

Union Activities Include Dance After UN Rally

First Student Union activity of the week-end will be a juke box dance tonight from 9 to 11 in the ballroom, following the rally. All students and trainees are invited to attend.

There will be no dance in the Union Saturday night because of the homecoming dance at the coliseum.

A faculty recital will be presented Sunday afternoon at 3. This is the first of a series of recitals to be given by the school of music.

Ending the week-end activities will be a variety show in the ballroom Sunday evening at 8, featuring Rosalind Russell and Fred MacMurray in "Flight for Freedom."

Council . . .

(Continued from Page 4.)

must be passed on by the Council at the beginning of each year, it is advisable that the party platforms contain, in addition to any general party aims, reasonably sound and intelligent proposals for the year to come, the insuring of such party platform being, of course, the reason for the yearly checkup.

"3. The provision for the election of a party leader. The Council considers a party leader necessary not only for the efficient running of the party but also for the handling of business between the council and the party. However, in keeping with the aims of this revised political program, each party must devise a democratic method of choosing its party leader by general election within the party.

"4. The organization and the business of the party's faction. As has been stated, the Council recognizes the value of a faction organization within each party. Again, in keeping with the aims of this revised political program, each party must devise a democratic method of choosing their faction members by a general election within the party. As already stated, it is the duty of the faction to draw up its party's slate of candidates for all campus elections.

"5. The method of determining the party slate for elections. It seems advisable to shorten the ballot by ridding it of extra names from each party which that party does not intend to back. Therefore the Council hereby requires each party to devise a democratic method of determining its slate of candidates for all campus elections, to the end that each party will file with the Council by a specified time its list of candidates, having only one candidate for each position open to that party.

"In the case of the elections themselves, and the rules pertaining to the elections, the Student Council abides by the interpretation of the election rules given by the judiciary committee of the Student Council of 1941. All parties and all independent candidates must know these rules and must either abide by them or suffer the penalty for breaking them, which is the disqualification of the offending party's candidates or of the offending independent candidate."
