

Panhell Council Gives Wartime Workshop Plan

Panhellenic wartime workshop will start Sunday, Nov. 5, with an all-sorority church Sunday and a house president's dinner to be held at the Cornhusker at 1.

Exchange luncheons will start Monday and continue through the week. Mary Joe Kobes, Panhellenic Council president, will speak Monday at a Panhellenic meeting at 5 in Ellen Smith hall.

Tuesday in the Union at 5, Jim Chubb, former student pastor at Baker university, will speak at Vespers.

Pledge training, especially for pledge captains and pledge presidents, will be held at 5 Wednesday at Ellen Smith hall. At 7 Mrs. James Stuart will speak on "What Should Wartime Social Activities Be?"

Larson Speaks.

Thursday, Jean Larson, president of Mortar Board, will speak at Ellen Smith Hall on "What Should Wartime Campus Activities Be." Mrs. Carl Lessenhop, scholarship advisor of Kappa Alpha Theta, will discuss "Objectives and Techniques of Scholarship" at Ellen Smith hall at 7.

A dinner for all sorority girls Friday at 6 in the Union ballroom will climax the week of activities. The guest speaker will be Mrs. Joseph Seacrest, national president of Kappa Kappa Gamma.

UN Instructor Publishes Book On War Fiction

The university's newest art instructor, Clara Marie Allen, has recently published a book, "Slacks and Callouses," written in collaboration with Constance Bowman.

A story of a summer spent working in an airplane factory on the west coast, it is told in a simple, direct manner, with amusing illustrations.

The co-authors spent the summer months on an aircraft production line and recorded their experiences in a book filled with wit, humor, apt descriptions, and clever cartoons.

Mrs. Allen received her master's degree in art from the University of California in 1939, and has been teaching since that time.

Former Student Earns Medal In Munich Raid

First Lt. Richard E. Kinman, Grand Island, Neb., has been awarded the Distinguished Flying Cross for "extraordinary achievement while participating in aerial flight against the enemy."

While participating in a bombing mission on Munich, Germany the B-24 Liberator in which Lieutenant Kinman was navigator developed engine trouble in three engines. Despite the fact that the plane had fallen out of formation the crew reached the target and made a successful bomb run, although the plane suffered many flack hits.

A graduate of Lincoln high school in June 1934, Lt. Kinman attended the university in 1935 where he was enrolled in the business administration college. Entering the army in 1941, he took his training in San Marcos, Tex.

Besides the recently awarded Distinguished Flying Cross, Lieutenant Kinman has also received the air medal with three Oak leaf clusters.

Lincoln Camera Club Opens New Exhibit in Morrill

The Lincoln Camera club announces the first All-Nebraska salon of photography Nov. 5 to Nov. 17.

The salon affords an opportunity for camera enthusiasts to display their work. The exhibition presents photography by residents of the state, former Nebraskans and by service men stationed in Nebraska.

Following the showing at Morrill hall, Lincoln, the exhibition will be later held at Joslyn Memorial, Omaha, and in Hastings.

Mrs. O. W. Meier Sets Up Student Memorial Fund

In memory of her husband, the late Otto W. Meier of Lincoln, Mrs. Meier has established a \$500 student loan fund, according to Perry W. Branch, secretary of the Nebraska foundation.

Mr. Meier was a practicing lawyer in Lincoln. He received his law degree from the university in 1900. His son Franklin, now a lieutenant in the navy, was well-known as center on the Nebraska football team in 1933-34.

The loan is available to students registered in any school or college of the university

Dr. F. H. Tanner Talks to Nu-meds About Pathology

Dr. Frank H. Tanner, pathologist attached to the Lincoln hospitals and graduate of the Nebraska school of medicine, discussed the work of a pathologist at the Nu-med meeting held in 315 Student Union Wednesday evening.

Pathology, the science of diseases in man, explained Dr. Tanner, consist of four general divisions. Surgical pathology is the examination of tissues surgically removed, to determine the nature or extent of the disease. While the patient is still on the

operating table, the pathologist examines the excised portion and decides if removal of more tissue is necessary to stop the disease.

Corpses offer pathologists opportunities to study the effect of diseases on the whole body, and it is thus able to determine symptoms unobservable to the doctor. A great number of these autopsies are performed, as a hospital is

rated in accordance to its autopsies.
