work have always irritated him
