

Peterman Wedding Party . . .

The marriage of Miss Marilyn Mardis to Lt. George Ralph Peterman at the First Presbyterian church was solemnized Oct. 19. Pictured above is the bridal party, from left to right: Miss Gloria Mardis who attended her sister as maid of honor; Pvt. Darrell DeVoe, best man; and the bride and groom. Mrs. Peterman attended the University of Nebraska and is a member of Pi Beta Phi.

Society . . .

BY HELEN GOODWIN.

With the excitement of home-coming over, and winter tingling in our ears, news is either so spicy it burns, or at the low ebb of crispness. Prevailing on better judgment, temptation to print the former is refrained . . . or by necessity.

Still pins, candy passings, weddings and love hold precedence. Phi Delt of last year, Cpl. Leo Beck returned last week end and made June Stubblefield a jr. Phi Delt. What happened to June Griffin, Tri-Delt in this triangle? On ag campus, candy passing came to the front. Iris Baxter and Melvin Hewitt of the Merchant Marines did the honors, as did Ruth Weinburger and Lt. Neil Fouts, formerly of the Pioneer Co-op.

Back on leave and with special interest on campus is Lt. Quenton Allen, SAE, who surprised his fiancée Mortar Board Helen Johnson of the Delta Gamma domain. SURPRISE, it was! Delta Gammamas were in an uproar midst the meetin' and greetin', but all ended well.

Naval Air Cadet Norm Hoelk, Phi Delt of last year, was home on leave visiting Theta Joline Ackerman. Making the most of his brief visit they took in the dance at the Pike Sunday, and have been busy since . . . Ah yes!

Phi Gams back on campus were Naval Air Cadet Knute Coppel who was seen at the Pike Sunday with SK Doris Frahm. Larry Wentz, connected with Uncle Sam's navy in a round-about way stopped over enroute to Philadelphia.

Saturday night, the Sigma Nu's were hosts at their annual "Pig Dinner." Not pork, but pheasant was served and 'twas mighty good. Zane 'Tex' Cole had his pinmate Chickie Her down for the big event. This news might be quite a surprise to girls about campus who thought he was an eligible bachelor.

Other Sigma Nu dates were Dick Batchelder and Chi O Dorothy Black; Jim Alexander and AOPi Mary Louise Kennedy; Don Chapin and Chi O Hink Asson . . . this twosome might provide future news; Harry Harris and Tri-Delt Shirley Schnitker; Melvin Hermsmeyer and Anne Doudna, Gamma Phi.

Another pin found its way to the AOPi house when Georgialee Hansen and Murray Minthorne found each other. Murray is now

attending Med school in Omaha, formerly on campus and Farm House member.

Betas Dick Klopp and Bill Olson imported their dates from Omaha for Beta party, and have done same in past. Does this mean that UN doesn't have enough eligible fems on campus? Or is it just love?

Blue jackets from Crete seemed to take over pledges last week end. KKG Martha Aikin, Theta Betty Heckenlively, and DG Nancy Gary were with Bob Wenke, Bud Shaumberg and Jim McDermott respectively.

Jackie Tobin, AOPi pledge has been dating Dick Coke, Phi Psi, or so the report goes. Speaking of dates, and such things . . . what is Phi Delt Joe Kessler doing at the Pi Phi house so much? Another question that arouses curiosity is why is Tau Bob Buxton so interested in David City lately?

Disturbing the Alpha Xi house, and arousing their curiosity are the numerous messages Shirley Eurnig gets from 'Ed'. "What a difference a day makes." Popular song most everywhere. Does this answer anything?

Last but not least, the Sig Ep serenade Wednesday night proved that "Sank Frinatra" isn't the only one that can sing. Let's be having more of these. (Subtle hint, fraternities).

'Blueprint' Cover Gets Face-Lifting For First Issue

The Blueprint, magazine of the college of engineers, will appear soon with a new cover design.

The first of its regular eight issues a year will contain articles on new Nebraska industries, an electric arc process and an article by Professor De Baufre, chairman of the Department of Engineering Mechanics, on what the university can do to promote manufacturing in Nebraska. These features as well as the regular reports on various engineering societies will be of interest to all engineers.

The Blueprint's assistance on the faculty is Professor Barnard of the Mechanical Engineering Department and this year's magazine which is sent to members of the alumni group of the college as well as students, will have Jack Busch as its editor.

Farmers using electric power find that milk can be cooled at 8½ cents per 100 pounds, as against 40½ cents by ice.

Jackets Head Coeds' Fashion List for Fall

Unusual jackets hold the spotlight these crisp, fall mornings as UN students hurry sleepily along leaf-bordered walks to continue a morning nap at an eight o'clock class.

"How" becomes the theme song as proud co-eds saunter past donned in brown or tan "indian style" jackets. Trimmed with a like fringe on sleeves and shoulders or decorated with gaily colored beads, they are really "news" this fall.

As Uncle Sam's service colors take over the wardrobes of boy friends co-eds don discarded jackets of all styles, lengths, and colors. We have captured his secret, and broad feminine shoulders are definitely "in."

Mannish tan breakers, sleeves rolled carelessly, are seen trotting in and out of the corn crib door and peering around cool refreshing cokes at any time of these cool October days.

Students avoiding a chilly "eight o'clock" come out in the late hours of the morning donned in sleeveless "plaid n plain" jackets topping matching or contrasting skirts.
